

## Options for Dealing with Caucus Statements

1. Cross-caucus small group discussions for each of three topics
2. Talk cross caucus about information needs first
3. Talk cross caucus about info and mitigation
4. Discuss population effects issue in plenary; identify what information is needed to show a population level effect
5. Problem statement that shows the disagreements
6. Use criteria for prioritizing research developed at last meeting to discuss information needs
7. Tackle information first, in plenary
