

**TITLE IV—FISHERY MONITORING AND RESEARCH**

**104-297**

**SEC. 401. REGISTRATION AND INFORMATION  
MANAGEMENT**

**16 U.S.C. 1881**

(a) **STANDARDIZED FISHING VESSEL REGISTRATION AND INFORMATION MANAGEMENT SYSTEM.**—The Secretary shall, in cooperation with the Secretary of the department in which the Coast Guard is operating, the States, the Councils, and Marine Fisheries Commissions, develop recommendations for implementation of a standardized fishing vessel registration and information management system on a regional basis. The recommendations shall be developed after consultation with interested governmental and nongovernmental parties and shall—

(1) be designed to standardize the requirements of vessel registration and information collection systems required by this Act, the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and any other marine resource law implemented by the Secretary, and, with the permission of a State, any marine resource law implemented by such State;

(2) integrate information collection programs under existing fishery management plans into a non-duplicative information collection and management system;

(3) avoid duplication of existing State, tribal, or Federal systems and shall utilize, to the maximum extent practicable, information collected from existing systems;

(4) provide for implementation of the system through cooperative agreements with appropriate State, regional, or tribal entities and Marine Fisheries Commissions;

(5) provide for funding (subject to appropriations) to assist appropriate State, regional, or tribal entities and Marine Fisheries Commissions in implementation;

(6) establish standardized units of measurement, nomenclature, and formats for the collection and submission of information;

(7) minimize the paperwork required for vessels registered under the system;

(8) include all species of fish within the geographic areas of authority of the Councils and all fishing vessels including charter fishing vessels, but excluding recreational fishing vessels;

(9) require United States fish processors, and fish dealers and other first ex-vessel purchasers of fish that are subject to the proposed system, to submit information (other than economic information) which may be necessary to meet the goals of the proposed system; and

(10) include procedures necessary to ensure—

(A) the confidentiality of information collected under this section in accordance with section 402(b); and

(B) the timely release or availability to the public of information collected under this section consistent with section 402(b).

(b) FISHING VESSEL REGISTRATION.—The proposed registration system should, at a minimum, obtain the following information for each fishing vessel—

(1) the name and official number or other identification, together with the name and address of the owner or operator or both;

(2) gross tonnage, vessel capacity, type and quantity of fishing gear, mode of operation (catcher, catcher processor, or other), and such other pertinent information with respect to vessel characteristics as the Secretary may require; and

(3) identification (by species, gear type, geographic area of operations, and season) of the fisheries in which the fishing vessel participates.

(c) FISHERY INFORMATION.—The proposed information management system should, at a minimum, provide basic fisheries performance information for each fishery, including—

(1) the number of vessels participating in the fishery including charter fishing vessels;

(2) the time period in which the fishery occurs;

(3) the approximate geographic location or official reporting area where the fishery occurs;

(4) a description of fishing gear used in the fishery, including the amount and type of such gear and the appropriate unit of fishing effort; and

(5) other information required under subsection 303(a)(5) or requested by the Council under section 402.

(d) USE OF REGISTRATION.—Any registration recommended under this section shall not be considered a permit for the purposes of this Act, and the Secretary may not propose to revoke, suspend, deny, or impose any other conditions or restrictions on any such registration or the use of such registration under this Act.

(e) PUBLIC COMMENT.—Within one year after the date of enactment of the Sustainable Fisheries Act, the Secretary shall publish in the Federal Register for a 60-day public comment period a proposal that would provide for implementation of a standardized fishing vessel registration and information collection system that meets the requirements of subsections (a) through (c). The proposal shall include—

(1) a description of the arrangements of the Secretary for consultation and cooperation with the department in which the Coast Guard is operating, the States, the Councils, Marine Fisheries Commissions, the fishing industry and other interested parties; and

(2) any proposed regulations or legislation necessary to implement the proposal.

**16 U.S.C. 1881**  
**MSA § 401**

(f) CONGRESSIONAL TRANSMITTAL.—Within 60 days after the end of the comment period and after consideration of comments received under subsection (e), the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a recommended proposal for implementation of a national fishing vessel registration system that includes—

- (1) any modifications made after comment and consultation;
- (2) a proposed implementation schedule, including a schedule for the proposed cooperative agreements required under subsection (a)(4); and
- (3) recommendations for any such additional legislation as the Secretary considers necessary or desirable to implement the proposed system.

**109-479**

(g) RECREATIONAL FISHERIES.—

(1) FEDERAL PROGRAM.—The Secretary shall establish and implement a regionally based registry program for recreational fishermen in each of the 8 fishery management regions. The program, which shall not require a fee before January 1, 2011, shall provide for—

- (A) the registration (including identification and contact information) of individuals who engage in recreational fishing—
  - (i) in the Exclusive Economic Zone;
  - (ii) for anadromous species; or
  - (iii) for Continental Shelf fishery resources beyond the Exclusive Economic Zone;and
- (B) if appropriate, the registration (including the ownership, operator, and identification of the vessel) of vessels used in such fishing.

(2) STATE PROGRAMS.—The Secretary shall exempt from registration under the program recreational fishermen and charter fishing vessels licensed, permitted, or registered under the laws of a State if the Secretary determines that information from the State program is suitable for the Secretary's use or is used to assist in completing marine recreational fisheries statistical surveys, or evaluating the effects of proposed conservation and management measures for marine recreational fisheries.

(3) DATA COLLECTION.—

(A) IMPROVEMENT OF THE MARINE RECREATIONAL FISHERY STATISTICS SURVEY.—Within 24 months after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, the Secretary, in consultation with representatives of the recreational fishing industry and experts in statistics, technology, and other appropriate fields, shall establish a program to improve the quality and accuracy of information generated by the Marine Recreational Fishery Statistics Survey, with a goal of achieving acceptable accuracy and utility for each individual fishery.

(B) NRC REPORT RECOMMENDATIONS.—The program shall take into consideration and, to the extent feasible, implement the recommendations of the National Research Council in its report Review of Recreational Fisheries Survey Methods (2006), including—

- (i) redesigning the Survey to improve the effectiveness and appropriateness of sampling and estimation procedures, its applicability to various kinds of management decisions, and its usefulness for social and economic analyses; and
- (ii) providing for ongoing technical evaluation and modification as needed to meet emerging management needs.

(C) METHODOLOGY.—Unless the Secretary determines that alternate methods will achieve this goal more efficiently and effectively, the program shall, to the extent possible, include—

- (i) an adequate number of intercepts to accurately estimate recreational catch and effort;
- (ii) use of surveys that target anglers registered or licensed at the State or Federal level to collect participation and effort data;
- (iii) collection and analysis of vessel trip report data from charter fishing vessels;
- (iv) development of a weather corrective factor that can be applied to recreational catch and effort estimates; and
- (v) an independent committee composed of recreational fishermen, academics, persons with expertise in stock assessments and survey design, and appropriate personnel from the National Marine Fisheries Service to review the collection estimates, geographic, and other variables related to dockside intercepts and to identify deficiencies in recreational data collection, and possible correction measures.

(D) DEADLINE.—The Secretary shall complete the program under this paragraph and implement the improved Marine Recreational Fishery Statistics Survey not later than January 1, 2009.

(4) REPORT.—Within 24 months after establishment of the program, the Secretary shall submit a report to Congress that describes the progress made toward achieving the goals and objectives of the program.
