The Marine Mammal Protection Act of 1972 as Amendedⁱ

To protect marine mammals; to establish a Marine Mammal Commission; for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act, with the following table of contents, may be cited as the “Marine Mammal Protection Act of 1972”.

TABLE OF CONTENTS

Sec. 2.	Findings and declaration of policy.....	3
Sec. 3.	Definitions.	4
Sec. 4.	Effective date.	8

Title I—Conservation and Protection of Marine Mammals

Sec. 101.	Moratorium and exceptions.....	9
Sec. 102.	Prohibitions.	18
Sec. 103.	Regulations on taking of marine mammals.....	20
Sec. 104.	Permits.	22
Sec. 105.	Penalties	30
Sec. [].	Disposition of Fines. ⁱⁱ	31
Sec. 106.	Vessel fine, cargo forfeiture, and rewards.....	31
Sec. 107.	Enforcement.	32
Sec. 108.	International program.	33
Sec. 109.	Federal cooperation with States.	36
Sec. 110.	Marine mammal research grants.	42
Sec. 111.	Commercial fisheries gear development.	43
Sec. 112.	Regulations and administration.....	44
Sec. 113.	Application to other treaties and conventions.	45
Sec. 114.	Interim exception for commercial fisheries.	46
Sec. 115.	Status review; conservation plans.	55
Sec. 116.	Authorization of appropriations.	57
Sec. [].	Dolphin protection. ⁱⁱⁱ	58
Sec. 117.	Stock assessments.	62
Sec. 118.	Taking of marine mammals incidental to commercial fishing operations.....	65
Sec. 119.	Marine mammal cooperative agreements in Alaska.	77
Sec. 120.	Pacific Coast Task Force; Gulf of Maine.....	78

Title II—Marine Mammal Commission

Sec. 201.	Establishment of Commission.....	82
Sec. 202.	Duties of Commission.	83
Sec. 203.	Committee of Scientific Advisors on Marine Mammals.....	84
Sec. 204.	Commission reports.	84

 Notes 110
 Recently Enacted Statutory Provisions Related to Marine Mammals 115
 Endnotes..... 118

This copy of the Marine Mammal Protection Act is provided for information only. Before relying on any portion of the Act as it appears here, reference should be made to the official report of the Act in the United States Code.

To assist the user, headings have been provided for most subsections and some lesser provisions. Some headings were enacted as part of the Act. Others have been added to the Act as it appears in the United States Code. Headings included in the United States Code, but which were not enacted as part of the Marine Mammal Protection Act, appear in brackets. Certain provisions of the Act set forth requirements relative to the time of enactment of the provision. To assist the reader, these provisions have been annotated by including in brackets a specific date when the provision becomes effective or by which a required action is or was to be taken.

Findings and Declaration of Policy

16 U.S.C. 1361

Sec. 2. The Congress finds that—

(1) certain species and population stocks of marine mammals are, or may be, in danger of extinction or depletion as a result of man's activities;

(2) such species and population stocks should not be permitted to diminish beyond the point at which they cease to be a significant functioning element in the ecosystem of which they are a part, and, consistent with this major objective, they should not be permitted to diminish below their optimum sustainable population. Further measures should be immediately taken to replenish any species or population stock which has already diminished below that population. In particular, efforts should be made to protect essential habitats, including the rookeries, mating grounds, and areas of similar significance for each species of marine mammal from the adverse effect of man's actions;

(3) there is inadequate knowledge of the ecology and population dynamics of such marine mammals and of the factors which bear upon their ability to reproduce themselves successfully;

(4) negotiations should be undertaken immediately to encourage the development of international arrangements for research on, and conservation of, all marine mammals;

(5) marine mammals and marine mammal products either—

(A) move in interstate commerce, or

(B) affect the balance of marine ecosystems in a manner which is important to other animals and animal products which move in interstate commerce, and that the protection and conservation of marine mammals and their habitats is therefore necessary to insure the continuing availability of those products which move in interstate commerce; and

(6) marine mammals have proven themselves to be resources of great international significance, esthetic and recreational as well as economic, and it is the sense of the Congress that they should be protected and encouraged to develop to the greatest extent feasible commensurate with sound policies of resource management and that the primary objective of their management should be to maintain the health and stability of the marine ecosystem. Whenever consistent with this primary objective, it should be the goal to obtain an optimum sustainable population keeping in mind the carrying capacity of the habitat.

Definitions

16 U.S.C. 1362

Sec. 3. For the purposes of this Act—

(1) The term “**depletion**” or “**depleted**” means any case in which—

(A) the Secretary, after consultation with the Marine Mammal Commission and the Committee of Scientific Advisors on Marine Mammals established under title II of this Act, determines that a species or population stock is below its optimum sustainable population;

(B) a State, to which authority for the conservation and management of a species or population stock is transferred under section 109, determines that such species or stock is below its optimum sustainable population; or

(C) a species or population stock is listed as an endangered species or a threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(2) The terms “**conservation**” and “**management**” means the collection and application of biological information for the purposes of increasing and maintaining the number of animals within species and populations of marine mammals at their optimum sustainable population. Such terms include the entire scope of activities that constitute a modern scientific resource program, including, but not limited to, research, census, law enforcement, and habitat acquisition and improvement. Also included within these terms, when and where appropriate, is the periodic or total protection of species or populations as well as regulated taking.

(3) The term “**district court of the United States**” includes the District Court of Guam, District Court of the Virgin Islands, District Court of Puerto Rico, District Court of the Canal Zone, and, in the case of American Samoa and the Trust Territory of the Pacific Islands, the District Court of the United States for the District of Hawaii.

(4) The term “**humane**” in the context of the taking of a marine mammal means that method of taking which involves the least possible degree of pain and suffering practicable to the mammal involved.

(5) The term “**intermediary nation**” means a nation that exports yellowfin tuna or yellowfin tuna products to the United States and that imports yellowfin tuna or yellowfin tuna products that are subject to a direct ban on importation into the United States pursuant to section 101 (a)(2)(B).

(6) The term “**marine mammal**” means any mammal which (A) is morphologically adapted to the marine environment (including sea otters and members of the orders Sirenia, Pinnipedia and Cetacea), or (B) primarily inhabits the marine environment (such as the polar bear); and, for the purposes of this Act, includes any part of any such marine mammal, including its raw, dressed, or dyed fur or skin.

(7) The term “**marine mammal product**” means any item of merchandise which consists, or is composed in whole or in part, of any marine mammal.

(8) The term “**moratorium**” means a complete cessation of the taking of marine mammals and a complete ban on the importation into the United States of marine mammals and marine mammal products, except as provided in this Act.

(9) The term “**optimum sustainable population**” means, with respect to any population stock, the number of animals which will result in the maximum productivity of the population or the species, keeping in mind the carrying capacity of the habitat and the health of the ecosystem of which they form a constituent element.

(10) The term “**person**” includes (A) any private person or entity, and (B) any officer, employee, agent, department, or instrumentality of the Federal Government, of any State or political subdivision thereof, or of any foreign government.

(11) The term “**population stock**” or “**stock**” means a group of marine mammals of the same species or smaller taxa in a common spatial arrangement, that interbreed when mature.

(12)(A) Except as provided in subparagraph (B), the term “**Secretary**” means—

(i) the Secretary of the department in which the National Oceanic and Atmospheric Administration is operating, as to all responsibility, authority, funding, and duties under this Act with respect to members of the order Cetacea and members, other than walruses, of the order Pinnipedia, and

(ii) the Secretary of the Interior as to all responsibility, authority, funding, and duties under this Act with respect to all other marine mammals covered by this Act.

(B) in section 118 and title IV (other than section 408) the term “Secretary” means the Secretary of Commerce.

(13) The term “**take**” means to harass, hunt, capture, or kill, or attempt to harass, hunt, capture, or kill any marine mammal.

(14) The term “**United States**” includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, American Samoa, Guam, and Northern Mariana Islands.

(15) The term “**waters under the jurisdiction of the United States**” means—

(A) the territorial sea of the United States;

(B) the waters included within a zone, contiguous to the territorial sea of the United States, of which the inner boundary is a line coterminous with the seaward boundary of each coastal State, and the other boundary is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured; and

(C) the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, those areas east of the maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of Russia is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is

measured, except that this subparagraph shall not apply before the date on which the Agreement between the United States and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, enters into force for the United States.

(16) The term “**fishery**” means—

(A) one or more stocks of fish which can be treated as a unit for purposes of conservation and management and which are identified on the basis of geographical, scientific, technical, recreational, and economic characteristics; and

(B) any fishing for such stocks.

(17) The term “**competent regional organization**”—

(A) for the tuna fishery in the eastern tropical Pacific Ocean, means the Inter-American Tropical Tuna Commission; and

(B) in any other case, means an organization consisting of those nations participating in a tuna fishery, the purpose of which is the conservation and management of that fishery and the management of issues relating to that fishery.

(18)(A) The term “**harassment**” means any act of pursuit, torment, or annoyance which—

(i) has the potential to injure a marine mammal or marine mammal stock in the wild; or

(ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering.

(B) In the case of a military readiness activity (as defined in section 315(f) of Public Law 107–314; 16 U.S.C. 703 note) or a scientific research activity conducted by or on behalf of the Federal Government consistent with section 104 (c)(3), the term “harassment” means—

(i) any act that injures or has the significant potential to injure a marine mammal or marine mammal stock in the wild; or

(ii) any act that disturbs or is likely to disturb a marine mammal or marine mammal stock in the wild by causing disruption of natural behavioral patterns, including, but not limited to, migration, surfacing, nursing, breeding, feeding, or sheltering, to a point where such behavioral patterns are abandoned or significantly altered.

(C) The term “**Level A harassment**” means harassment described in subparagraph (A)(i) or, in the case of a military readiness activity or scientific research activity described in subparagraph (B), harassment described in subparagraph (B)(i).

(D) The term “**Level B harassment**” means harassment described in subparagraph (A)(ii) or, in the case of a military readiness activity or scientific research activity described in subparagraph (B), harassment described in subparagraph (B)(ii).

(19) The term “**strategic stock**” means a marine mammal stock—

(A) for which the level of direct human-caused mortality exceeds the potential biological removal level;

(B) which, based on the best available scientific information, is declining and is likely to be listed as a threatened species under the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.] within the foreseeable future; or

(C) which is listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), or is designated as depleted under this Act.

(20) The term “**potential biological removal level**” means the maximum number of animals, not including natural mortalities, that may be removed from a marine mammal stock while allowing that stock to reach or maintain its optimum sustainable population. The potential biological removal level is the product of the following factors:

(A) The minimum population estimate of the stock.

(B) One-half the maximum theoretical or estimated net productivity rate of the stock at a small population size.

(C) A recovery factor of between 0.1 and 1.0.

(21) The term “**Regional Fishery Management Council**” means a Regional Fishery Management Council established under section 302 of the Magnuson-Stevens Fishery Conservation and Management Act.

(22) The term “**bona fide research**” means scientific research on marine mammals, the results of which—

(A) likely would be accepted for publication in a referred scientific journal;¹

(B) are likely to contribute to the basic knowledge of marine mammal biology or ecology; or

(C) are likely to identify, evaluate, or resolve conservation problems.

(23) The term “**Alaska Native organization**” means a group designated by law or formally chartered which represents or consists of Indians, Aleuts, or Eskimos residing in Alaska.

(24) The term “**take reduction plan**” means a plan developed under section 118.

(25) The term “**take reduction team**” means a team established under section 118.

(26) The term “**net productivity rate**” means the annual per capita rate of increase in a stock resulting from additions due to reproduction, less losses due to mortality.

¹ As in original, probably intended to be “refereed scientific journal.”

(27) The term “**minimum population estimate**” means an estimate of the number of animals in a stock that—

(A) is based on the best available scientific information on abundance, incorporating the precision and variability associated with such information; and

(B) provides reasonable assurance that the stock size is equal to or greater than the estimate.

(28) The term “**International Dolphin Conservation Program**” means the international program established by the agreement signed in La Jolla, California, in June, 1992, as formalized, modified, and enhanced in accordance with the Declaration of Panama.

(29) The term “**Declaration of Panama**” means the declaration signed in Panama City, Republic of Panama, on October 4, 1995.

Effective Date

Sec. 4. The provisions of this Act shall take effect upon the expiration of the sixty-day period following the date of its enactment [December 21, 1972].

Title I—Conservation and Protection of Marine Mammals

Moratorium on taking and importing marine mammals and marine mammal products

16 U.S.C. 1371

Sec. 101. (a) [IMPOSITION; EXCEPTIONS.] — There shall be a moratorium on the taking and importation of marine mammals and marine mammal products, commencing on the effective date of this Act, during which time no permit may be issued for the taking of any marine mammal and no marine mammal or marine mammal product may be imported into the United States except in the following cases:

(1) Consistent with the provisions of section 104, permits may be issued by the Secretary for taking, and importation for purposes of scientific research, public display, photography for educational or commercial purposes, or enhancing the survival or recovery of a species or stock, or for importation of polar bear parts (other than internal organs) taken in sport hunts in Canada. Such permits, except permits issued under section 104 (c)(5), may be issued if the taking or importation proposed to be made is first reviewed by the Marine Mammal Commission and the Committee of Scientific Advisors on Marine Mammals established under title II of this Act. The Commission and Committee shall recommend any proposed taking or importation, other than importation under section 104 (c)(5), which is consistent with the purposes and policies of section 2. If the Secretary issues such a permit for importation, the Secretary shall issue to the importer concerned a certificate to that effect in such form as the Secretary of the Treasury prescribes, and such importation may be made upon presentation of the certificate to the customs officer concerned.

(2) Marine mammals may be taken incidentally in the course of commercial fishing operations and permits may be issued therefor under section 104 subject to regulations prescribed by the Secretary in accordance with section 103, or in lieu of such permits, authorizations may be granted therefor under section 118, subject to regulations prescribed under that section by the Secretary without regard to section 103. Such authorizations may be granted under title III of this Act with respect to purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean, subject to regulations prescribed under that title by the Secretary without regard to section 103. In any event it shall be the immediate goal that the incidental kill or incidental serious injury of marine mammals permitted in the course of commercial fishing operations be reduced to insignificant levels approaching a zero mortality and serious injury rate. The Secretary of the Treasury shall ban the importation of commercial fish or products from fish which have been caught with commercial fishing technology which results in the incidental kill or incidental serious injury of ocean mammals in excess of United States standards. For purposes of applying the preceding sentence, the Secretary—

(A) shall insist on reasonable proof from the government of any nation from which fish or fish products will be exported to the United States of the effects on ocean mammals of the commercial fishing technology in use for such fish or fish products exported from such nation to the United States;

(B) in the case of yellowfin tuna harvested with purse seine nets in the eastern tropical Pacific Ocean, and products therefrom, to be exported to the United States, shall require that the government of the exporting nation provide documentary evidence that—

(i)(I) the tuna or products therefrom were not banned from importation under this paragraph before the effective date of section 4 of the International Dolphin Conservation Program Act; or

(II) the tuna or products therefrom were harvested after the effective date of section 4 of the International Dolphin Conservation Program Act by vessels of a nation which participates in the International Dolphin Conservation Program, and such harvesting nation is either a member of the Inter-American Tropical Tuna Commission or has initiated (and within 6 months thereafter completed) all steps required of applicant nations, in accordance with article V, paragraph 3 of the Convention establishing the Inter-American Tropical Tuna Commission, to become a member of that organization;

(ii) such nation is meeting the obligations of the International Dolphin Conservation Program and the obligations of membership in the Inter-American Tropical Tuna Commission, including all financial obligations; and

(iii) the total dolphin mortality limits, and per-stock per-year dolphin mortality limits permitted for that nation's vessels under the International Dolphin Conservation Program do not exceed the limits determined for 1997, or for any year thereafter, consistent with the objective of progressively reducing dolphin mortality to a level approaching zero through the setting of annual limits and the goal of eliminating dolphin mortality, and requirements of the International Dolphin Conservation Program;

(C) shall not accept such documentary evidence if—

(i) the government of the harvesting nation does not provide directly or authorize the Inter-American Tropical Tuna Commission to release complete and accurate information to the Secretary in a timely manner—

(I) to allow determination of compliance with the International Dolphin Conservation Program; and

(II) for the purposes of tracking and verifying compliance with the minimum requirements established by the Secretary in regulations promulgated under subsection (f) of the Dolphin Protection Consumer Information Act (16 U.S.C. 1385(f)); or

(ii) after taking into consideration such information, findings of the Inter-American Tropical Tuna Commission, and any other relevant information, including information that a nation is consistently failing to take enforcement actions on violations which diminish the effectiveness of the International Dolphin Conservation Program, the Secretary, in consultation with the Secretary of State, finds that the harvesting nation is not in compliance with the International Dolphin Conservation Program.

(D) shall require the government of any intermediary nation to certify and provide reasonable proof to the Secretary that it has not imported, within the preceding six months, any yellowfin tuna or yellowfin tuna products that are subject to a direct ban on importation to the United States under subparagraph (B);

(E) shall, six months after importation of yellowfin tuna or tuna products has been banned under this section, certify such fact to the President, which certification shall be deemed to be a certification for the purposes of section 8 (a) of the Fisherman's Protection Act of 1967 (22 U.S.C. 1978(a)) for as long as such ban is in effect; and

(F)(i) except as provided in clause (ii), in the case of fish or products containing fish harvested by a nation whose fishing vessels engage in high seas driftnet fishing, shall require that the government of the exporting nation provide documentary evidence that the fish or fish product was not harvested with a large-scale driftnet in the South Pacific Ocean after July 1, 1991, or in any other water of the high seas after January 1, 1993, and

(ii) in the case of tuna or a product containing tuna harvested by a nation whose fishing vessels engage in high seas driftnet fishing, shall require that the government of the exporting nation provide documentary evidence that the tuna or tuna product was not harvested with a large-scale driftnet anywhere on the high seas after July 1, 1991. For purposes of subparagraph (F), the term "driftnet" has the meaning given such term in section 4003 of the Driftnet Impact Monitoring, Assessment, and Control Act of 1987 (16 U.S.C. 1822 note), except that, until January 1, 1994, the term "driftnet" does not include the use in the northeast Atlantic Ocean of gillnets with a total length not to exceed five kilometers if the use is in accordance with regulations adopted by the European Community pursuant to the October 28, 1991, decision by the Council of Fisheries Ministers of the Community.

(3)(A) The Secretary, on the basis of the best scientific evidence available and in consultation with the Marine Mammal Commission, is authorized and directed, from time to time, having due regard to the distribution, abundance, breeding habits, and times and lines of migratory movements of such marine mammals, to determine when, to what extent, if at all, and by what means, it is compatible with this Act to waive the requirements of this section so as to allow taking, or importing of any marine mammal, or any marine mammal product, and to adopt suitable regulations, issue permits, and make determinations in accordance with sections 102, 103, 104, and 111 permitting and governing such taking and importing, in accordance with such determinations: Provided, however, That the Secretary, in making such determinations must be assured that the taking of such marine mammal is in accord with sound principles of resource protection and conservation as provided in the purposes and policies of this Act: Provided, further, however, That no marine mammal or no marine mammal product may be imported into the United States unless the Secretary certifies that the program for taking marine mammals in the country of origin is consistent with the provisions and policies of this Act. Products of nations not so certified may not be imported into the United States for any purpose, including processing for exportation.

(B) Except for scientific research purposes, photography for educational or commercial purposes, or enhancing the survival or recovery of a species or stock as provided for in paragraph (1) of this subsection, or as provided for under paragraph (5) of this subsection, during the moratorium no permit may be issued for the taking of any marine mammal which has been designated by the Secretary as depleted, and no importation may be made of any such mammal.

(4)(A) Except as provided in subparagraphs (B) and (C), the provisions of this Act shall not apply to the use of measures—

(i) by the owner of fishing gear or catch, or an employee or agent of such owner, to deter a marine mammal from damaging the gear or catch;

(ii) by the owner of other private property, or an agent, bailee, or employee of such owner, to deter a marine mammal from damaging private property;

(iii) by any person, to deter a marine mammal from endangering personal safety; or

(iv) by a government employee, to deter a marine mammal from damaging public property, so long as such measures do not result in the death or serious injury of a marine mammal.

(B) The Secretary shall, through consultation with appropriate experts, and after notice and opportunity for public comment, publish in the Federal Register a list of guidelines for use in safely deterring marine mammals. In the case of marine mammals listed as endangered species or threatened species under the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.], the Secretary shall recommend specific measures which may be used to nonlethally deter marine mammals. Actions to deter marine mammals consistent with such guidelines or specific measures shall not be a violation of this Act.

(C) If the Secretary determines, using the best scientific information available, that certain forms of deterrence have a significant adverse effect on marine mammals, the Secretary may prohibit such deterrent methods, after notice and opportunity for public comment, through regulation under this Act.

(D) The authority to deter marine mammals pursuant to subparagraph (A) applies to all marine mammals, including all stocks designated as depleted under this Act.

(5)(A)(i) Upon request therefor by citizens of the United States who engage in a specified activity (other than commercial fishing) within a specified geographical region, the Secretary shall allow, during periods of not more than five consecutive years each, the incidental, but not intentional, taking by citizens while engaging in that activity within that region of small numbers of marine mammals of a species or population stock if the Secretary, after notice (in the Federal Register and in newspapers of general circulation, and through appropriate electronic media, in the coastal areas that may be affected by such activity) and opportunity for public comment—

(I) finds that the total of such taking during each five-year (or less) period concerned will have a negligible impact on such species or stock and will not have an unmitigable adverse impact on the availability of such species or stock for taking for subsistence uses pursuant to subsection (b) of this section or section 109 (f) or, in the case of a cooperative agreement under both this Act and the Whaling Convention Act of 1949 (16 U.S.C. 916 et seq.), pursuant to section 112 (c) ; and

(II) prescribes regulations setting forth—

(aa) permissible methods of taking pursuant to such activity, and other means of effecting the least practicable adverse impact on such species or stock and its habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stock for subsistence uses; and

(bb) requirements pertaining to the monitoring and reporting of such taking.

(ii) For a military readiness activity (as defined in section 315(f) of Public Law 107–314; 16 U.S.C. 703 note), a determination of “least practicable adverse impact on such species or stock” under clause (i)(II)(aa) shall include consideration of personnel safety, practicality of implementation, and impact on the effectiveness of the military readiness activity. Before making the required determination, the Secretary shall consult with the Department of Defense regarding personnel safety, practicality of implementation, and impact on the effectiveness of the military readiness activity.

(iii) Notwithstanding clause (i), for any authorization affecting a military readiness activity (as defined in section 315(f) of Public Law 107–314; 16 U.S.C. 703 note) the Secretary shall publish the notice required by such clause only in the Federal Register.

(B) The Secretary shall withdraw, or suspend for a time certain (either on an individual or class basis, as appropriate) the permission to take marine mammals under subparagraph (A) pursuant to a specified activity within a specified geographical region if the Secretary finds, after notice and opportunity for public comment (as required under subparagraph (A) unless subparagraph (C)(i) applies), that—

(i) the regulations prescribed under subparagraph (A) regarding methods of taking, monitoring, or reporting are not being substantially complied with by a person engaging in such activity; or

(ii) the taking allowed under subparagraph (A) pursuant to one or more activities within one or more regions is having, or may have, more than a negligible impact on the species or stock concerned.

(C)(i) The requirement for notice and opportunity for public comment in subparagraph (B) shall not apply in the case of a suspension of permission to take if the Secretary determines that an emergency exists which poses a significant risk to the well-being of the species or stock concerned.

(ii) Sections 103 and 104 shall not apply to the taking of marine mammals under the authority of this paragraph.

(D)(i) Upon request therefor by citizens of the United States who engage in a specified activity (other than commercial fishing) within a specific geographic region, the Secretary shall authorize, for periods of not more than 1 year, subject to such conditions as the Secretary may specify, the incidental, but not intentional, taking by harassment of small numbers of marine mammals of a species or population stock by such citizens while engaging in that activity within that region if the Secretary finds that such harassment during each period concerned—

(I) will have a negligible impact on such species or stock, and

(II) will not have an unmitigable adverse impact on the availability of such species or stock for taking for subsistence uses pursuant to subsection (b) of this section, or section 109 (f) or pursuant to a cooperative agreement under section 119.

(ii) The authorization for such activity shall prescribe, where applicable—

(I) permissible methods of taking by harassment pursuant to such activity, and other means of effecting the least practicable impact on such species or stock and its

habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stock for taking for subsistence uses pursuant to subsection (b) of this section or section 109 (f) or pursuant to a cooperative agreement under section 119,

(II) the measures that the Secretary determines are necessary to ensure no unmitigable adverse impact on the availability of the species or stock for taking for subsistence uses pursuant to subsection (b) of this section or section 109 (f) or pursuant to a cooperative agreement under section 119, and

(III) requirements pertaining to the monitoring and reporting of such taking by harassment, including requirements for the independent peer review of proposed monitoring plans or other research proposals where the proposed activity may affect the availability of a species or stock for taking for subsistence uses pursuant to subsection (b) of this section or section 109 (f) or pursuant to a cooperative agreement under section 119.

(iii) The Secretary shall publish a proposed authorization not later than 45 days after receiving an application under this subparagraph and request public comment through notice in the Federal Register, newspapers of general circulation, and appropriate electronic media and to all locally affected communities for a period of 30 days after publication. Not later than 45 days after the close of the public comment period, if the Secretary makes the findings set forth in clause (i), the Secretary shall issue an authorization with appropriate conditions to meet the requirements of clause (ii).

(iv) The Secretary shall modify, suspend, or revoke an authorization if the Secretary finds that the provisions of clauses (i) or (ii) are not being met.

(v) A person conducting an activity for which an authorization has been granted under this subparagraph shall not be subject to the penalties of this Act for taking by harassment that occurs in compliance with such authorization.

(vi) For a military readiness activity (as defined in section 315(f) of Public Law 107–314; 16 U.S.C. 703 note), a determination of “least practicable adverse impact on such species or stock” under clause (i)(I) shall include consideration of personnel safety, practicality of implementation, and impact on the effectiveness of the military readiness activity. Before making the required determination, the Secretary shall consult with the Department of Defense regarding personnel safety, practicality of implementation, and impact on the effectiveness of the military readiness activity.

(vii) Notwithstanding clause (iii), for any authorization affecting a military readiness activity (as defined in section 315(f) of Public Law 107–314; 16 U.S.C. 703 note), the Secretary shall publish the notice required by such clause only in the Federal Register.

(E)(i) During any period of up to 3 consecutive years, the Secretary shall allow the incidental, but not the intentional, taking by persons using vessels of the United States or vessels which have valid fishing permits issued by the Secretary in accordance with section 204 (b) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1824(b)), while engaging in commercial fishing operations, of marine mammals from a species or stock designated as depleted because of its listing as an endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) if the Secretary, after notice and opportunity for public comment, determines that—

(I) the incidental mortality and serious injury from commercial fisheries will have a negligible impact on such species or stock;

(II) a recovery plan has been developed or is being developed for such species or stock pursuant to the Endangered Species Act of 1973; and

(III) where required under section 118, a monitoring program is established under subsection (d) of such section, vessels engaged in such fisheries are registered in accordance with such section, and a take reduction plan has been developed or is being developed for such species or stock.

(ii) Upon a determination by the Secretary that the requirements of clause (i) have been met, the Secretary shall publish in the Federal Register a list of those fisheries for which such determination was made, and, for vessels required to register under section 118, shall issue an appropriate permit for each authorization granted under such section to vessels to which this paragraph applies. Vessels engaged in a fishery included in the notice published by the Secretary under this clause which are not required to register under section 118 shall not be subject to the penalties of this Act for the incidental taking of marine mammals to which this paragraph applies, so long as the owner or master of such vessel reports any incidental mortality or injury of such marine mammals to the Secretary in accordance with section 118.

(iii) If, during the course of the commercial fishing season, the Secretary determines that the level of incidental mortality or serious injury from commercial fisheries for which a determination was made under clause (i) has resulted or is likely to result in an impact that is more than negligible on the endangered or threatened species or stock, the Secretary shall use the emergency authority granted under section 118 to protect such species or stock, and may modify any permit granted under this paragraph as necessary.

(iv) The Secretary may suspend for a time certain or revoke a permit granted under this subparagraph only if the Secretary determines that the conditions or limitations set forth in such permit are not being complied with. The Secretary may amend or modify, after notice and opportunity for public comment, the list of fisheries published under clause (ii) whenever the Secretary determines there has been a significant change in the information or conditions used to determine such list.

(v) Sections 103 and 104 shall not apply to the taking of marine mammals under the authority of this subparagraph.

(vi) This subparagraph shall not govern the incidental taking of California sea otters and shall not be deemed to amend or repeal the Act of November 7, 1986 (Public Law 99-625; 100 Stat. 3500).

(F) Notwithstanding the provisions of this subsection, any authorization affecting a military readiness activity (as defined in section 315(f) of Public Law 107-314; 16 U.S.C. 703 note) shall not be subject to the following requirements:

(i) In subparagraph (A), “within a specified geographical region” and “within that region of small numbers”.

(ii) In subparagraph (B), “within a specified geographical region” and “within one or more regions”.

(iii) In subparagraph (D), “within a specific geographic region”, “of small numbers”, and “within that region”.

(6)(A) A marine mammal product may be imported into the United States if the product—

(i) was legally possessed and exported by any citizen of the United States in conjunction with travel outside the United States, provided that the product is imported into the United States by the same person upon the termination of travel;

(ii) was acquired outside of the United States as part of a cultural exchange by an Indian, Aleut, or Eskimo residing in Alaska; or

(iii) is owned by a Native inhabitant of Russia, Canada, or Greenland and is imported for noncommercial purposes in conjunction with travel within the United States or as part of a cultural exchange with an Indian, Aleut, or Eskimo residing in Alaska.

(B) For the purposes of this paragraph, the term—

(i) “Native inhabitant of Russia, Canada, or Greenland” means a person residing in Russia, Canada, or Greenland who is related by blood, is a member of the same clan or ethnological grouping, or shares a common heritage with an Indian, Aleut, or Eskimo residing in Alaska; and

(ii) “cultural exchange” means the sharing or exchange of ideas, information, gifts, clothing, or handicrafts between an Indian, Aleut, or Eskimo residing in Alaska and a Native inhabitant of Russia, Canada, or Greenland, including rendering of raw marine mammal parts as part of such exchange into clothing or handicrafts through carving, painting, sewing, or decorating.

(b) [EXEMPTIONS FOR ALASKAN NATIVES.] — Except as provided in section 109, the provisions of this Act shall not apply with respect to the taking of any marine mammal by any Indian, Aleut, or Eskimo who resides in Alaska and who dwells on the coast of the North Pacific Ocean or the Arctic Ocean if such taking—

(1) is for subsistence purposes; or

(2) is done for purposes of creating and selling authentic native articles of handicrafts and clothing: Provided, That only authentic native articles of handicrafts and clothing may be sold in interstate commerce: And provided further, That any edible portion of marine mammals may be sold in native villages and towns in Alaska or for native consumption. For the purposes of this subsection, the term “authentic native articles of handicrafts and clothing” means items composed wholly or in some significant respect of natural materials, and which are produced, decorated, or fashioned in the exercise of traditional native handicrafts without the use of pantographs, multiple carvers, or other mass copying devices. Traditional native handicrafts include, but are not limited to weaving, carving, stitching, sewing, lacing, beading, drawing and painting; and

(3) in each case, is not accomplished in a wasteful manner.

Notwithstanding the preceding provisions of this subsection, when, under this Act, the Secretary determines any species or stock of marine mammal subject to taking by Indians, Aleuts, or Eskimos to be depleted, he may prescribe regulations upon the taking of such

marine mammals by any Indian, Aleut, or Eskimo described in this subsection. Such regulations may be established with reference to species or stocks, geographical description of the area included, the season for taking, or any other factors related to the reason for establishing such regulations and consistent with the purposes of this Act. Such regulations shall be prescribed after notice and hearing required by section 103 and shall be removed as soon as the Secretary determines that the need for their imposition has disappeared. In promulgating any regulation or making any assessment pursuant to a hearing or proceeding under this subsection or section 117 (b)(2), or in making any determination of depletion under this subsection or finding regarding unmitigable adverse impacts under subsection (a)(5) of this section that affects stocks or persons to which this subsection applies, the Secretary shall be responsible for demonstrating that such regulation, assessment, determination, or finding is supported by substantial evidence on the basis of the record as a whole. The preceding sentence shall only be applicable in an action brought by one or more Alaska Native organizations representing persons to which this subsection applies.

(c) [TAKING IN DEFENSE OF SELF OR OTHERS.] — It shall not be a violation of this Act to take a marine mammal if such taking is imminently necessary in self-defense or to save the life of a person in immediate danger, and such taking is reported to the Secretary within 48 hours. The Secretary may seize and dispose of any carcass.

(d) [GOOD SAMARITAN EXEMPTION.] — It shall not be a violation of this Act to take a marine mammal if—

(1) such taking is imminently necessary to avoid serious injury, additional injury, or death to a marine mammal entangled in fishing gear or debris;

(2) reasonable care is taken to ensure the safe release of the marine mammal, taking into consideration the equipment, expertise, and conditions at hand;

(3) reasonable care is exercised to prevent any further injury to the marine mammal; and

(4) such taking is reported to the Secretary within 48 hours.

(e) [ACT NOT TO APPLY TO INCIDENTAL TAKINGS BY UNITED STATES CITIZENS EMPLOYED ON FOREIGN VESSELS OUTSIDE UNITED STATES EEZ.] — The provisions of this Act shall not apply to a citizen of the United States who incidentally takes any marine mammal during fishing operations outside the United States exclusive economic zone (as defined in section 1802) when employed on a foreign fishing vessel of a harvesting nation which is in compliance with the International Dolphin Conservation Program.

(f) [EXEMPTION OF ACTIONS NECESSARY FOR NATIONAL DEFENSE.] —

(1) The Secretary of Defense, after conferring with the Secretary of Commerce, the Secretary of the Interior, or both, as appropriate, may exempt any action or category of actions undertaken by the Department of Defense or its components from compliance with any requirement of this Act, if the Secretary determines that it is necessary for national defense.

(2) An exemption granted under this subsection—

(A) subject to subparagraph (B), shall be effective for a period specified by the Secretary of Defense; and

(B) shall not be effective for more than 2 years.

(3)(A) The Secretary of Defense may issue additional exemptions under this subsection for the same action or category of actions, after—

(i) conferring with the Secretary of Commerce, the Secretary of the Interior, or both as appropriate; and

(ii) making a new determination that the additional exemption is necessary for national defense.

(B) Each additional exemption under this paragraph shall be effective for a period specified by the Secretary of Defense, of not more than 2 years.

(4) Not later than 30 days after issuing an exemption under paragraph (1) or an additional exemption under paragraph (3), the Secretary of Defense shall submit to the Committee on Armed Services of the House of Representatives and the Committee on Armed Services of the Senate notice describing the exemption and the reasons therefor. The notice may be provided in classified form if the Secretary of Defense determines that use of the classified form is necessary for reasons of national security.

Prohibitions

16 U.S.C. 1372

Sec. 102. (a) [TAKING.]— Except as provided in sections 101, 103, 104, 109, 111, 113, 114, and 118 and title IV, it is unlawful—

(1) for any person subject to the jurisdiction of the United States or any vessel or other conveyance subject to the jurisdiction of the United States to take any marine mammal on the high seas;

(2) except as expressly provided for by an international treaty, convention, or agreement to which the United States is a party and which was entered into before the effective date or by any statute implementing any such treaty, convention, or agreement—

(A) for any person or vessel or other conveyance to take any marine mammal in waters or on lands under the jurisdiction of the United States; or

(B) for any person to use any port, harbor, or other place under the jurisdiction of the United States to take or import marine mammals or marine mammal products; and

(3) for any person, with respect to any marine mammal taken in violation of this Act, to possess that mammal or any product from that mammal;

(4) for any person to transport, purchase, sell, export, or offer to purchase, sell, or export any marine mammal or marine mammal product—

(A) that is taken in violation of this Act; or

(B) for any purpose other than public display, scientific research, or enhancing the survival of a species or stock as provided for under subsection 104(c); and

(5) for any person to use, in a commercial fishery, any means or methods of fishing in contravention of any regulations or limitations, issued by the Secretary for that fishery to achieve the purposes of this Act.

(b) [IMPORTATION OF PREGNANT OR NURSING ANIMALS; DEPLETED SPECIES OR STOCK; INHUMANE TAKING.] — Except pursuant to a permit for scientific research, or for enhancing the survival or recovery of a species or stock, issued under section 104(c) of this Act, it is unlawful to import into the United States any marine mammal if such mammal was—

(1) pregnant at the time of taking;

(2) nursing at the time of taking, or less than eight months old, whichever occurs later;

(3) taken from a species or population stock which the Secretary has, by regulation published in the Federal Register, designated as a depleted species or stock; or

(4) taken in a manner deemed inhumane by the Secretary.

Notwithstanding the provisions of paragraphs (1) and (2), the Secretary may issue a permit for the importation of a marine mammal, if the Secretary determines that such importation is necessary for the protection or welfare of the animal.

(c) [IMPORTATION OF ILLEGALLY TAKEN MAMMALS.] — It is unlawful to import into the United States any of the following:

(1) Any marine mammal which was—

(A) taken in violation of this Act; or

(B) taken in another country in violation of the law of that country.

(2) Any marine mammal product if—

(A) the importation into the United States of the marine mammal from which such product is made is unlawful under paragraph (1) of this subsection; or

(B) the sale in commerce of such product in the country of origin of the product is illegal;

(3) Any fish, whether fresh, frozen, or otherwise prepared, if such fish was caught in a manner which the Secretary has proscribed for persons subject to the jurisdiction of the United States, whether or not any marine mammals were in fact taken incident to the catching of the fish.

(d) [NONAPPLICABILITY OF PROHIBITIONS.] — Subsections (b) and (c) of this section shall not apply—

(1) in the case of marine mammals or marine mammal products, as the case may be, to which subsection (b)(3) of this section applies, to such items imported into the United States before the date on which the Secretary publishes notice in the Federal Register of his proposed rulemaking with respect to the designation of the species or stock concerned as depleted; or

(2) in the case of marine mammals or marine mammal products to which subsection (c)(1)(B) or (c)(2)(B) of this section applies, to articles imported into the United States before the effective date of the foreign law making the taking or sale, as the case may be, of such marine mammals or marine mammal products unlawful.

(e) [RETROACTIVE EFFECT.] — This Act shall not apply with respect to any marine mammal taken before the effective date of this Act [December 21, 1972], or to any marine mammal product consisting of, or composed in whole or in part of, any marine mammal taken before such date.

(f) [COMMERCIAL TAKING OF WHALES.] — It is unlawful for any person or vessel or other conveyance to take any species of whale incident to commercial whaling in waters subject to the jurisdiction of the United States.

Regulations on Taking of Marine Mammals

16 U.S.C. 1373

Sec. 103. (a) [NECESSITY AND APPROPRIATENESS.] — The Secretary, on the basis of the best scientific evidence available and in consultation with the Marine Mammal Commission, shall prescribe such regulations with respect to the taking and importing of animals from each species of marine mammal (including regulations on the taking and importing of individuals within population stocks) as he deems necessary and appropriate to insure that such taking will not be to the disadvantage of those species and population stocks and will be consistent with the purposes and policies set forth in section 2 of this Act.

(b) [FACTORS CONSIDERED IN PRESCRIBING REGULATIONS.] — In prescribing such regulations, the Secretary shall give full consideration to all factors which may affect the extent to which such animals may be taken or imported, including but not limited to the effect of such regulations on—

- (1) existing and future levels of marine mammal species and population stocks;
- (2) existing international treaty and agreement obligations of the United States;
- (3) the marine ecosystem and related environmental considerations;
- (4) the conservation, development, and utilization of fishery resources; and
- (5) the economic and technological feasibility of implementation.

(c) [ALLOWABLE RESTRICTIONS.] — The regulations prescribed under subsection (a) of this section for any species or population stock of marine mammal may include, but are not limited to, restrictions with respect to—

- (1) the number of animals which may be taken or imported in any calendar year pursuant to permits issued under section 104;
- (2) the age, size, or sex (or any combination of the foregoing) of animals which may be taken or imported, whether or not a quota prescribed under paragraph (1) of this subsection applies with respect to such animals;
- (3) the season or other period of time within which animals may be taken or imported;
- (4) the manner and locations in which animals may be taken or imported; and
- (5) fishing techniques which have been found to cause undue fatalities to any species of marine mammal in a fishery.

(d) [PROCEDURE.] — Regulations prescribed to carry out this section with respect to any species or stock of marine mammals must be made on the record after opportunity for an agency hearing on both the Secretary's determination to waive the moratorium pursuant to section 101(a)(3)(A) and on such regulations, except that, in addition to any other requirements imposed by law with respect to agency rulemaking, the Secretary shall publish and make available to the public either before or concurrent with the publication of notice in the Federal Register of his intention to prescribe regulations under this section—

- (1) a statement of the estimated existing levels of the species and population stocks of the marine mammal concerned;
- (2) a statement of the expected impact of the proposed regulations on the optimum sustainable population of such species or population stock;
- (3) a statement describing the evidence before the Secretary upon which he proposes to base such regulations; and
- (4) any studies made by or for the Secretary or any recommendations made by or for the Secretary or the Marine Mammal Commission which relate to the establishment of such regulations.

(e) [PERIODIC REVIEW.] — Any regulation prescribed pursuant to this section shall be periodically reviewed, and may be modified from time to time in such manner as the Secretary deems consistent with and necessary to carry out the purposes of this Act.

(f) [REPORT TO CONGRESS.] — Within six months after the effective date of this Act [June 21, 1973] and every twelve months thereafter, the Secretary shall report to the public through publication in the Federal Register and to the Congress on the current status of all marine mammal species and population stocks subject to the provisions of this Act. His report shall describe those actions taken and those measures believed necessary, including where appropriate, the issuance of permits pursuant to this title to assure the well-being of such marine mammals.²

² Although the National Marine Fisheries Service and the Fish and Wildlife Service continue to prepare the reports called for by this provision, the mandatory nature of the reporting requirements ceased on December 21, 1999, under section 3003 of the Federal Reports Elimination and Sunset Act of 1995 (Pub. L. 104-66).

Permits

16 U.S.C. 1374

Sec. 104. (a) [ISSUANCE.] — The Secretary may issue permits which authorize the taking or importation of any marine mammal. Permits for the incidental taking of marine mammals in the course of commercial fishing operations may only be issued as specifically provided for in sections 101(a)(5) or 306, or subsection (h) of this section.

(b) [REQUISITE PROVISIONS.] — Any permit issued under this section shall—

(1) be consistent with any applicable regulation established by the Secretary under section 103, and

(2) specify—

(A) the number and kind of animals which are authorized to be taken or imported,

(B) the location and manner (which manner must be determined by the Secretary to be humane) in which they may be taken, or from which they may be imported,

(C) the period during which the permit is valid, and

(D) any other terms or conditions which the Secretary deems appropriate.

In any case in which an application for a permit cites as a reason for the proposed taking the overpopulation of a particular species or population stock, the Secretary shall first consider whether or not it would be more desirable to transplant a number of animals (but not to exceed the number requested for taking in the application) of that species or stock to a location not then inhabited by such species or stock but previously inhabited by such species or stock.

(c) [IMPORTATION FOR DISPLAY OR RESEARCH.] —

(1) Any permit issued by the Secretary which authorizes the taking or importation of a marine mammal for purposes of scientific research, public display, or enhancing the survival or recovery of a species or stock shall specify, in addition to the conditions required by subsection (b) of this section, the methods of capture, supervision, care, and transportation which must be observed pursuant to such taking or importation. Any person authorized to take or import a marine mammal for purposes of scientific research, public display, or enhancing the survival or recovery of a species or stock shall furnish to the Secretary a report on all activities carried out by him pursuant to that authority.

(2)(A) A permit may be issued to take or import a marine mammal for the purpose of public display only to a person which the Secretary determines—

(i) offers a program for education or conservation purposes that is based on professionally recognized standards of the public display community;

(ii) is registered or holds a license issued under 7 U.S.C. 2131 et seq.; and

(iii) maintains facilities for the public display of marine mammals that are open to the public on a regularly scheduled basis and that access to such facilities is not limited or restricted other than by charging of an admission fee.

(B) A permit under this paragraph shall grant to the person to which it is issued the right, without obtaining any additional permit or authorization under this Act, to—

(i) take, import, purchase, offer to purchase, possess, or transport the marine mammal that is the subject of the permit; and

(ii) sell, export, or otherwise transfer possession of the marine mammal, or offer to sell, export, or otherwise transfer possession of the marine mammal—

(I) for the purpose of public display, to a person that meets the requirements of clauses (i), (ii), and (iii) of subparagraph (A);

(II) for the purpose of scientific research, to a person that meets the requirements of paragraph (3); or

(III) for the purpose of enhancing the survival or recovery of a species or stock, to a person that meets the requirements of paragraph (4).

(C) A person to which a marine mammal is sold or exported or to which possession of a marine mammal is otherwise transferred under the authority of subparagraph (B) shall have the rights and responsibilities described in subparagraph (B) with respect to the marine mammal without obtaining any additional permit or authorization under this Act. Such responsibilities shall be limited to—

(i) for the purpose of public display, the responsibility to meet the requirements of clauses (i), (ii), and (iii) of subparagraph (A),

(ii) for the purpose of scientific research, the responsibility to meet the requirements of paragraph (3), and

(iii) for the purpose of enhancing the survival or recovery of a species or stock, the responsibility to meet the requirements of paragraph (4). (D) If the Secretary—

(D) If the Secretary—

(i) finds in concurrence with the Secretary of Agriculture, that a person that holds a permit under this paragraph for a marine mammal, or a person exercising rights under subparagraph (C), no longer meets the requirements of subparagraph (A)(ii) and is not reasonably likely to meet those requirements in the near future, or

(ii) finds that a person that holds a permit under this paragraph for a marine mammal, or a person exercising rights under subparagraph (C), no longer meets the requirements of subparagraph (A) (i) or (iii) and is not reasonably likely to meet those requirements in the near future,

the Secretary may revoke the permit in accordance with section 104(e), seize the marine mammal, or cooperate with other persons authorized to hold marine mammals under this Act for disposition of the marine mammal. The Secretary may recover from the person expenses incurred by the Secretary for that seizure.

(E) No marine mammal held pursuant to a permit issued under subparagraph (A), or by a person exercising rights under subparagraph (C), may be sold, purchased, exported, or transported unless the Secretary is notified of such action no later than 15 days before such action, and such action is for purposes of public display, scientific research, or enhancing the survival or recovery of a species or stock. The Secretary may only require the notification to include the information required for the inventory established under paragraph (10).

(3)(A) The Secretary may issue a permit under this paragraph for scientific research purposes to an applicant which submits with its permit application information indicating that the taking is required to further a bona fide scientific purpose. The Secretary may issue a permit under this paragraph before the end of the public review and comment period required under subsection (d)(2) if delaying issuance of the permit could result in injury to a species, stock, or individual, or in loss of unique research opportunities.

(B) No permit issued for purposes of scientific research shall authorize the lethal taking of a marine mammal unless the applicant demonstrates that a nonlethal method of conducting the research is not feasible. The Secretary shall not issue a permit for research which involves the lethal taking of a marine mammal from a species or stock that is depleted, unless the Secretary determines that the results of such research will directly benefit that species or stock, or that such research fulfills a critically important research need.

(C) Not later than 120 days after the date of enactment of the Marine Mammal Protection Act Amendments of 1994 [August 28, 1994], the Secretary shall issue a general authorization and implementing regulations allowing bona fide scientific research that may result only in taking by Level B harassment of a marine mammal. Such authorization shall apply to persons which submit, by 60 days before commencement of such research, a letter of intent via certified mail to the Secretary containing the following:

- (i) The species or stocks of marine mammals which may be harassed.
- (ii) The geographic location of the research.
- (iii) The period of time over which the research will be conducted.
- (iv) The purpose of the research, including a description of how the definition of bona fide research as established under this Act would apply.
- (v) Methods to be used to conduct the research.

Not later than 30 days after receipt of a letter of intent to conduct scientific research under the general authorization, the Secretary shall issue a letter to the applicant confirming that the general authorization applies, or, if the proposed research is likely to result in the taking (including Level A harassment) of a marine mammal, shall notify the applicant that subparagraph (A) applies.

(4)(A) A permit may be issued for enhancing the survival or recovery of a species or stock only with respect to a species or stock for which the Secretary, after consultation with the Marine Mammal Commission and after notice and opportunity for public comment, has first determined that—

(i) taking or importation is likely to contribute significantly to maintaining or increasing distribution or numbers necessary to ensure the survival or recovery of the species or stock; and

(ii) taking or importation is —

(I) consistent with any conservation plan adopted by the Secretary under section 115(b) or any recovery plan developed under section 4(f) of the Endangered Species Act of 1973 for the species or stock, or

(II) if there is no conservation or recovery plan in place, with the Secretary's evaluation of actions required to enhance the survival or recovery of the species or stock in light to the factors that would be addressed in a conservation plan or a recovery plan.

(B) A permit issued in accordance with this paragraph may allow the captive maintenance of a marine mammal from a depleted species or stock only if the Secretary—

(i) determines that captive maintenance is likely to contribute to the survival or recovery of the species or stock by maintaining a viable gene pool, increasing productivity, providing biological information, or establishing animal reserves;

(ii) determines that the expected benefit to the affected species or stock outweighs the expected benefit of alternatives which do not require removal of animals from the wild; and

(iii) requires that the marine mammal or its progeny be returned to the natural habitat of the species or stock as soon as feasible, consistent with the objectives of any applicable conservation plan or recovery plan, or of any evaluation by the Secretary under subparagraph (A).

The Secretary may allow the public display of such a marine mammal only if the Secretary determines that such display is incidental to the authorized maintenance and will not interfere with the attainment of the survival or recovery objectives.

(5)(A) The Secretary may issue a permit for the importation of polar bear parts (other than internal organs) taken in sport hunts in Canada to an applicant which submits with its permit application proof that the polar bear was legally harvested in Canada by the applicant. Such a permit shall be issued if the Secretary, in consultation with the Marine Mammal Commission and after notice and opportunity for public comment, finds that—

(i) Canada has a monitored and enforced sport hunting program consistent with the purposes of the Agreement on the Conservation of Polar Bears;

(ii) Canada has a sport hunting program based on scientifically sound quotas ensuring the maintenance of the affected population stock at a sustainable level;

(iii) the export and subsequent import are consistent with the provisions of the Convention on International Trade in Endangered Species of Wild Fauna and Flora and other international agreements and conventions; and

(iv) the export and subsequent import are not likely to contribute to illegal trade in bear parts.

(B) The Secretary shall establish and charge a reasonable fee for permits issued under this paragraph. All fees collected under this paragraph shall be available to the Secretary until expended for use in developing and implementing cooperative research and management programs for the conservation of polar bears in Alaska and Russia pursuant to section 113(d).

(C)(i) The Secretary shall undertake a scientific review of the impact of permits issued under this paragraph on the polar bear population stocks in Canada within 2 years after the date of enactment of this paragraph [April 30, 1996]. The Secretary shall provide an opportunity for public comment during the course of such review, and shall include a response to such public comment in the final report on such review.

(ii) The Secretary shall not issue permits under this paragraph after September 30, 1996, if the Secretary determines, based on the scientific review, that the issuance of permits under this paragraph is having a significant adverse impact on the polar bear population stocks in Canada. The Secretary may review such determination annually thereafter, in light of the best scientific information available, and shall complete the review not later than January 31 in any year a review is undertaken. The Secretary may issue permits under this paragraph whenever the Secretary determines, on the basis of such annual review, that the issuance of permits under this paragraph is not having a significant adverse impact on the polar bear population stocks in Canada.

(D) The Secretary of the Interior shall, expeditiously after the expiration of the applicable 30 day period under subsection (d)(2), issue a permit for the importation of polar bear parts (other than internal organs) from polar bears taken in sport hunts in Canada before February 18, 1997, to each applicant who submits, with the permit application, proof that the polar bear was legally harvested in Canada by the applicant. The Secretary shall issue such permits without regard to the provisions of subparagraphs (A) and (C)(ii) of this paragraph, subsection (d)(3) of this section, and sections 101 and 102. This subparagraph shall not apply to polar bear parts that were imported before the effective date of this subparagraph [June 12, 1997].

(6) A permit may be issued for photography for educational or commercial purposes involving marine mammals in the wild only to an applicant which submits with its permit application information indicating that the taking will be limited to Level B harassment, and the manner in which the products of such activities will be made available to the public.

(7) Upon request by a person for a permit under paragraph (2), (3), or (4) for a marine mammal which is in the possession of any person authorized to possess it under this Act and which is determined under guidance under section 402(a) not to be releasable to the wild, the Secretary shall issue the permit to the person requesting the permit if that person—

(A) meets the requirements of clauses (i), (ii), and (iii) of paragraph (2)(A), in the case of a request for a permit under paragraph (2);

(B) meets the requirements of paragraph (3), in the case of a request for a permit under that paragraph; or

(C) meets the requirements of paragraph (4), in the case of a request for a permit under that paragraph.

(8)(A) No additional permit or authorization shall be required to possess, sell, purchase, transport, export, or offer to sell or purchase the progeny of marine mammals taken or imported under this subsection, if such possession, sale, purchase, transport, export, or offer to sell or purchase is—

(i) for the purpose of public display, and by or to, respectively, a person which meets the requirements of clauses (i), (ii), and (iii) of paragraph (2)(A);

(ii) for the purpose of scientific research, and by or to, respectively, a person which meets the requirements of paragraph (3); or

(iii) for the purpose of enhancing the survival or recovery of a species or stock, and by or to, respectively, a person which meets the requirements of paragraph (4).

(B)(i) A person which has a permit under paragraph (2), or a person exercising rights under paragraph (2)(C), which has possession of a marine mammal that gives birth to progeny shall—

(I) notify the Secretary of the birth of such progeny within 30 days after the date of birth; and

(II) notify the Secretary of the sale, purchase, or transport of such progeny no later than 15 days before such action.

(ii) The Secretary may only require notification under clause (i) to include the information required for the inventory established under paragraph (10).

(C) Any progeny of a marine mammal born in captivity before the date of the enactment of the Marine Mammal Protection Act Amendments of 1994 [April 30, 1994] and held in captivity for the purpose of public display shall be treated as though born after that date of enactment.

(9) No marine mammal may be exported for the purpose of public display, scientific research, or enhancing the survival or recovery of a species or stock unless the receiving facility meets standards that are comparable to the requirements that a person must meet to receive a permit under this subsection for that purpose.

(10) The Secretary shall establish and maintain an inventory of all marine mammals possessed pursuant to permits issued under paragraph (2)(A), by persons exercising rights under paragraph (2)(C), and all progeny of such marine mammals. The inventory shall contain, for each marine mammal, only the following information which shall be provided by a person holding a marine mammal under this Act:

- (A) The name of the marine mammal or other identification.
- (B) The sex of the marine mammal.
- (C) The estimated or actual birth date of the marine mammal.
- (D) The date of acquisition or disposition of the marine mammal by the permit holder.
- (E) The source from whom the marine mammal was acquired including the location of the take from the wild, if applicable.
- (F) If the marine mammal is transferred, the name of the recipient.
- (G) A notation if the animal was acquired as the result of a stranding.
- (H) The date of death of the marine mammal and the cause of death when determined.

(d) [APPLICATION PROCEDURES; NOTICE; HEARING; REVIEW.] —

- (1) The Secretary shall prescribe such procedures as are necessary to carry out this section, including the form and manner in which application for permits may be made.
- (2) The Secretary shall publish notice in the Federal Register of each application made for a permit under this section. Such notice shall invite the submission from interested parties, within thirty days after the date of the notice, of written data or views, with respect to the taking or importation proposed in such application.
- (3) The applicant for any permit under this section must demonstrate to the Secretary that the taking or importation of any marine mammal under such permit will be consistent with the purposes of this Act and the applicable regulations established under section 103.
- (4) If within thirty days after the date of publication of notice pursuant to paragraph (2) of this subsection with respect to any application for a permit any interested party or parties request a hearing in connection therewith, the Secretary may, within sixty days following such date of publication, afford to such party or parties an opportunity for such a hearing.
- (5) As soon as practicable (but not later than thirty days) after the close of the hearing or, if no hearing is held, after the last day on which data, or views, may be submitted pursuant to paragraph (2) of this subsection, the Secretary shall (A) issue a permit containing such terms and conditions as he deems appropriate, or (B) shall deny issuance of a permit. Notice of the decision of the Secretary to issue or to deny any permit under this paragraph must be published in the Federal Register within ten days after the date of issuance or denial.
- (6) Any applicant for a permit, or any party opposed to such permit, may obtain judicial review of the terms and conditions of any permit issued by the Secretary under this section or of his refusal to issue such a permit. Such review, which shall be pursuant to chapter 7 of Title 5, United States Code, may be initiated by filing a petition for review in the United States district court for the district wherein the applicant for a permit resides, or has his principal place of business, or in the United States District Court for the District of Columbia, within sixty days after the date on which such permit is issued or denied.

(e) [MODIFICATION, SUSPENSION, AND REVOCATION.] —

(1) The Secretary may modify, suspend, or revoke in whole or part any permit issued by him under this section—

(A) in order to make any such permit consistent with any change made after the date of issuance of such permit with respect to any applicable regulation prescribed under section 103 of this Act,

(B) in any case in which a violation of the terms and conditions of the permit is found, or

(C) if, in the case of a permit under subsection (c)(5) authorizing importation of polar bear parts, the Secretary, in consultation with the appropriate authority in Canada, determines that the sustainability of Canada's polar bear population stocks are being adversely affected or that sport hunting may be having a detrimental effect on maintaining polar bear population stocks throughout their range.

(2) Whenever the Secretary shall propose any modification, suspension, or revocation of a permit under this subsection, the permittee shall be afforded opportunity, after due notice, for a hearing by the Secretary with respect to such proposed modification, suspension, or revocation. Such proposed action by the Secretary shall not take effect until a decision is issued by him after such hearing. Any action taken by the Secretary after such a hearing is subject to judicial review on the same basis as is any action taken by him with respect to a permit application under paragraph (5) of subsection (d) of this section.

(3) Notice of the modification, suspension, or revocation of any permit by the Secretary shall be published in the Federal Register within ten days from the date of the Secretary's decision.

(f) [POSSESSION OF PERMIT BY ISSUEE OR HIS AGENT.] — Any permit issued under this section must be in the possession of the person to whom it is issued (or an agent of such person) during—

(1) the time of the authorized or taking importation,³

(2) the period of any transit of such person or agent which is incident to such taking or importation; and

(3) any other time while any marine mammal taken or imported under such permit is in the possession of such person or agent.

A duplicate copy of the issued permit must be physically attached to the container, package, enclosure, or other means of containment, in which the marine mammal is placed for purposes of storage, transit, supervision, or care.

(g) [FEES.] — The Secretary shall establish and charge a reasonable fee for permits issued under this section.

³ As in original, probably intended to be “the authorized taking or importation...”

(h) [GENERAL PERMITS.] —

(1) Consistent with the regulations prescribed pursuant to section 103 and to the requirements of section 101, the Secretary may issue an annual permit to a United States purse seine fishing vessel for the taking of such marine mammals, and shall issue regulations to cover the use of any such annual permits.

(2) Such annual permits for the incidental taking of marine mammals in the course of commercial purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean shall be governed by section 306 of this Act, subject to the regulations issued pursuant to section 303 of this Act.

(3)(A) The Secretary shall, commencing on January 1, 1985, undertake a scientific research program to monitor for at least five consecutive years, and periodically as necessary thereafter, the indices of abundance and trends of marine mammal population stocks which are incidentally taken in the course of commercial purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean.

(B) If the Secretary determines, on the basis of the best scientific information available (including that obtained under the monitoring program), that the incidental taking of marine mammals permitted under the general permit referred to in paragraph (2) is having a significant adverse effect on a marine mammal population stock, the Secretary shall take such action as is necessary, after notice and an opportunity for an agency hearing on the record, to modify the applicable incidental take quotas or requirements for gear and fishing practices (or both such quotas and requirements) for such fishing so as to ensure that the marine mammal population stock is not significantly adversely affected by the incidental taking.

(C) For each year after 1984, the Secretary shall include in his annual report to the public and the Congress under section 103(f) a discussion of the proposed activities to be conducted each year as part of the monitoring program required by subparagraph (A).

(D) There are authorized to be appropriated to the Department of Commerce for purposes of carrying out the monitoring program required under this paragraph not to exceed \$4,000,000 for the period beginning October 1, 1984, and ending September 30, 1988.

Penalties

16 U.S.C. 1375

Sec. 105. (a)(1) Any person who violates any provision or of any permit or regulation issued thereunder, except as provided in section 118, may be assessed a civil penalty by the Secretary of not more than \$10,000 for each such violation. No penalty shall be assessed unless such person is given notice and opportunity for a hearing with respect to such violation. Each unlawful taking or importation shall be a separate offense. Any such civil penalty may be remitted or mitigated by the Secretary for good cause shown. Upon any failure to pay a penalty assessed under this subsection, the Secretary may request the Attorney General to institute a civil action in a district court of the United States for any district in which such person is found, resides, or transacts business to collect the penalty and such court shall have jurisdiction to hear and decide any such action.

(2) In any case involving an alleged unlawful importation of a marine mammal or marine mammal product, if such importation is made by an individual for his own personal or family use (which does not include importation as an accommodation to others or for sale or other commercial use), the Secretary may, in lieu of instituting a proceeding under paragraph (1), allow the individual to abandon the mammal or product, under procedures to be prescribed by the Secretary, to the enforcement officer at the port of entry.

(b) Any person who knowingly violates any provision or of any permit or regulation issued thereunder (except as provided in section 118) shall, upon conviction, be fined not more than \$20,000 for each such violation, or imprisoned for not more than one year, or both.

Disposition of Fines

16 U.S.C. 1375a

Sec. [] Hereafter, all fines collected by the United States Fish and Wildlife Service for violations of the Marine Mammal Protection Act (16 U.S.C. 1362-1407) and implementing regulations shall be available to the Secretary, without further appropriation, to be used for the expenses of the United States Fish and Wildlife Service in administering activities for the protection and recovery of manatees, polar bears, sea otters, and walruses, and shall remain available until expended.

Vessel Fine, Cargo Forfeiture, and Rewards

16 U.S.C. 1376

Sec. 106. (a) [APPLICATION OF CONSISTENT PROVISIONS.] — Any vessel or other conveyance subject to the jurisdiction of the United States that is employed in any manner in the unlawful taking of any marine mammal shall have its entire cargo or the monetary value thereof subject to seizure and forfeiture. All provisions of law relating to the seizure, judicial forfeiture, and condemnation of cargo for violation of the customs laws, the disposition of such cargo, and the proceeds from the sale thereof, and the remission or mitigation of any such forfeiture, shall apply with respect to the cargo of any vessel or other conveyance seized in connection with the unlawful taking of a marine mammal insofar as such provisions of law are applicable and not inconsistent with the provisions of this Act.

(b) [PENALTIES.] — Any vessel subject to the jurisdiction of the United States that is employed in any manner in the unlawful taking of any marine mammal shall be liable for a civil penalty of not more than \$25,000. Such penalty shall be assessed by the district court of the United States having jurisdiction over the vessel. Clearance of a vessel against which a penalty has been assessed, from a port of the United States, may be withheld until such penalty is paid, or until a bond or otherwise satisfactory surety is posted. Such penalty shall constitute a maritime lien on such vessel which may be recovered by action in rem in the district court of the United States having jurisdiction over the vessel.

(c) [REWARD FOR INFORMATION LEADING TO CONVICTION.] — Upon the recommendation of the Secretary, the Secretary of the Treasury is authorized to pay an amount equal to one-half of the fine incurred but not to exceed \$2,500 to any person who furnishes information which leads to a conviction for a violation of this Act. Any officer or employee of the United States or of any State or local government who furnishes information or renders service in the performance of his official duties shall not be eligible for payment under this section.

Enforcement

16 U.S.C. 1377

Sec. 107. (a) [UTILIZATION OF PERSONNEL.] — Except as otherwise provided in this title, the Secretary shall enforce the provisions of this Act. The Secretary may utilize, by agreement, the personnel, services, and facilities of any other Federal agency for purposes of enforcing this title.

(b) [STATE OFFICERS AND EMPLOYEES.] — The Secretary may also designate officers and employees of any State or of any possession of the United States to enforce the provisions of this Act. When so designated, such officers and employees are authorized to function as Federal law enforcement agents for these purposes, but they shall not be held and considered as employees of the United States for the purposes of any laws administered by the Director of the Office of Personnel Management.

(c) [WARRANTS AND OTHER PROCESS FOR ENFORCEMENT.] — The judges of the district courts of the United States and the United States magistrates may, within their respective jurisdictions, upon proper oath or affirmation showing probable cause, issue such warrants or other process, including warrants or other process issued in admiralty proceedings in United States district courts, as may be required for enforcement and any regulations issued thereunder.

(d) [EXECUTION OF PROCESS; ARREST; SEARCH; SEIZURE.] — Any person authorized by the Secretary to enforce this title may execute any warrant or process issued by any officer or court of competent jurisdiction for the enforcement of this Act. Such person so authorized may, in addition to any other authority conferred by law—

(1) with or without warrant or other process, arrest any person committing in his presence or view a violation or the regulations issued thereunder;

(2) with a warrant or other process, or without a warrant if he has reasonable cause to believe that a vessel, other conveyance, or container subject to the jurisdiction of the United States or any person on board is in violation of any provision or the regulations issued thereunder, search such vessel, other conveyance, or container and arrest such person;

(3) seize the cargo of any vessel or other conveyance subject to the jurisdiction of the United States used or employed contrary to the provisions or the regulations issued hereunder or which reasonably appears to have been so used or employed; and

(4) seize, whenever and wherever found, all marine mammals and marine mammal products taken or retained in violation or the regulations issued thereunder and shall dispose of them in accordance with regulations prescribed by the Secretary.

(e) [DISPOSITION OF SEIZED CARGO.] —

(1) Whenever any cargo or marine mammal or marine mammal product is seized pursuant to this section, the Secretary shall expedite any proceedings commenced under section 105(a) or (b). All marine mammals or marine mammal products or other cargo so seized shall be held by any person authorized by the Secretary pending disposition of such proceedings. The owner or consignee of any such marine mammal or marine mammal product or other cargo so seized shall, as soon as practicable following such seizure, be notified of that fact in accordance with regulations established by the Secretary.

(2) The Secretary may, with respect to any proceeding under section 105(a) or (b), in lieu of holding any marine mammal or marine mammal product or other cargo, permit the person concerned to post bond or other surety satisfactory to the Secretary pending the disposition of such proceeding.

(3)(A) Upon the assessment of a penalty pursuant to section 105(a), all marine mammals and marine mammal products or other cargo seized in connection therewith may be proceeded against in any court of competent jurisdiction and forfeited to the Secretary for disposition by him in such manner as he deems appropriate.

(B) Upon conviction for violation of section 105(b), all marine mammals and marine mammal products seized in connection therewith shall be forfeited to the Secretary for disposition by him in such manner as he deems appropriate. Any other property or item so seized may, at the discretion of the court, be forfeited to the United States or otherwise disposed of.

(4) If with respect to any marine mammal or marine mammal product or other cargo so seized—

(A) a civil penalty is assessed under section 105(a) and no judicial action is commenced to obtain the forfeiture of such mammal or product within thirty days after such assessment, such marine mammal or marine mammal product or other cargo shall be immediately returned to the owner or the consignee; or

(B) no conviction results from an alleged violation of section 105(b), such marine mammal or marine mammal product or other cargo shall immediately be returned to the owner or consignee if the Secretary does not, with⁴ thirty days after the final disposition of the case involving such alleged violation, commence proceedings for the assessment of a civil penalty under section 105(a).

International Program

16 U.S.C. 1378

Sec. 108. (a) [DUTIES OF SECRETARY.] — The Secretary, through the Secretary of State, shall—

(1) initiate negotiations as soon as possible for the development of bilateral or multinational agreements with other nations for the protection and conservation of all marine mammals covered by this Act;

⁴ As in original, probably intended to be “within thirty days...”

(2) initiate—

(A) negotiations as soon as possible with all foreign governments which are engaged in, or which have persons or companies engaged in, commercial fishing operations which are found by the Secretary to be unduly harmful to any species or population stock of marine mammal, for the purpose of entering into bilateral and multilateral treaties with such countries to protect marine mammals, with the Secretary of State to prepare a draft agenda relating to this matter for discussion at appropriate international meetings and forums;

(B) discussions with foreign governments whose vessels harvest yellowfin tuna with purse seines in the eastern tropical Pacific Ocean, for the purpose of concluding, through the Inter-American Tropical Tuna Commission or such other bilateral or multilateral institutions as may be appropriate, international arrangements for the conservation of marine mammals taken incidentally in the course of harvesting such tuna, which should include provisions for—

(i) cooperative research into alternative methods of locating and catching yellowfin tuna which do not involve the taking of marine mammals,

(ii) cooperative research on the status of affected marine mammal population stocks,

(iii) reliable monitoring of the number, rate, and species of marine mammals taken by vessels of harvesting nations,

(iv) limitations on incidental take levels based upon the best scientific information available, and

(v) the use of the best marine mammal safety techniques and equipment that are economically and technologically practicable to reduce the incidental kill and serious injury of marine mammals to insignificant levels approaching a zero mortality and serious injury rate;

(C) negotiations to revise the Convention for the Establishment of an Inter-American Tropical Tuna Commission (1 U.S.T. 230; TIAS 2044) which will incorporate—

(i) the conservation and management provisions agreed to by the nations which have signed the Declaration of Panama and in the Straddling Fish Stocks and Highly Migratory Fish Stocks Agreement, as opened for signature on December 4, 1995; and

(ii) a revised schedule of annual contributions to the expenses of the Inter-American Tropical Tuna Commission that is equitable to participating nations; and

(D) discussions with those countries participating, or likely to participate, in the International Dolphin Conservation Program, for the purpose of identifying sources of funds needed for research and other measures promoting effective protection of dolphins, other marine species, and the marine ecosystem;

(3) encourage such other agreements to promote the purposes of this Act with other nations for the protection of specific ocean and land regions which are of special significance to the health and stability of marine mammals;

(4) initiate the amendment of any existing international treaty for the protection and conservation of any species of marine mammal to which the United States is a party in order to make such treaty consistent with the purposes and policies of this Act;

(5) seek the convening of an international ministerial meeting on marine mammals before July 1, 1973, for the purposes of (A) the negotiation of a binding international convention for the protection and conservation of all marine mammals, and (B) the implementation of paragraph (3) of this section; and

(6) provide to the Congress by not later than one year after the date of the enactment of this Act [October 21, 1973] a full report on the results of his efforts under this section.

(b) [CONSULTATIONS AND STUDIES CONCERNING NORTH PACIFIC FUR SEALS.] —

(1) In addition to the foregoing, the Secretary shall—

(A) in consultation with the Marine Mammal Commission established by section 201 of this Act, undertake a study of the North Pacific fur seals to determine whether herds of such seals subject to the jurisdiction of the United States are presently at their optimum sustainable population and what population trends are evident; and

(B) in consultation with the Secretary of State, promptly undertake a comprehensive study of the provisions of this Act, as they relate to North Pacific fur seals, and the provisions of the North Pacific Fur Seal Convention signed on February 9, 1957, as extended (hereafter referred to in this subsection as the “Convention”), to determine what modifications, if any, should be made to the provisions of the Convention, or of this Act, or both, to make the Convention and this Act consistent with each other.

The Secretary shall complete the studies required under this paragraph not later than one year after the date of enactment of this Act [October 21, 1973] and shall immediately provide copies thereof to Congress.

(2) If the Secretary finds—

(A) as a result of the study required under paragraph (1)(A) of this subsection, that the North Pacific fur seal herds are below their optimum sustainable population and are not trending upward toward such level, or have reached their optimum sustainable population but are commencing a downward trend, and believes the herds to be in danger of depletion; or

(B) as a result of the study required under paragraph (1)(B) of this subsection, that modifications of the Convention are desirable to make it and this Act consistent;

he shall, through the Secretary of State, immediately initiate negotiations to modify the Convention so as to (i) reduce or halt the taking of seals to the extent required to assure that such herds attain and remain at their optimum sustainable population, or (ii) make the Convention and this Act consistent; or both, as the case may be. If negotiations to so modify the Convention are unsuccessful, the Secretary shall, through the Secretary of State, take such steps as may be necessary to continue the existing Convention beyond its

present termination date so as to continue to protect and conserve the North Pacific fur seals and to prevent a return to pelagic sealing.

(c) [DESCRIPTION OF ANNUAL RESULTS OF DISCUSSIONS; PROPOSALS FOR FURTHER ACTION.] — The Secretary shall include a description of the annual results of discussions initiated and conducted pursuant to subsection (a)(2)(B), as well as any proposals for further action to achieve the purposes of that subsection, in the report required under section 103(f).

Federal Cooperation with States

16 U.S.C. 1379

Sec. 109. (a) [STATE ENFORCEMENT OF STATE LAWS OR REGULATIONS PROHIBITED WITHOUT TRANSFER TO STATE OF MANAGEMENT AUTHORITY BY SECRETARY.] — No State may enforce, or attempt to enforce, any State law or regulation relating to the taking of any species (which term for purposes of this section includes any population stock) of marine mammal within the State unless the Secretary has transferred authority for the conservation and management of that species (hereinafter referred to in this section as “management authority”) to the State under subsection (b)(1).

(b) [FINDINGS PREREQUISITE TO TRANSFER OF AUTHORITY; STATE PROGRAM; IMPLEMENTATION.] —

(1) Subject to paragraph (2) and subsection (f), the Secretary shall transfer management authority for a species of marine mammal to a State if the Secretary finds, after notice and opportunity for public comment, that the State has developed and will implement a program for the conservation and management of the species that—

(A) is consistent with the purposes, policies, and goals of this Act and with international treaty obligations;

(B) requires that all taking of the species be humane;

(C) does not permit the taking of the species unless and until—

(i) the State has determined, under a process consistent with the standards set forth in subsection (c)—

(I) that the species is at its optimum sustainable population (hereinafter in this section referred to as “OSP”), and

(II) the maximum number of animals of that species that may be taken without reducing the species below its OSP, and

(ii) the determination required under clause (i) is final and implemented under State law, and, if a cooperative allocation agreement for the species is required under subsection (d)(1), such an agreement is implemented;

(D) does not permit the taking of a number of animals of the species that exceeds the maximum number determined pursuant to subparagraph (C)(i)(II), and, in the case of taking for subsistence uses (as defined in subsection (f)(2)), does not permit the taking of a number of animals that would be inconsistent with the maintenance of the species at its OSP;

(E) does not permit the taking of the species for scientific research, public display, or enhancing the survival or recovery of a species or stock, except for taking for such purposes that is undertaken by, or on behalf of, the State;

(F) provides procedures for acquiring data, and evaluating such data and other new evidence, relating to the OSP of the species, and the maximum take that would maintain the species at that level, and, if required on the basis of such evaluation, for amending determinations under subparagraph (C)(i);

(G) provides procedures for the resolution of differences between the State and the Secretary that might arise during the development of a cooperative allocation agreement under subsection (d)(1); and

(H) provides for the submission of an annual report to the Secretary regarding the administration of the program during the reporting period.

(2) During the period between the transfer of management authority for a species to a State under paragraph (1) and the time at which the implementation requirements under paragraph (1)(C)(ii) are complied with—

(A) the State program shall not apply with respect to the taking of the species within the State for any purpose, or under any condition, provided for under section 101; and

(B) the Secretary shall continue to regulate, under this title, all takings of the species within the State.

(3) After the determination required under paragraph (1)(C)(i) regarding a species is final and implemented under State law and after a cooperative allocation agreement described in subsection (d)(1), if required, is implemented for such species—

(A) such determination shall be treated, for purposes of applying this title beyond the territory of the State, as a determination made in accordance with section 103 and as an applicable waiver under section 101(a)(3);

(B) the Secretary shall regulate, without regard to this section other than the allocations specified under such an agreement, the taking of the species—

(i) incidentally in the course of commercial fishing operations (whether provided for under section 101(a)(2) or (4)), or in the course of other specified activities provided for under section 101(a)(5), in the zone described in section 3(14)(B), and⁵

(ii) for scientific research, public display, or enhancing the survival or recovery of a species or stock (other than by, or on behalf of, the State), except that any taking authorized under a permit issued pursuant to section 101(a)(1) after the date of the enactment of the 1981 amendment to this subsection [October 9, 1981] allowing the removal of live animals from habitat within the State shall not be effective if the State agency disapproves, on or before the date of issuance of the permit, such taking as being inconsistent with the State program; and

⁵ The wording of this section predates enactment of section 118, which now governs the incidental taking of marine mammals in commercial fisheries rather than section 101(a)(2) or (4).

(C) section 101(b) shall not apply.

(c) [STANDARDS WITH WHICH STATE PROCESS MUST COMPLY.] — The State process required under subsection (b)(1)(C) must comply with the following standards:

(1) The State agency with management authority for the species (hereinafter in this section referred to as the “State agency”) must make an initial determination regarding the factors described in clause (i) of that subsection. The State agency must identify, and make available to the public under reasonable circumstances, the documentation supporting such initial determination. Unless request for a hearing under paragraph (2) regarding the initial determination is timely made, the initial determination shall be treated as final under State law.

(2) The State agency shall provide opportunity, at the request of any interested party, for a hearing with respect to the initial determination made by it under paragraph (1) at which interested parties may—

(A) present oral and written evidence in support of or against such determination;
and

(B) cross-examine persons presenting evidence at the hearing.

The State agency must give public notice of the hearing and make available to the public within a reasonable time before commencing the hearing a list of the witnesses for the State and a general description of the documentation and other evidence that will be relied upon by such witnesses.

(3) The State agency, solely on the basis of the record developed at a hearing held pursuant to paragraph (2), must make a decision regarding its initial determination under paragraph (1) and shall include with the record a statement of the findings and conclusions, and the reason or basis therefor, on all material issues.

(4) Opportunity for judicial review of the decision made by the State agency on the record under paragraph (3), under scope of review equivalent to that provided for in section 706(2) (A) through (E) of Title 5, United States Code, must be available under State law. The Secretary may not initiate judicial review of any such decision.

(d) [COOPERATIVE ALLOCATION AGREEMENTS.] —

(1) If the range of a species with respect to which a determination under paragraph (1)(C)(i) of subsection (b) is made extends beyond the territorial waters of the State, the State agency and the Secretary (who shall first coordinate with the Marine Mammal Commission and the appropriate Regional Fishery Management Council established under section 302 of the Act of April 13, 1976 (16 U.S.C. 1852)) shall enter into a cooperative allocation agreement providing procedures for allocating, on a timely basis, such of the number of animals, as determined under paragraph (1)(C)(i)(II) of subsection (b), as may be appropriate with priority of allocation being given firstly to taking for subsistence uses in the case of the State of Alaska, and secondly to taking for purposes provided for under section 101(a) within the zone described in section 3(14)(B).⁶

⁶ Section 109(d)(2) was not amended when section 3(14) was redesignated as section 3(15) by Pub. L. 102-582. Reference to section 3(14)(B) should be to section 3(15)(B).

(2) If the State agency requests the Secretary to regulate the taking of a species to which paragraph (1) applies within the zone described in section 3(14)(B) for subsistence uses or for hunting, or both, in a manner consistent with the regulation by the State agency of such taking within the State, the Secretary shall adopt, and enforce within such zone, such of the State agency's regulatory provisions as the Secretary considers to be consistent with his administration of section 101(a) within such zone. The Secretary shall adopt such provisions through the issuance of regulations under section 553 of Title 5, United States Code, and with respect to such issuance the Regulatory Flexibility Act, the Paperwork Reduction Act, Executive Order No. 12291, dated February 17, 1981, and the thirty-day notice requirement in subsection (d) of such section 553 shall not apply. For purposes of sections 105, 106, and 107, such regulations shall be treated as having been issued under this title.

(e) [REVOCATION OF TRANSFER OF MANAGEMENT AUTHORITY.] —

(1) Subject to paragraph (2), the Secretary shall revoke, after opportunity for a hearing, any transfer of management authority made to a State under subsection (b)(1) if the Secretary finds that the State program for the conservation and management of the species concerned is not being implemented, or is being implemented in a manner inconsistent with the provisions of this section or the provisions of the program. The Secretary shall also establish a procedure for the voluntary return by a State to the Secretary of species management authority that was previously transferred to the State under subsection (b)(1).

(2)(A) The Secretary may not revoke a transfer of management authority under paragraph (1) unless—

(i) The Secretary provides to the State a written notice of intent to revoke together with a statement, in detail, of those actions, or failures to act, on which such intent is based; and

(ii) during the ninety-day period after the date of the notice of intent to revoke—

(I) the Secretary provides opportunity for consultation between him and the State concerning such State actions or failures to act and the remedial measures that should be taken by the State, and

(II) the State does not take such remedial measures as are necessary, in the judgment of the Secretary, to bring its conservation and management program, or the administration or enforcement of the program, into compliance with the provisions of this section.

(B) When a revocation by the Secretary of a transfer of management authority to a State becomes final, or the State voluntarily returns management authority to the Secretary, the Secretary shall regulate the taking, and provide for the conservation and management, of the species within the State in accordance with the provisions of this Act (and in the case of Alaskan Natives, section 101(b) and subsection (i) of this section shall apply upon such revocation or return of management authority).

(f) [TRANSFER OF MANAGEMENT AUTHORITY TO STATE OF ALASKA.] —

(1) The Secretary may not transfer management authority to the State of Alaska under subsection (b)(1) for any species of marine mammal unless—

(A) the State has adopted and will implement a statute and regulations that insure that the taking of the species for subsistence uses—

- (i) is accomplished in a nonwasteful manner,
- (ii) will be the priority consumptive use of the species, and
- (iii) if required to be restricted, such restriction will be based upon—

(I) the customary and direct dependence upon the species as the mainstay of livelihood,

(II) local residency, and

(III) the availability of alternative resources; and

(B) the State has adopted a statute or regulation that requires that any consumptive use of marine mammal species, other than for subsistence uses, will be authorized during a regulatory year only if the appropriate agency first makes findings, based on an administrative record before it, that—

(i) such use will have no significant adverse impact upon subsistence uses of the species, and

(ii) the regulation of such use, including, but not limited to, licensing of marine mammal hunting guides and the assignment of guiding areas, will, to the maximum extent practicable, provide economic opportunities for the residents of the rural coastal villages of Alaska who engage in subsistence uses of that species.

(2) For purposes of paragraph (1), the term “subsistence uses” means the customary and traditional uses by rural Alaska residents of marine mammals for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation; for the making and selling of handicraft articles out of nonedible byproducts of marine mammals taken for personal or family consumption; and for barter, or sharing for personal or family consumption. As used in this paragraph—

(A) The term “family” means all persons related by blood, marriage, or adoption, or any person living within a household on a permanent basis.

(B) The term “barter” means the exchange of marine mammals or their parts, taken for subsistence uses—

(i) for other wildlife or fish or their parts, or

(ii) for other food or for nonedible items other than money if the exchange is of a limited and noncommercial nature.

(g) [ENVIRONMENTAL IMPACT STATEMENT NOT REQUIRED.] — Neither the transfer of management authority to a State under subsection (b)(1), nor the revocation or voluntary return of such authority under subsection (e), shall be deemed to be an action for which an environmental impact statement is required under section 102 of the National Environmental Policy Act of 1969.

(h) [TAKING OF MARINE MAMMALS AS PART OF OFFICIAL DUTIES.] —

(1) Nothing in this title or title IV shall prevent a Federal, State, or local government official or employee or a person designated under section 112(c) from taking, in the course of his or her duties as an official, employee, or designee, a marine mammal in a humane manner (including euthanasia) if such taking is for—

- (A) the protection or welfare of the mammal,
- (B) the protection of the public health and welfare, or
- (C) the nonlethal removal of nuisance animals.

(2) Nothing in this title shall prevent the Secretary or a person designated under section 112(c) from importing a marine mammal into the United States if such importation is necessary to render medical treatment that is not otherwise available.

(3) In any case in which it is feasible to return to its natural habitat a marine mammal taken or imported under circumstances described in this subsection, steps to achieve that result shall be taken.

(i) [REGULATIONS COVERING TAKING OF MARINE MAMMALS BY ALASKAN NATIVES.] — The Secretary may (after providing notice thereof in the Federal Register and in newspapers of general circulation, and through appropriate electronic media, in the affected area and providing opportunity for a hearing thereon in such area) prescribe regulations requiring the marking, tagging, and reporting of animals taken pursuant to section 101(b).

(j) [GRANTS TO DEVELOP OR ADMINISTER STATE CONSERVATION AND MANAGEMENT PROGRAMS.] — The Secretary may make grants to States to assist them—

(1) in developing programs, to be submitted for approval under subsection (b), for the conservation and management of species of marine mammals; and

(2) in administering such programs if management authority for such species is transferred to the State under such subsection.

Grants made under this subsection may not exceed 50 per centum of the costs of developing a State program before Secretarial approval, or of administering the program thereafter.

(k) [DELEGATION OF ADMINISTRATION AND ENFORCEMENT TO STATES.] — The Secretary is authorized and directed to enter into cooperative arrangements with the appropriate officials of any State for the delegation to such State of the administration and enforcement of this Act: *Provided*, That any such arrangement shall contain such provisions as the Secretary deems appropriate to insure that the purposes and policies of this Act will be carried out.

(I) [AUTHORIZATION OF APPROPRIATIONS.] —

(1) There are authorized to be appropriated to the Department of the Interior, for the purposes of carrying out this section, not to exceed \$400,000 for each of the fiscal years ending September 30, 1979, September 30, 1980, and September 30, 1981.

(2) There are authorized to be appropriated to the Department of Commerce, for the purposes of carrying out this section, not to exceed \$225,000 for each of the fiscal years ending September 30, 1979, September 30, 1980, and September 30, 1981.

Marine Mammal Research Grants

16 U.S.C. 1380

Sec. 110. (a) [AUTHORIZATION; RESEARCH CONCERNING YELLOWFIN TUNA; ANNUAL REPORT.] — The Secretary is authorized to make grants, or to provide financial assistance in such other form as he deems appropriate, to any Federal or State agency, public or private institution, or other person for the purpose of assisting such agency, institution, or person to undertake research in subjects which are relevant to the protection and conservation of marine mammals. In carrying out this subsection, the Secretary shall undertake a program of, and shall provide financial assistance for, research into new methods of locating and catching yellowfin tuna without the incidental taking of marine mammals. The Secretary shall include a description of the annual results of research carried out under this section in the report required under section 103(f).

(b) [TERMS AND CONDITIONS.] — Any grant or other financial assistance provided by the Secretary pursuant to this section shall be subject to such terms and conditions as the Secretary deems necessary to protect the interests of the United States and shall be made after review by the Marine Mammal Commission.

(c) [GULF OF MAINE ECOSYSTEM PROTECTION.] —

(1) No later than 1 year after the date of enactment of the Marine Mammal Protection Act Amendments of 1994 [April 30, 1995], the Secretary of Commerce shall convene a regional workshop for the Gulf of Maine to assess human-caused factors affecting the health and stability of that marine ecosystem, of which marine mammals are a part. The workshop shall be conducted in consultation with the Marine Mammal Commission, the adjacent coastal States, individuals with expertise in marine mammal biology and ecology, representatives from environmental organizations, the fishing industry, and other appropriate persons. The goal of the workshop shall be to identify such factors, and to recommend a program of research and management to restore or maintain that marine ecosystem and its key components that—

(A) protects and encourages marine mammals to develop to the greatest extent feasible commensurate with sound policies of resource management;

(B) has as the primary management objective the maintenance of the health and stability of the marine ecosystems;

(C) ensures the fullest possible range of management options for future generations; and

(D) permits nonwasteful, environmentally sound development of renewable and nonrenewable resources.

(2) On or before December 31, 1995, the Secretary of Commerce shall submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science and Transportation of the Senate a report containing the results of the workshop under this subsection, proposed regulatory or research actions, and recommended legislative action.

(d) [BERING SEA ECOSYSTEM PROTECTION.] —

(1) The Secretary of Commerce, in consultation with the Secretary of the Interior, the Marine Mammal Commission, the State of Alaska, and Alaska Native organizations, shall, not later than 180 days after the date of enactment of the Marine Mammal Protection Act Amendments of 1994 [October 27, 1994], undertake a scientific research program to monitor the health and stability of the Bering Sea marine ecosystem and to resolve uncertainties concerning the causes of population declines of marine mammals, sea birds, and other living resources of that marine ecosystem. The program shall address the research recommendations developed by previous workshops on Bering Sea living marine resources, and shall include research on subsistence uses of such resources and ways to provide for the continued opportunity for such uses.

(2) To the maximum extent practicable, the research program undertaken pursuant to paragraph (1) shall be conducted in Alaska. The Secretary of Commerce shall utilize, where appropriate, traditional local knowledge and may contract with a qualified Alaska Native organization to conduct such research.

(3) The Secretary of Commerce, the Secretary of the Interior, and the Commission shall address the status and findings of the research program in their annual reports to Congress required by sections 103(f) and 204 of this Act.

Commercial Fisheries Gear Development

16 U.S.C. 1381

Sec. 111. (a) [RESEARCH AND DEVELOPMENT PROGRAM; REPORT TO CONGRESS; AUTHORIZATION OF APPROPRIATIONS.] — The Secretary of the department in which the National Oceanic and Atmospheric Administration is operating (hereafter referred to in this section as the “Secretary”) is hereby authorized and directed to immediately undertake a program of research and development for the purpose of devising improved fishing methods and gear so as to reduce to the maximum extent practicable the incidental taking of marine mammals in connection with commercial fishing. At the end of the full twenty-four calendar month period following the date of the enactment of this Act [October 21, 1974], the Secretary shall deliver his report in writing to the Congress with respect to the results of such research and development. For the purposes of this section, there is hereby authorized to be appropriated the sum of \$1,000,000 for the fiscal year ending June 30, 1973, and the same amount for the next fiscal year. Funds appropriated for this section shall remain available until expended.

(b) [REDUCTION OF LEVEL OF TAKING OF MARINE MAMMALS INCIDENTAL TO COMMERCIAL FISHING OPERATIONS.] — The Secretary, after consultation with the Marine Mammal Commission, is authorized and directed to issue, as soon as practicable, such regulations, covering the twenty-four-month period referred to in section 101(a)(2),

as he deems necessary or advisable, to reduce to the lowest practicable level the taking of marine mammals incidental to commercial fishing operations. Such regulations shall be adopted pursuant to section 553 of Title 5, United States Code. In issuing such regulations, the Secretary shall take into account the results of any scientific research under subsection (a) of this section and, in each case, shall provide a reasonable time not exceeding four months for the persons affected to implement such regulations.

(c) [REDUCTION OF LEVEL OF TAKING OF MARINE MAMMALS IN TUNA FISHERY.] — Additionally, the Secretary and Secretary of State are directed to commence negotiations within the Inter-American Tropical Tuna Commission in order to effect essential compliance with the regulatory provisions of this Act so as to reduce to the maximum extent feasible the incidental taking of marine mammals by vessels involved in the tuna fishery. The Secretary and Secretary of State are further directed to request the Director of Investigations of the Inter-American Tropical Tuna Commission to make recommendations to all member nations of the Commission as soon as is practicable as to the utilization of methods and gear devised under subsection (a) of this section.

(d) [RESEARCH AND OBSERVATION.] — Furthermore, after timely notice and during the period of research provided in this section, duly authorized agents of the Secretary are hereby empowered to board and to accompany any commercial fishing vessel documented under the laws of the United States, there being space available, on a regular fishing trip for the purpose of conducting research or observing operations in regard to the development of improved fishing methods and gear as authorized by this section. Such research and observation shall be carried out in such manner as to minimize interference with fishing operations. The Secretary shall provide for the cost of quartering and maintaining such agents. No master, operator, or owner of such a vessel shall impair or in any way interfere with the research or observation being carried out by agents of the Secretary pursuant to this section.

Regulations and Administration

16 U.S.C. 1382

Sec. 112. (a) [CONSULTATION WITH FEDERAL AGENCIES.] — The Secretary, in consultation with any other Federal agency to the extent that such agency may be affected, shall prescribe such regulations as are necessary and appropriate to carry out the purposes of this Act.

(b) [COOPERATION BY FEDERAL AGENCIES.] — Each Federal agency is authorized and directed to cooperate with the Secretary, in such manner as may be mutually agreeable, in carrying out the purposes of this Act.

(c) [CONTRACTS, LEASES, AND COOPERATIVE AGREEMENTS.] — The Secretary may enter into such contracts, leases, cooperative agreements, or other transactions as may be necessary to carry out the purposes or title IV and on such terms as he deems appropriate with any Federal or State agency, public or private institution, or other person.

(d) [ANNUAL REVIEW; SUSPENSION OF PROGRAM.] — The Secretary shall review annually the operation of each program in which the United States participates involving the taking of marine mammals on land. If at any time the Secretary finds that any such program cannot be administered on lands owned by the United States or in which the United States has an interest in a manner consistent with the purposes of⁷ policies of this

⁷ As in original, probably intended to be “with the purposes or policies....”

Act, he shall suspend the operation of that program and shall include in the annual report to the public and the Congress required under section 103(f) of this Act his reasons for such suspension, together with recommendations for such legislation as he deems necessary and appropriate to resolve the problem.

(e) [MEASURES TO ALLEVIATE IMPACTS ON STRATEGIC STOCKS.] — If the Secretary determines, based on a stock assessment under section 117 or other significant new information obtained under this Act, that impacts on rookeries, mating grounds, or other areas of similar ecological significance to marine mammals may be causing the decline or impeding the recovery of a strategic stock, the Secretary may develop and implement conservation or management measures to alleviate those impacts. Such measures shall be developed and implemented after consultation with the Marine Mammal Commission and the appropriate Federal agencies and after notice and opportunity for public comment.

Application to Other Treaties and Conventions

16 U.S.C. 1383

Sec. 113. (a) [IN GENERAL; WAIVER OF PENALTIES.] — The provisions of this Act shall be deemed to be in addition to and not in contravention of the provisions of any existing international treaty, convention, or agreement, or any statute implementing the same, which may otherwise apply to the taking of marine mammals. Upon a finding by the Secretary that the provisions of any international treaty, convention, or agreement, or any statute implementing the same has been made applicable to persons subject to the provisions of this Act in order to effect essential compliance with the regulatory provisions of this Act so as to reduce to the lowest practicable level the taking of marine mammals incidental to commercial fishing operations, section 105 of this Act may not apply to such persons.

(b) [REVIEW OF EFFECTIVENESS OF AGREEMENT ON THE CONSERVATION OF POLAR BEARS.] — Not later than 1 year after the date of enactment of the Marine Mammal Protection Act Amendments of 1994 [April 30, 1995], the Secretary of the Interior shall, in consultation with the contracting parties, initiate a review of the effectiveness of the Agreement on the Conservation of Polar Bears, as provided for in Article IX of the Agreement, and establish a process by which future reviews shall be conducted.

(c) [REVIEW OF IMPLEMENTATION OF AGREEMENT ON THE CONSERVATION OF POLAR BEARS; REPORT.] — The Secretary of the Interior, in consultation with the Secretary of State and the Marine Mammal Commission, shall review the effectiveness of United States implementation of the Agreement on the Conservation of Polar Bears, particularly with respect to the habitat protection mandates contained in Article II. The Secretary shall report the results of this review to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate not later than April 12, 1995.

(d) [CONSULTATION REGARDING AGREEMENT ON THE CONSERVATION OF POLAR BEARS IN ALASKA AND IN RUSSIA; REPORT.] — Not later than 6 months after the date of enactment of the Marine Mammal Protection Act Amendments of 1994 [October 30, 1994], the Secretary of the Interior, acting through the Secretary of State and in consultation with the Marine Mammal Commission and the State of Alaska, shall consult with the appropriate officials of the Russian Federation on the development and implementation of enhanced cooperative research and management programs for the conservation of polar bears in Alaska and Russia. The Secretary shall report the results of this consultation and

provide periodic progress reports on the research and management programs to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science and Transportation of the Senate.

Interim Exemption for Commercial Fisheries⁸

16 U.S.C. 1383a

Sec. 114. (a) [EFFECTIVE AND TERMINATION DATES OF PREEMPTIVE PROVISIONS; LAW GOVERNING INCIDENTAL TAKING OF MARINE MAMMALS IN COURSE OF COMMERCIAL YELLOWFIN TUNA FISHING.] —

(1) During the period beginning on the date of enactment of this section [November 23, 1988] and until superseded by regulations prescribed under section 118, or until September 1, 1995, whichever is earlier, except as provided in paragraph (2), the provisions of this section, rather than sections 101, 103, and 104, shall govern the incidental taking of marine mammals in the course of commercial fishing operations by persons using vessels of the United States and vessels which have valid fishing permits issued by the Secretary in accordance with section 204(b) of the Magnuson-Stevens Fishery Conservation and Management Act. In any event it shall be the immediate goal that the incidental kill or serious injury of marine mammals permitted in the course of commercial fishing operations be reduced to insignificant levels approaching a zero mortality and serious injury rate.

(2) The provisions of this section other than subsection (e)(6)(A) shall not govern the incidental taking of marine mammals in the course of commercial yellowfin tuna fishing subject to section 104(h)(2).

(b) [PROPOSED AND FINAL LIST OF FISHERIES TAKING MARINE MAMMALS; PUBLICATION IN FEDERAL REGISTER; GRANT OF EXEMPTION; CONDITIONS; SUSPENSION OF GRANT OF EXEMPTION; ADMINISTRATION OF EXEMPTION PROVISIONS; FEES.] —

(1) The Secretary shall, after consultation with the Marine Mammal Commission—

(A) publish in the Federal Register, for public comment, not later than sixty days after the date of enactment of this section [January 23, 1989] a proposed list of those fisheries, along with a statement of the marine mammals and the approximate number of vessels or persons involved in each such fishery, that have—

- (i) frequent incidental taking of marine mammals;
- (ii) occasional incidental taking of marine mammals; or
- (iii) a remote likelihood of or no known incidental taking of marine mammals;

(B) publish in the Federal Register not later than one hundred and twenty days after the date of enactment of this section [March 24, 1989] a final list of the fisheries and other information required by paragraph (A), together with a summary of the

⁸ Section 114 governed the taking of marine mammals incidental to commercial fishing operations beginning in 1988 until superseded by implementation of section 118. In general, readers should refer to section 118, rather than section 114, concerning the Act's provisions governing such taking.

provisions of this section and information sufficient to advise vessel owners on how to obtain an exemption and otherwise comply with the requirements of this section; and

(C) at least once each year thereafter, and at such other times as the Secretary considers appropriate, reexamine, based on information gathered from the program established under subsections (c), (d), (e), and (f), and other relevant sources and after notice and opportunity for public comment, the classification of fisheries and other determinations required under subparagraph (A) and publish in the Federal Register any necessary changes.

(2)(A) An exemption shall be granted by the Secretary in accordance with this section for a vessel engaged in a fishery identified under paragraph (1)(A) (i) or (ii), upon receipt by the Secretary of a completed registration form providing the name of the vessel owner, the name and description of the vessel, the fisheries in which it will be engaged, and such other information as the Secretary considers necessary. A decal or other physical evidence that the exemption is current and valid shall be issued by the Secretary at the time an exemption is granted, and so long as the exemption remains current and valid, shall be reissued annually thereafter.

(B) No exemption may be granted under this section to the owner of a vessel unless such vessel—

(i) is a vessel of the United States; or

(ii) has a valid fishing permit issued by the Secretary in accordance with section 204(b) of the Magnuson-Stevens Fishery Conservation and Management Act.

(C) Notwithstanding any other provision of this Act, exemptions granted under this section shall authorize the incidental taking of marine mammals, other than California sea otters, from any species or stock, including a population stock designated as depleted, but shall not authorize the intentional lethal taking of any Steller sea lion, any cetacean, or any marine mammals from a population stock designated as depleted.

(3)(A) Beginning two hundred and forty days after the date of enactment of this section [July 22, 1989], each owner of a vessel engaged in any fishery identified under paragraph (1)(A) (i) or (ii) shall, in order to engage lawfully in that fishery—

(i) have registered with the Secretary in order to obtain for each such vessel owned an exemption for the purpose of incidentally taking marine mammals in accordance with this section;

(ii) ensure that a decal or such other physical evidence of a current and valid exemption as the Secretary may require is displayed on or is in the possession of the master of each such vessel; and

(iii) report as required by subsection (c).

(B) Any owner of a vessel receiving an exemption under this section for any fishery identified under paragraph (1)(A)(i) shall, as a condition of that exemption, take on board a natural resource observer if requested to do so by the Secretary.

(C) An owner of a vessel engaged in a fishery identified under paragraph (1)(A) (i) or (ii) who—

(i) fails to obtain from the Secretary an exemption under this section;

(ii) fails to maintain a current and valid exemption; or

(iii) fails to ensure that a decal or other physical evidence of such exemption issued by the Secretary is displayed on or is in possession⁹ of the master of the vessel,

and the master of any such vessel engaged in such fishery, shall be deemed to have violated this title, and shall be subject to the penalties of this Act except in the case of unknowing violations before January 1, 1990.

(D) If the owner of a vessel has obtained and maintains a current and valid exemption from the Secretary under this section and meets the requirements set forth in this section, the owner of such vessel, and the master and crew members of the vessel, shall not be subject to the penalties set forth in this title for the incidental taking of marine mammals while such vessel is engaged in a fishery to which the exemption applies.

(E) Each owner of a vessel engaged in any fishery not identified in paragraph (1)(A) (i) or (ii), and the master and crew members of such a vessel, shall not be subject to the penalties set forth in this title for the incidental taking of marine mammals if such owner reports to the Secretary, in such form and manner as the Secretary may require, instances of lethal incidental taking in the course of that fishery.

(4) The Secretary shall suspend or revoke an exemption granted under this section and shall not issue a decal or other physical evidence of the exemption for any vessel until the owner of such vessel complies with the reporting requirements under subsection (c) and such requirements to take on board a natural resource observer under paragraph (3)(B) as are applicable to such vessel.

(5)(A) The Secretary shall develop, in consultation with the appropriate States, Regional Fishery Management Councils, and other interested parties, the means by which the granting and administration of exemptions under this section shall be integrated and coordinated, to the maximum extent practicable, with existing fishery licenses, registrations, and related programs.

(B) The Secretary shall utilize newspapers of general circulation, fishery trade associations, electronic media, and other means of advising commercial fishermen of the provisions of this section and the means by which they can comply with its requirements.

(C) The Secretary is authorized to charge a fee for the granting of an exemption under this subsection. The level of fees charged under this subparagraph shall not exceed the administrative costs incurred in granting an exemption. Fees collected under this subparagraph shall be available to the Under Secretary of Commerce for Oceans and Atmosphere for expenses incurred in the granting and administration of exemptions under this section.

⁹ As in original, probably intended to be “or is in the possession of the master...”

(c) [COMPILATION OF INFORMATION BY VESSEL OWNERS; CONTENTS.] — The owner of each vessel holding an exemption granted under subsection (b) of this section shall regularly compile information which shall be used in a report to be submitted to the Secretary at the close of the fishing season or annually, as the Secretary may prescribe. Such report shall be submitted in such form as the Secretary may require and shall include the following:

(1) the type of fishery engaged in by the owner's vessel;

(2) the date and approximate time of any incidental taking of a marine mammal, together with the area in which the incidental taking occurred, the fishing gear used at the time of the incidental taking, and the species of fish involved; and

(3) for each incidental taking, the number and species of marine mammals involved, whether the marine mammals were deterred from gear or catch, incidentally injured, incidentally killed, or lethally removed to protect gear, catch, or human life.

If there was no incidental taking of marine mammals during the reporting period, a report stating that fact shall be filed with the Secretary.

(d) [PROGRAM FOR ENHANCEMENT AND VERIFICATION OF INFORMATION RECEIVED FROM VESSEL OWNERS; CONFIDENTIALITY OF INFORMATION.] —

(1) The Secretary shall establish a program to enhance the quality of and verify information received from reports submitted by owners of vessels who have been granted an exemption under subsection (b) of this section. The program shall include, but not be limited to—

(A) education efforts regarding the information that must be submitted;

(B) interviews with fishermen; and

(C) other such information gathering and verification activities that will enable the Secretary to determine reliably the nature, type, and extent of the incidental taking of marine mammals that occurs in a fishery.

Except to the extent authorized by the provisions of subsection (e), the program shall not include placement of observers aboard exempted vessels.

(2) Information obtained under this subsection shall be subject to the confidentiality provisions of subsection (j).

(e) [OBSERVERS ON BOARD EXEMPTED VESSELS; CONFIDENTIALITY OF INFORMATION; AUTHORIZATION OF APPROPRIATIONS.] —

(1) For each fishery identified under subsection (b)(1)(A)(i) of this section, the Secretary shall, after consultation with the appropriate Regional Fishery Management Councils, other Federal and State agencies, and other interested parties, and subject to paragraph (6), place observers on board exempted vessels so as to monitor not less than 20 percent nor more than 35 percent of the fishing operations by vessels in the fishery to obtain statistically reliable information on the species and number of marine mammals incidentally taken in the fishery. If the Secretary determines that fewer than 20 percent of the fishing operations by vessels in the fishery will be monitored during the course of the

fishing season, the Secretary shall implement the alternative observation program described in subsection (f) to the extent necessary to supplement the observer program described in this subsection.

(2) When determining the distribution of observers among fisheries and between vessels in a particular fishery, the Secretary shall be guided by the following standards:

(A) the requirement to obtain the best scientific information available;

(B) the requirement that assignment of observers is fair and equitable among fisheries and among vessels in a fishery;

(C) consistent with paragraph (1), the requirement that no individual person or vessel, or group of persons or vessels, be subject to excessive or overly burdensome observer coverage; and

(D) where practicable, the need to minimize costs and avoid duplication.

(3) If the Secretary finds that, for reasons beyond his or her control, the Secretary cannot assign observers to all the fisheries identified under subsection (b)(1)(A)(i) of this section at the level of observer coverage set forth in paragraph (1), the Secretary shall allocate available observers among such fisheries, consistent with paragraph (2), according to the following priority:

(A) those fisheries that incidentally take marine mammals from any population stock designated as depleted;

(B) those fisheries that incidentally take marine mammals from population stocks that the Secretary believes are declining;

(C) those fisheries other than those described in subparagraphs (A) and (B) in which the greatest incidental take of marine mammals occur; and

(D) any other fishery identified under subsection (b)(1)(A)(i).

The Secretary may, with the consent of the vessel owner, station an observer on board a vessel engaged in a fishery not identified under subsection (b)(1)(A)(i).

(4) Information gathered by observers shall be subject to the provisions of subsection (j). Consistent with the requirements of paragraph (1), the Secretary shall, if requested by the Appropriate Regional Fishery Management Council, or in the case of a State fishery, the State, require observers to collect additional information, including but not limited to the quantities, species, and physical condition of target and non-target fishery resources and, if requested by the Secretary of the Interior, seabirds.

(5) Notwithstanding the provisions of paragraph (4), the Secretary may decline to require observers to collect information described in such paragraph, if the Secretary finds in writing, following public notice and opportunity for comment, that such information will not contribute to the protection of marine mammals or the understanding of the marine ecosystem, including fishery resources and seabirds.

(6) The Secretary shall not be required to place an observer on a vessel in a fishery if the Secretary finds that—

(A) in a situation where harvesting vessels are delivering fish to a processing vessel and the catch is not taken on board the harvesting vessel, statistically reliable information can be obtained from an observer on board the processing vessel to which the fish are delivered;

(B) the facilities of a vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized; or

(C) for reasons beyond the control of the Secretary, an observer is not available.

(7)(A) An observer on a vessel (or the observer's personal representative) under the requirements of this section or section 104 that is ill, disabled, injured, or killed from service as an observer on that vessel may not bring a civil action under any law of the United States for that illness, disability, injury, or death against the vessel or vessel owner, except that a civil action may be brought against the vessel owner for the owner's willful misconduct.

(B) This paragraph does not apply if the observer is engaged by the owner, master, or individual in charge of a vessel to perform any duties in service to the vessel.

(8) There are authorized to be appropriated to the Department of Commerce for the purposes of carrying out this subsection not to exceed \$2,700,000 for fiscal year 1989 and not to exceed \$8,000,000 for each of the fiscal years 1990, 1991, 1992, and 1993.

(f) [ALTERNATIVE OBSERVATION PROGRAM.] —

(1) The Secretary shall establish an alternative observation program to provide statistically reliable information on the species and number of marine mammals incidentally taken in those fisheries identified pursuant to subsection (b)(1)(A)(i) of this section for which the required level of observer coverage has not been met or for any other fisheries about which such reliable information is not otherwise available. The alternative program shall include, but not be limited to, direct observation of fishing activities from vessels, airplanes, or points on shore.

(2) Individuals engaged in the alternative observation program shall collect scientific information on the fisheries subject to observation, consistent with the requirements of paragraph (1) and subsection (e) (4) and (5). All information collected shall be subject to the provisions of subsection (j).

(g) [REVIEW OF INFORMATION AND EVALUATION OF EFFECTS OF INCIDENTAL TAKING ON POPULATION STOCKS OF MARINE MAMMALS; PROMULGATION OF EMERGENCY REGULATIONS TO MITIGATE IMMEDIATE AND SEVERE IMPACTS; ACTION TO MITIGATE NON-IMMEDIATE IMPACTS.] —

(1) The Secretary shall review information regarding the incidental taking of marine mammals and evaluate the effects of such incidental taking on the affected population stocks of marine mammals.

(2) If the Secretary finds, based on the information received from the programs established under subsections (c), (d), (e), and (f), that the incidental taking of marine mammals in a fishery is having an immediate and significant adverse impact on a marine mammal population stock or, in the case of Steller sea lions and North Pacific fur seals, that more than 1,350 and 50, respectively, will be incidentally killed during a calendar year, the Secretary shall consult with appropriate Regional Fishery Management Councils and State fishery managers and prescribe emergency regulations to prevent to the maximum extent practicable any further taking. Any emergency regulations prescribed under this paragraph—

(A) shall, to the maximum extent practicable, avoid interfering with existing State or regional fishery management plans;

(B) shall be published in the Federal Register together with the reasons therefor;

(C) shall remain in effect for not more than one hundred and eighty days or until the end of the fishing season, whichever is earlier; and

(D) may be terminated by the Secretary at an earlier date by publication in the Federal Register of a notice of termination if the Secretary determines the reasons for the emergency regulations no longer exist.

In prescribing emergency regulations under this paragraph, the Secretary shall take into account the economics of the fishery concerned and the availability of existing technology to prevent or minimize incidental taking of marine mammals.

(3) If the Secretary finds, based on information received from the programs established under subsections (c), (d), (e), and (f), that incidental taking of marine mammals in a fishery is not having an immediate and significant adverse impact on a marine mammal population stock but that it will likely have a significant adverse impact over a period of time longer than one year, the Secretary shall request the appropriate Regional Fishery Management Council or State to initiate, recommend, or take such action within its authority as it considers necessary to mitigate the adverse impacts, including adjustments to requirements on fishing times or areas or the imposition of restrictions on the use of vessels or gear.

(4) The Secretary shall impose appropriate conditions and restrictions on an exemption granted under subsection (b) if—

(A) a Regional Fishery Management Council or State does not act in a reasonable period of time on a request made by the Secretary under paragraph (3); or

(B) if the Secretary determines after notice and opportunity for public comment that the purposes of this section would be better served by such action.

(h) [INFORMATION AND MANAGEMENT SYSTEM FOR PROCESSING AND ANALYZING REPORTS AND INFORMATION; ACCESSIBILITY TO PUBLIC.] — The Secretary shall design and implement an information management system capable of processing and analyzing reports received from the programs established under subsections (c), (d), (e), and (f), and other relevant sources, including Federal and State enforcement authorities, marine mammal stranding networks, and the marine mammal researchers. The information shall be made accessible to the public on a continuing basis, but in any case no later than six months after it is received, subject to the provisions of subsection (j).

(i) [UTILIZATION OF SERVICES OF STATE AND FEDERAL AGENCIES AND PRIVATE ENTITIES.] — When carrying out the Secretary's responsibilities under subsections (b), (d), (e), (f), and (h) of this section, the Secretary shall, to the maximum extent practicable, utilize the services and programs of State agencies, Federal agencies (including programs established by Regional Fishery Management Councils), marine fisheries commissions, universities, and private entities, on a reimbursable basis or otherwise. The Secretary is authorized to enter into contracts and agreements to carry out his or her responsibilities and shall establish appropriate guidelines to ensure that other programs used or contracted for will meet the same standards as a program established by the Secretary. A person contracting with the Secretary to provide observer services under subsection (e) of this section must provide evidence of financial responsibility in an amount and form prescribed by the Secretary to compensate employees (or their survivors) adequately for any illness, disability, injury, or death from service on a vessel.

(j) [CONFIDENTIALITY OF INFORMATION; EXCEPTIONS.] —

(1) Any information collected under subsection (c), (d), (e), (f), or (h) of this section shall be confidential and shall not be disclosed except—

(A) to Federal employees whose duties require access to such information;

(B) to State employees pursuant to an agreement with the Secretary that prevents public disclosure of the identity or business of any person;

(C) when required by court order; or

(D) in the case of scientific information involving fisheries, to employees of Regional Fishery Management Councils who are responsible for fishery management plan development and monitoring.

(2) The Secretary shall prescribe such procedures as may be necessary to preserve such confidentiality, except that the Secretary shall release or make public any such information in aggregate, summary, or other form which does not directly or indirectly disclose the identity or business of any person.

(k) [REGULATIONS.] — The Secretary, in consultation with any other Federal agency to the extent that such agency may be affected, shall prescribe such regulations as necessary and appropriate to carry out the purposes of this section.

D) [SUGGESTED REGIME GOVERNING INCIDENTAL TAKING OF MARINE MAMMALS FOLLOWING TERMINATION OF INTERIM EXEMPTIONS.] —

(1) The Chairman of the Marine Mammal Commission shall, after consultation with interested parties and not later than February 1, 1990, transmit to the Secretary and make available to the public recommended guidelines to govern the incidental taking of marine mammals in the course of commercial fishing operations, other than those subject to section 104(h)(2), after October 1, 1993. Such guidelines shall be developed by the Commission and its Committee of Scientific Advisers¹⁰ on Marine Mammals and shall—

¹⁰ As in original probably intended to be "Advisors," as used elsewhere in the Act.

(A) be designed to provide a scientific rationale and basis for determining how many marine mammals may be incidentally taken under a regime to be adopted to govern such taking after October 1, 1993;

(B) be based on sound principles of wildlife management, and be consistent with and in furtherance of the purposes and policies set forth in this Act; and

(C) to the maximum extent practicable, include as factors to be considered and utilized in determining permissible levels of such taking—

(i) the status and trends of the affected marine mammal population stocks;

(ii) the abundance and annual net recruitment of such stocks;

(iii) the level of confidence in the knowledge of the affected stocks; and

(iv) the extent to which incidental taking will likely cause or contribute to their decline or prevent their recovery to optimum sustainable population levels.

(2) The Secretary shall advise the Chairman of the Commission in writing if the Secretary determines that any additional information or explanation of the Chairman's recommendations is needed, and the Chairman shall respond in writing to any such request by the Secretary.

(3) On or before February 1, 1991, the Secretary, after consultation with the Marine Mammal Commission, Regional Fishery Management Councils, and other interested governmental and nongovernmental organizations, shall publish in the Federal Register, for public comment, the suggested regime that the Secretary considers should, if authorized by enactment of any additional legislation, govern incidental taking of marine mammals, other than those subject to section 104(h)(2), after October 1, 1993. The suggested regime shall include—

(A) the scientific guidelines to be used in determining permissible levels of incidental taking;

(B) a description of the arrangements for consultation and cooperation with other Federal agencies, the appropriate Regional Fishery Management Councils and States, the commercial fishing industry, and conservation organizations; and

(C) a summary of such regulations and legislation as would be necessary to implement the suggested regime.

(4) On or before January 1, 1992, the Secretary, after consultation with the Marine Mammal Commission, and consideration of public comment, shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives recommendations pertaining to the incidental taking of marine mammals, other than those subject to section 104(h)(2), after October 1, 1993. The recommendations shall include—

(A) the suggested regime developed under paragraph (3) of this subsection as modified after comment and consultations;

(B) a proposed schedule for implementing the suggested regime; and

(C) such recommendations for additional legislation as the Secretary considers necessary or desirable to implement the suggested regime.

(m) [CONSULTATION WITH SECRETARY OF THE INTERIOR.] — The Secretary shall consult with the Secretary of the Interior prior to taking actions or making determinations under this section that affect or relate to species or population stocks of marine mammals for which the Secretary of the Interior is responsible under this title.

(n) [OWNER OF FIXED COMMERCIAL FISHING GEAR DEEMED OWNER OF VESSEL ENGAGED IN FISHERY IN WHICH GEAR DEPLOYED.] — For the purposes of this section, the owner of fixed or other commercial fishing gear that is deployed with or without the use of a vessel shall be deemed to be an owner of a vessel engaged in the fishery in which that gear is deployed.

(o) [DEFINITIONS.] — As used in this section—

(1) the term “**fishery**” has the same meaning as it does in section 3(8) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802(8)).

(2) the term “**Secretary**” means the Secretary of Commerce.

(3) the term “**vessel engaged in a fishery**” means a fishing vessel as defined in section 2101(11a) of Title 46, United States Code, or a fish processing vessel as defined in section 2101(11b) of that title, which is engaged in fishery.¹¹

(4) the term “**vessel of the United States**” has the same meaning as it does in section 3(27) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802(27)).

Status Review; Conservation Plans

16 U.S.C. 1383b

Sec. 115. (a) [DETERMINATIONS BY RULE; NOTICE AND HEARING; FINDINGS; FINAL RULE ON STATUS OF SPECIES OR STOCK INVOLVED.] —

(1) In any action by the Secretary to determine if a species or stock should be designated as depleted, or should no longer be designated as depleted, regardless of whether such action is taken on the initiative of the Secretary or in response to a petition for a status review, the Secretary shall only make such a determination by issuance of a rule, after notice and opportunity for public comment and after a call for information in accordance with paragraph (2).

(2) The Secretary shall make any determination described in paragraph (1) solely on the basis of the best scientific information available. Prior to the issuance of a proposed rule concerning any such determination, the Secretary shall publish in the Federal Register a call to assist the Secretary in obtaining scientific information from individuals and organizations concerned with the conservation of marine mammals, from persons in industry which might be affected by the determination, and from academic institutions. In

¹¹ As in original, probably intended to be “which is engaged in a fishery.”

addition, the Secretary shall utilize, to the extent the Secretary determines to be feasible, informal working groups of interested parties and other methods to gather the necessary information.

(3)(A) If the Secretary receives a petition for a status review as described in paragraph (1), the Secretary shall publish a notice in the Federal Register that such a petition has been received and is available for public review.

(B) Within sixty days after receipt of the petition, the Secretary shall publish a finding in the Federal Register as to whether the petition presents substantial information indicating that the petitioned action may be warranted.

(C) If the Secretary makes a positive finding under subparagraph (B), the Secretary shall include in the Federal Register notice, a finding that—

(i) a review of the status of the species or stock will be commenced promptly;
or

(ii) a prompt review of the petition is precluded by other pending status determination petitions and that expeditious progress is being made to process pending status determination petitions under this title.

In no case after making a finding under this subparagraph shall the Secretary delay commencing a review of the status of a species or stock for more than one hundred and twenty days after receipt of the petition.

(D) No later than two hundred and ten days after the receipt of the petition, the Secretary shall publish in the Federal Register a proposed rule as to the status of the species or stock, along with the reasons underlying the proposed status determination. Persons shall have at least sixty days to submit comments on such a proposed rule.

(E) Not later than ninety days after the close of the comment period on a proposed rule issued under subparagraph (D), the Secretary shall issue a final rule on the status of the species or stock involved, along with the reasons for the status determination. If the Secretary finds with respect to such a proposed rule that there is substantial disagreement regarding the sufficiency or accuracy of the available information relevant to a status determination, the Secretary may delay the issuance of a final rule for a period of not more than six months for purposes of soliciting additional information.

(F) Notwithstanding subparagraphs (D) and (E) of this paragraph and section 553 of Title 5, United States Code, the Secretary may issue a final rule as to the status of a species or stock any time sixty or more days after a positive finding under subparagraph (B) if the Secretary determines there is substantial information available to warrant such final status determination and further delay would pose a significant risk to the well-being of any species or stock. Along with the final rule, the Secretary shall publish in the Federal Register detailed reasons for the expedited determination.

(b) [CONSERVATION PLANS; PREPARATION AND IMPLEMENTATION.] —

(1) The Secretary shall prepare conservation plans—

(A) by December 31, 1989, for North Pacific fur seals;

(B) by December 31, 1990, for Steller sea lions; and

(C) as soon as possible, for any species or stock designated as depleted under this title, except that a conservation plan need not be prepared if the Secretary determines that it will not promote the conservation of the species or stock.

(2) Each plan shall have the purpose of conserving and restoring the species or stock to its optimum sustainable population. The Secretary shall model such plans on recovery plans required under section 4(f) of the Endangered Species Act of 1973 (16 U.S.C. 1533(f)).

(3) The Secretary shall act expeditiously to implement each conservation plan prepared under paragraph (1). Each year, the Secretary shall specify in the annual report prepared under section 103(f) what measures have been taken to prepare and implement such plans.

(4) If the Secretary determines that a take reduction plan is necessary to reduce the incidental taking of marine mammals in the course of commercial fishing operations from a strategic stock, or for species or stocks which interact with a commercial fishery for which the Secretary has made a determination under section 118(f)(1), any conservation plan prepared under this subsection for such species or stock shall incorporate the take reduction plan required under section 118 for such species or stock.

Authorization of Appropriations

16 U.S.C. 1384

Sec. 116. (a) DEPARTMENT OF COMMERCE. —

(1) There are authorized to be appropriated to the Department of Commerce, for purposes of carrying out its functions and responsibilities under this title (other than sections 117 and 118) and title IV, \$12,138,000 for fiscal year 1994, \$12,623,000 for fiscal year 1995, \$13,128,000 for fiscal year 1996, \$13,653,000 for fiscal year 1997, \$14,200,000 for fiscal year 1998, and \$14,768,000 for fiscal year 1999.

(2) There are authorized to be appropriated to the Department of Commerce, for purposes of carrying out sections 117 and 118, \$20,000,000 for each of the fiscal years 1994 through 1999.

(b) DEPARTMENT OF THE INTERIOR. — There are authorized to be appropriated to the Department of the Interior, for purposes of carrying out its functions and responsibilities under this title, \$8,000,000 for fiscal year 1994, \$8,600,000 for fiscal year 1995, \$9,000,000 for fiscal year 1996, \$9,400,000 for fiscal year 1997, \$9,900,000 for fiscal year 1998, and \$10,296,000 for fiscal year 1999.

Dolphin Protection¹²

16 U.S.C. 1385

Sec. [] (a) SHORT TITLE. — This section may be cited as the “**Dolphin Protection Consumer Information Act**”.

(b) FINDINGS. — The Congress finds that—

(1) dolphins and other marine mammals are frequently killed in the course of tuna fishing operations in the eastern tropical Pacific Ocean and high seas driftnet fishing in other parts of the world;

(2) it is the policy of the United States to support a worldwide ban on high seas driftnet fishing, in part because of the harmful effects that such driftnets have on marine mammals, including dolphins; and

(3) consumers would like to know if the tuna they purchase is falsely labeled as to the effect of the harvesting of the tuna on dolphins.

(c) DEFINITIONS. — For the purposes of this section—

(1) the terms “**driftnet**” and “**driftnet fishing**” have the meanings given those terms in section 4003 of the Driftnet Impact Monitoring, Assessment, and Control Act of 1987 (16 U.S.C. 1822 note);

(2) the term “**eastern tropical Pacific Ocean**” means the area of the Pacific Ocean bounded by 40 degrees north latitude, 40 degrees south latitude, 160 degrees west longitude, and the western coastlines of North, Central, and South America;

(3) the term “**label**” means a display of written, printed, or graphic matter on or affixed to the immediate container of any article;

(4) the term “**Secretary**” means the Secretary of Commerce; and

(5) the term “**tuna product**” means a food item which contains tuna and which has been processed for retail sale, except perishable sandwiches, salads, or other products with a shelf life less than 3 days.

(d) LABELING STANDARD. —

(1) It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) for any producer, importer, exporter, distributor, or seller of any tuna product that is exported from or offered for sale in the United States to include on the label of that product the term “dolphin safe” or any other term or symbol that falsely claims or suggests that the tuna contained in the product were harvested using a method of fishing that is not harmful to dolphins if the product contains tuna harvested —

(A) on the high seas by a vessel engaged in driftnet fishing;

¹² The Dolphin Protection Consumer Information Act, enacted as section 901 of Pub. L. 101-627, technically is not part of the Marine Mammal Protection Act. It, however, has been codified at 16 U.S.C. 1385, as though it were.

(B) outside the eastern tropical Pacific Ocean by a vessel using purse seine nets —

(i) in a fishery in which the Secretary has determined that a regular and significant association occurs between dolphins and tuna (similar to the association between dolphins and tuna in the eastern tropical Pacific Ocean), unless such product is accompanied by a written statement, executed by the captain of the vessel and an observer participating in a national or international program acceptable to the Secretary, certifying that no purse seine net was intentionally deployed on or used to encircle dolphins during the particular voyage on which the tuna were caught and no dolphins were killed or seriously injured in the sets in which the tuna were caught; or

(ii) in any other fishery (other than a fishery described in subparagraph (D)) unless the product is accompanied by a written statement executed by the captain of the vessel certifying that no purse seine net was intentionally deployed on or used to encircle dolphins during the particular voyage on which the tuna was harvested;

(C) in the eastern tropical Pacific Ocean by a vessel using a purse seine net unless the tuna meet the requirements for being considered dolphin safe under paragraph (2); or

(D) by a vessel in a fishery other than one described in subparagraph (A), (B), or (C) that is identified by the Secretary as having a regular and significant mortality or serious injury of dolphins, unless such product is accompanied by a written statement executed by the captain of the vessel and an observer participating in a national or international program acceptable to the Secretary that no dolphins were killed or seriously injured in the sets or other gear deployments in which the tuna were caught, provided that the Secretary determines that such an observer statement is necessary.

(2) For purposes of paragraph (1)(C), a tuna product that contains tuna harvested in the eastern tropical Pacific Ocean by a vessel using purse seine nets is dolphin safe if —

(A) the vessel is of a type and size that the Secretary has determined, consistent with the International Dolphin Conservation Program, is not capable of deploying its purse seine nets on or to encircle dolphins; or

(B)(i) the product is accompanied by a written statement executed by the captain providing the certification required under subsection (h);

(ii) the product is accompanied by a written statement executed by--

(I) the Secretary or the Secretary's designee;

(II) a representative of the Inter-American Tropical Tuna Commission; or

(III) an authorized representative of a participating nation whose national program meets the requirements of the International Dolphin Conservation Program,

which states that there was an observer approved by the International Dolphin Conservation Program on board the vessel during the entire trip and that such observer provided the certification required under subsection (h); and

(iii) the statements referred to in clauses (i) and (ii) are endorsed in writing by each exporter, importer, and processor of the product; and

(C) the written statements and endorsements referred to in subparagraph (B) comply with regulations promulgated by the Secretary which provide for the verification of tuna products as dolphin safe.

(3)(A) The Secretary of Commerce shall develop an official mark that may be used to label tuna products as dolphin safe in accordance with this Act.

(B) A tuna product that bears the dolphin safe mark developed under subparagraph (A) shall not bear any other label or mark that refers to dolphins, porpoises, or marine mammals.

(C) It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to label a tuna product with any label or mark that refers to dolphins, porpoises, or marine mammals other than the mark developed under subparagraph (A) unless--

(i) no dolphins were killed or seriously injured in the sets or other gear deployments in which the tuna were caught;

(ii) the label is supported by a tracking and verification program which is comparable in effectiveness to the program established under subsection (f); and

(iii) the label complies with all applicable labeling, marketing, and advertising laws and regulations of the Federal Trade Commission, including any guidelines for environmental labeling.

(D) If the Secretary determines that the use of a label referred to in subparagraph (C) is substantially undermining the conservation goals of the International Dolphin Conservation Program, the Secretary shall report that determination to the United States Senate Committee on Commerce, Science, and Transportation and the United States House of Representatives Committees on Resources and on Commerce, along with recommendations to correct such problems.

(E) It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) willingly and knowingly to use a label referred to in subparagraph (C) in a campaign or effort to mislead or deceive consumers about the level of protection afforded dolphins under the International Dolphin Conservation Program.

(e) ENFORCEMENT. — Any person who knowingly and willfully makes a statement or endorsement described in subsection (d)(2)(B) that is false is liable for a civil penalty of not to exceed \$100,000 assessed in an action brought in any appropriate district court of the United States on behalf of the Secretary.

(f) REGULATIONS. — The Secretary, in consultation with the Secretary of the Treasury, shall issue regulations to implement this Act, including regulations to establish a domestic tracking and verification program that provides for the effective tracking of tuna labeled under subsection (d). In the development of these regulations, the Secretary shall establish appropriate procedures for ensuring the confidentiality of proprietary information the submission of which is voluntary or mandatory. The regulations shall address each of the following items:

- (1) The use of weight calculation for purposes of tracking tuna caught, landed, processed, and exported.
- (2) Additional measures to enhance current observer coverage, including the establishment of criteria for training, and for improving monitoring and reporting capabilities and procedures.
- (3) The designation of well location, procedures for sealing holds, procedures for monitoring and certifying both above and below deck, or through equally effective methods, the tracking and verification of tuna labeled under subsection (d).
- (4) The reporting, receipt, and database storage of radio and facsimile transmittals from fishing vessels containing information related to the tracking and verification of tuna, and the definition of set.
- (5) The shore-based verification and tracking throughout the fishing, transshipment, and canning process by means of Inter-American Tropical Tuna Commission trip records or otherwise.
- (6) The use of periodic audits and spot checks for caught, landed, and processed tuna products labeled in accordance with subsection (d).
- (7) The provision of timely access to data required under this subsection by the Secretary from harvesting nations to undertake the actions required in paragraph (6) of this paragraph.

The Secretary may make such adjustments as may be appropriate to the regulations promulgated under this subsection to implement an international tracking and verification program that meets or exceeds the minimum requirements established by the Secretary under this subsection.

(g) SECRETARIAL FINDINGS.—

- (1) Between March 1, 1999, and March 31, 1999, the Secretary shall, on the basis of the research conducted before March 1, 1999, under section 304(a) of the Marine Mammal Protection Act of 1972, information obtained under the International Dolphin Conservation Program, and any other relevant information, make an initial finding regarding whether the intentional deployment on or encirclement of dolphins with purse seine nets is having a significant adverse impact on any depleted dolphin stock in the eastern tropical Pacific Ocean. The initial finding shall be published immediately in the Federal Register and shall become effective upon a subsequent date determined by the Secretary.
- (2) Between July 1, 2001, and December 31, 2002, the Secretary shall, on the basis of the completed study conducted under section 304(a) of the Marine Mammal Protection Act of 1972, information obtained under the International Dolphin Conservation Program, and any other relevant information, make a finding regarding whether the intentional deployment on or encirclement of dolphins with purse seine nets is having a significant adverse impact on any depleted dolphin stock in the eastern tropical Pacific Ocean. The finding shall be published immediately in the Federal Register and shall become effective upon a subsequent date determined by the Secretary.

(h) CERTIFICATION BY CAPTAIN BY OBSERVER.—

(1) Unless otherwise required by paragraph (2), the certification by the captain under subsection (d)(2)(B)(i) and the certification provided by the observer as specified in subsection (d)(2)(B)(ii) shall be that no dolphins were killed or seriously injured during the sets in which the tuna were caught.

(2) The certification by the captain under subsection (d)(2)(B)(i) and the certification provided by the observer as specified under subsection (d)(2)(B)(ii) shall be that no tuna were caught on the trip in which such tuna were harvested using a purse seine net intentionally deployed on or to encircle dolphins, and that no dolphins were killed or seriously injured during the sets in which the tuna were caught, if the tuna were caught on a trip commencing--

(A) before the effective date of the initial finding by the Secretary under subsection (g)(1);

(B) after the effective date of such initial finding and before the effective date of the finding of the Secretary under subsection (g)(2), where the initial finding is that the intentional deployment on or encirclement of dolphins is having a significant adverse impact on any depleted dolphin stock; or

(C) after the effective date of the finding under subsection (g)(2), where such finding is that the intentional deployment of or encirclement of dolphins is having a significant adverse impact on any such depleted stock.

Stock Assessments

16 U.S.C. 1386

Sec. 117. (a) IN GENERAL. — Not later than August 1, 1994, the Secretary shall, in consultation with the appropriate regional scientific review group established under subsection (d), prepare a draft stock assessment for each marine mammal stock which occurs in waters under the jurisdiction of the United States. Each draft stock assessment, based on the best scientific information available, shall—

(1) describe the geographic range of the affected stock, including any seasonal or temporal variation in such range;

(2) provide for such stock the minimum population estimate, current and maximum net productivity rates, and current population trend, including a description of the information upon which these are based;

(3) estimate the annual human-caused mortality and serious injury of the stock by source and, for a strategic stock, other factors that may be causing a decline or impeding recovery of the stock, including effects on marine mammal habitat and prey;

(4) describe commercial fisheries that interact with the stock, including—

(A) the approximate number of vessels actively participating in each such fishery;

(B) the estimated level of incidental mortality and serious injury of the stock by each such fishery on an annual basis;

(C) seasonal or area differences in such incidental mortality or serious injury; and

(D) the rate, based on the appropriate standard unit of fishing effort, of such incidental mortality and serious injury, and an analysis stating whether such level is insignificant and is approaching a zero mortality and serious injury rate;

(5) categorize the status of the stock as one that either—

(A) has a level of human-caused mortality and serious injury that is not likely to cause the stock to be reduced below its optimum sustainable population; or

(B) is a strategic stock, with a description of the reasons therefor; and

(6) estimate the potential biological removal level for the stock, describing the information used to calculate it, including the recovery factor.

(b) PUBLIC COMMENT. —

(1) The Secretary shall publish in the Federal Register a notice of the availability of a draft stock assessment or any revision thereof and provide an opportunity for public review and comment during a period of 90 days. Such notice shall include a summary of the assessment and a list of the sources of information or published reports upon which the assessment is based.

(2) Subsequent to the notice of availability required under paragraph (1), if requested by a person to which section 101(b) applies, the Secretary shall conduct a proceeding on the record prior to publishing a final stock assessment or any revision thereof for any stock subject to taking under section 101(b).

(3) After consideration of the best scientific information available, the advice of the appropriate regional scientific review group established under subsection (d), and the comments of the general public, the Secretary shall publish in the Federal Register a notice of availability and a summary of the final stock assessment or any revision thereof, not later than 90 days after—

(A) the close of the public comment period on a draft stock assessment or revision thereof; or

(B) final action on an agency proceeding pursuant to paragraph (2).

(c) REVIEW AND REVISION. —

(1) The Secretary shall review stock assessments in accordance with this subsection—

(A) at least annually for stocks which are specified as strategic stocks;

(B) at least annually for stocks for which significant new information is available; and

(C) at least once every 3 years for all other stocks.

(2) If the review under paragraph (1) indicates that the status of the stock has changed or can be more accurately determined, the Secretary shall revise the stock assessment in accordance with subsection (b).

(d) REGIONAL SCIENTIFIC REVIEW GROUPS. —

(1) Not later than 60 days after the date of enactment of this section [June 29, 1994], the Secretary of Commerce shall, in consultation with the Secretary of the Interior (with respect to marine mammals under that Secretary's jurisdiction), the Marine Mammal Commission, the Governors of affected adjacent coastal States, regional fishery and wildlife management authorities, Alaska Native organizations and Indian tribes, and environmental and fishery groups, establish three independent regional scientific review groups representing Alaska, the Pacific Coast (including Hawaii), and the Atlantic Coast (including the Gulf of Mexico), consisting of individuals with expertise in marine mammal biology and ecology, population dynamics and modeling, commercial fishing technology and practices, and stocks taken under section 101(b). The Secretary of Commerce shall, to the maximum extent practicable, attempt to achieve a balanced representation of viewpoints among the individuals on each regional scientific review group. The regional scientific review groups shall advise the Secretary on—

(A) population estimates and the population status and trends of such stocks;

(B) uncertainties and research needed regarding stock separation, abundance, or trends, and factors affecting the distribution, size, or productivity of the stock;

(C) uncertainties and research needed regarding the species, number, ages, gender, and reproductive status of marine mammals;

(D) research needed to identify modifications in fishing gear and practices likely to reduce the incidental mortality and serious injury of marine mammals in commercial fishing operations;

(E) the actual, expected, or potential impacts of habitat destruction, including marine pollution and natural environmental change, on specific marine mammal species or stocks, and for strategic stocks, appropriate conservation or management measures to alleviate any such impacts; and

(F) any other issue which the Secretary or the groups consider appropriate.

(2) The scientific review groups established under this subsection shall not be subject to the Federal Advisory Committee Act (5 App. U.S.C.).

(3) Members of the scientific review groups shall serve without compensation, but may be reimbursed by the Secretary, upon request, for reasonable travel costs and expenses incurred in performing their obligations.

(4) The Secretary may appoint or reappoint individuals to the regional scientific review groups under paragraph (1) as needed.

(e) EFFECT ON SECTION 101(b). — This section shall not affect or otherwise modify the provisions of section 101(b).

Taking of Marine Mammals Incidental to Commercial Fishing Operations

16 U.S.C. 1387

Sec. 118. (a) IN GENERAL. —

(1) Effective on the date of enactment of this section [April 30, 1994], and except as provided in section 114 and in paragraphs (2), (3), and (4) of this subsection, the provisions of this section shall govern the incidental taking of marine mammals in the course of commercial fishing operations by persons using vessels of the United States or vessels which have valid fishing permits issued by the Secretary in accordance with section 204(b) of the Magnuson-Stevens Fishery Conservation and Management Act. In any event it shall be the immediate goal that the incidental mortality or serious injury of marine mammals occurring in the course of commercial fishing operations be reduced to insignificant levels approaching a zero mortality and serious injury rate within 7 years after the date of enactment of this section [April 30, 2001].

(2) In the case of the incidental taking of marine mammals from species or stocks designated under this Act as depleted on the basis of their listing as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), both this section and section 101(a)(5)(E) of this Act shall apply.

(3) Sections 104(h) and title III, and not this section, shall govern the taking of marine mammals in the course of commercial purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean.

(4) This section shall not govern the incidental taking of California sea otters and shall not be deemed to amend or repeal the Act of November 7, 1986 (Public Law 99-625; 100 Stat. 3500).

(5) Except as provided in section 101(c), the intentional lethal take of any marine mammal in the course of commercial fishing operations is prohibited.

(6) Sections 103 and 104 shall not apply to the incidental taking of marine mammals under the authority of this section.

(b) ZERO MORTALITY RATE GOAL. —

(1) Commercial fisheries shall reduce incidental mortality and serious injury of marine mammals to insignificant levels approaching a zero mortality and serious injury rate within 7 years after the date of enactment of this section [April 30, 2001].

(2) Fisheries which maintain insignificant serious injury and mortality levels approaching a zero rate shall not be required to further reduce their mortality and serious injury rates.

(3) Three years after such date of enactment [April 30, 1997], the Secretary shall review the progress of all commercial fisheries, by fishery, toward reducing incidental mortality and serious injury to insignificant levels approaching a zero rate. The Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a report setting forth the results of such review within 1 year after commencement of the review.

The Secretary shall note any commercial fishery for which additional information is required to accurately assess the level of incidental mortality and serious injury of marine mammals in the fishery.

(4) If the Secretary determines after review under paragraph (3) that the rate of incidental mortality and serious injury of marine mammals in a commercial fishery is not consistent with paragraph (1), then the Secretary shall take appropriate action under subsection (f).

(c) REGISTRATION AND AUTHORIZATION. —

(1) The Secretary shall, within 90 days after the date of enactment of this section [July 29, 1994]—

(A) publish in the Federal Register for public comment, for a period of not less than 90 days, any necessary changes to the Secretary's list of commercial fisheries published under section 114(b)(1) and which is in existence on March 31, 1994 (along with an explanation of such changes and a statement describing the marine mammal stocks interacting with, and the approximate number of vessels or persons actively involved in, each such fishery), with respect to commercial fisheries that have—

(i) frequent incidental mortality and serious injury of marine mammals;

(ii) occasional incidental mortality and serious injury of marine mammals; or

(iii) a remote likelihood of or no known incidental mortality or serious injury of marine mammals;

(B) after the close of the period for such public comment, publish in the Federal Register a revised list of commercial fisheries and an update of information required by subparagraph (A), together with a summary of the provisions of this section and information sufficient to advise vessel owners on how to obtain an authorization and otherwise comply with the requirements of this section; and

(C) at least once each year thereafter, and at such other times as the Secretary considers appropriate, reexamine, based on information gathered under this Act and other relevant sources and after notice and opportunity for public comment, the classification of commercial fisheries and other determinations required under subparagraph (A) and publish in the Federal Register any necessary changes.

(2)(A) An authorization shall be granted by the Secretary in accordance with this section for a vessel engaged in a commercial fishery listed under paragraph (1)(A) (i) or (ii), upon receipt by the Secretary of a completed registration form providing the name of the vessel owner and operator, the name and description of the vessel, the fisheries in which it will be engaged, the approximate time, duration, and location of such fishery operations, and the general type and nature of use of the fishing gear and techniques used. Such information shall be in a readily usable format that can be efficiently entered into and utilized by an automated or computerized data processing system. A decal or other physical evidence that the authorization is current and valid shall be issued by the Secretary at the time an authorization is granted, and so long as the authorization remains current and valid, shall be reissued annually thereafter.

(B) No authorization may be granted under this section to the owner of a vessel unless such vessel—

(i) is a vessel of the United States; or

(ii) has a valid fishing permit issued by the Secretary in accordance with section 204(b) of the Magnuson-Stevens Fishery Conservation and Management Act.

(C) Except as provided in subsection (a), an authorization granted under this section shall allow the incidental taking of all species and stocks of marine mammals to which this Act applies.

(3)(A) An owner of a vessel engaged in any fishery listed under paragraph (1)(A) (i) or (ii) shall, in order to engage in the lawful incidental taking of marine mammals in a commercial fishery—

(i) have registered as required under paragraph (2) with the Secretary in order to obtain for each such vessel owned and used in the fishery an authorization for the purpose of incidentally taking marine mammals in accordance with this section, except that owners of vessels holding valid certificates of exemption under section 114 are deemed to have registered for purposes of this subsection for the period during which such exemption is valid;

(ii) ensure that a decal or such other physical evidence of a current and valid authorization as the Secretary may require is displayed on or is in the possession of the master of each such vessel;

(iii) report as required by subsection (e); and

(iv) comply with any applicable take reduction plan and emergency regulations issued under this section.

(B) Any owner of a vessel receiving an authorization under this section for any fishery listed under paragraph (1)(A) (i) or (ii) shall, as a condition of that authorization, take on board an observer if requested to do so by the Secretary.

(C) An owner of a vessel engaged in a fishery listed under paragraph (1)(A) (i) or (ii) who—

(i) fails to obtain from the Secretary an authorization for such vessel under this section;

(ii) fails to maintain a current and valid authorization for such vessel; or

(iii) fails to ensure that a decal or other physical evidence of such authorization issued by the Secretary is displayed on or is in possession of the master of the vessel,

and the master of any such vessel engaged in such fishery, shall be deemed to have violated this title, and for violations of clauses (i) and (ii) shall be subject to the penalties of this Act, and for violations of clause (iii) shall be subject to a fine of not more than \$100 for each offense.

(D) If the owner of a vessel has obtained and maintains a current and valid authorization from the Secretary under this section and meets the requirements set forth in this section, including compliance with any regulations to implement a take reduction plan under this section, the owner of such vessel, and the master and crew members of the vessel, shall not be subject to the penalties set forth in this title for the incidental taking of marine mammals while such vessel is engaged in a fishery to which the authorization applies.

(E) Each owner of a vessel engaged in any fishery not listed under paragraph (1)(A) (i) or (ii), and the master and crew members of such a vessel, shall not be subject to the penalties set forth in this title for the incidental taking of marine mammals if such owner reports to the Secretary, in the form and manner required under subsection (e), instances of incidental mortality or injury of marine mammals in the course of that fishery.

(4)(A) The Secretary shall suspend or revoke an authorization granted under this section and shall not issue a decal or other physical evidence of the authorization for any vessel until the owner of such vessel complies with the reporting requirements under subsection (e) and such requirements to take on board an observer under paragraph (3)(B) as are applicable to such vessel. Previous failure to comply with the requirements of section 114 shall not bar authorization under this section for an owner who complies with the requirements of this section.

(B) The Secretary may suspend or revoke an authorization granted under this subsection, and may not issue a decal or other physical evidence of the authorization for any vessel which fails to comply with a take reduction plan or emergency regulations issued under this section.

(C) The owner and master of a vessel which fails to comply with a take reduction plan shall be subject to the penalties of sections 105 and 107, and may be subject to section 106.

(5)(A) The Secretary shall develop, in consultation with the appropriate States, affected Regional Fishery Management Councils, and other interested persons, the means by which the granting and administration of authorizations under this section shall be integrated and coordinated, to the maximum extent practicable, with existing fishery licenses, registrations, and related programs.

(B) The Secretary shall utilize newspapers of general circulation, fishery trade associations, electronic media, and other means of advising commercial fishermen of the provisions of this section and the means by which they can comply with its requirements.

(C) The Secretary is authorized to charge a fee for the granting of an authorization under this section. The level of fees charged under this subparagraph shall not exceed the administrative costs incurred in granting an authorization. Fees collected under this subparagraph shall be available to the Under Secretary of Commerce for Oceans and Atmosphere for expenses incurred in the granting and administration of authorizations under this section.

(d) MONITORING OF INCIDENTAL TAKES. —

(1) The Secretary shall establish a program to monitor incidental mortality and serious injury of marine mammals during the course of commercial fishing operations. The purposes of the monitoring program shall be to—

- (A) obtain statistically reliable estimates of incidental mortality and serious injury;
- (B) determine the reliability of reports of incidental mortality and serious injury under subsection (e); and
- (C) identify changes in fishing methods or technology that may increase or decrease incidental mortality and serious injury.

(2) Pursuant to paragraph (1), the Secretary may place observers on board vessels as necessary, subject to the provisions of this section. Observers may, among other tasks—

- (A) record incidental mortality and injury, or by catch of other nontarget species;
- (B) record numbers of marine mammals sighted; and
- (C) perform other scientific investigations.

(3) In determining the distribution of observers among commercial fisheries and vessels within a fishery, the Secretary shall be guided by the following standards:

- (A) The requirement to obtain statistically reliable information.
- (B) The requirement that assignment of observers is fair and equitable among fisheries and among vessels in a fishery.
- (C) The requirement that no individual person or vessel, or group of persons or vessels, be subject to excessive or overly burdensome observer coverage.
- (D) To the extent practicable, the need to minimize costs and avoid duplication.

(4) To the extent practicable, the Secretary shall allocate observers among commercial fisheries in accordance with the following priority:

- (A) The highest priority for allocation shall be for commercial fisheries that have incidental mortality or serious injury of marine mammals from stocks listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).
- (B) The second highest priority for allocation shall be for commercial fisheries that have incidental mortality and serious injury of marine mammals from strategic stocks.
- (C) The third highest priority for allocation shall be for commercial fisheries that have incidental mortality or serious injury of marine mammals from stocks for which the level of incidental mortality and serious injury is uncertain.

(5) The Secretary may establish an alternative observer program to provide statistically reliable information on the species and number of marine mammals incidentally taken in

the course of commercial fishing operations. The alternative observer program may include direct observation of fishing activities from vessels, airplanes, or points on shore.

(6) The Secretary is not required to place an observer on a vessel in a fishery if the Secretary finds that—

(A) in a situation in which harvesting vessels are delivering fish to a processing vessel and the catch is not taken on board the harvesting vessel, statistically reliable information can be obtained from an observer on board the processing vessel to which the fish are delivered;

(B) the facilities on a vessel for quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized; or

(C) for reasons beyond the control of the Secretary, an observer is not available.

(7) The Secretary may, with the consent of the vessel owner, station an observer on board a vessel engaged in a fishery not listed under subsection (c)(1)(A) (i) or (ii).

(8) Any proprietary information collected under this subsection shall be confidential and shall not be disclosed except—

(A) to Federal employees whose duties require access to such information;

(B) to State or tribal employees pursuant to an agreement with the Secretary that prevents public disclosure of the identity or business of any person;

(C) when required by court order; or

(D) in the case of scientific information involving fisheries, to employees of Regional Fishery Management Councils who are responsible for fishery management plan development and monitoring.

(9) The Secretary shall prescribe such procedures as may be necessary to preserve such confidentiality, except that the Secretary shall release or make public upon request any such information in aggregate, summary, or other form which does not directly or indirectly disclose the identity or business of any person.

(e) REPORTING REQUIREMENT. — The owner or operator of a commercial fishing vessel subject to this Act shall report all incidental mortality and injury of marine mammals in the course of commercial fishing operations to the Secretary by mail or other means acceptable to the Secretary within 48 hours after the end of each fishing trip on a standard postage-paid form to be developed by the Secretary under this section. Such form shall be capable of being readily entered into and usable by an automated or computerized data processing system and shall require the vessel owner or operator to provide the following:

(1) The vessel name, and Federal, State, or tribal registration numbers of the registered vessel.

(2) The name and address of the vessel owner or operator.

(3) The name and description of the fishery.

(4) The species of each marine mammal incidentally killed or injured, and the date, time, and approximate geographic location of such occurrence.

(f) TAKE REDUCTION PLANS. —

(1) The Secretary shall develop and implement a take reduction plan designed to assist in the recovery or prevent the depletion of each strategic stock which interacts with a commercial fishery listed under subsection (c)(1)(A) (i) or (ii), and may develop and implement such a plan for any other marine mammal stocks which interact with a commercial fishery listed under subsection (c)(1)(A)(i) which the Secretary determines, after notice and opportunity for public comment, has a high level of mortality and serious injury across a number of such marine mammal stocks.

(2) The immediate goal of a take reduction plan for a strategic stock shall be to reduce, within 6 months of its implementation, the incidental mortality or serious injury of marine mammals incidentally taken in the course of commercial fishing operations to levels less than the potential biological removal level established for that stock under section 117. The long-term goal of the plan shall be to reduce, within 5 years of its implementation, the incidental mortality or serious injury of marine mammals incidentally taken in the course of commercial fishing operations to insignificant levels approaching a zero mortality and serious injury rate, taking into account the economics of the fishery, the availability of existing technology, and existing State or regional fishery management plans.

(3) If there is insufficient funding available to develop and implement a take reduction plan for all such stocks that interact with commercial fisheries listed under subsection (c)(1)(A) (i) or (ii), the Secretary shall give highest priority to the development and implementation of take reduction plans for species or stocks whose level of incidental mortality and serious injury exceeds the potential biological removal level, those that have a small population size, and those which are declining most rapidly.

(4) Each take reduction plan shall include—

(A) a review of the information in the final stock assessment published under section 117(b) and any substantial new information;

(B) an estimate of the total number and, if possible, age and gender, of animals from the stock that are being incidentally lethally taken or seriously injured each year during the course of commercial fishing operations, by fishery;

(C) recommended regulatory or voluntary measures for the reduction of incidental mortality and serious injury;

(D) recommended dates for achieving the specific objectives of the plan.

(5)(A) For any stock in which incidental mortality and serious injury from commercial fisheries exceeds the potential biological removal level established under section 117, the plan shall include measures the Secretary expects will reduce, within 6 months of the plan's implementation, such mortality and serious injury to a level below the potential biological removal level.

(B) For any stock in which human-caused mortality and serious injury exceeds the potential biological removal level, other than a stock to which subparagraph (A)

applies, the plan shall include measures the Secretary expects will reduce, to the maximum extent practicable within 6 months of the plan's implementation, the incidental mortality and serious injury by such commercial fisheries from that stock. For purposes of this subparagraph, the term "maximum extent practicable" means to the lowest level that is feasible for such fisheries within the 6-month period.

(6)(A) At the earliest possible time (not later than 30 days) after the Secretary issues a final stock assessment under section 117(b) for a strategic stock, the Secretary shall, and for stocks that interact with a fishery listed under subsection (c)(1)(A)(i) for which the Secretary has made a determination under paragraph (1), the Secretary may—

(i) establish a take reduction team for such stock and appoint the members of such team in accordance with subparagraph (C); and

(ii) publish in the Federal Register a notice of the team's establishment, the names of the team's appointed members, the full geographic range of such stock, and a list of all commercial fisheries that cause incidental mortality and serious injury of marine mammals from such stock.

(B) The Secretary may request a take reduction team to address a stock that extends over one or more regions or fisheries, or multiple stocks within a region or fishery, if the Secretary determines that doing so would facilitate the development and implementation of plans required under this subsection.

(C) Members of take reduction teams shall have expertise regarding the conservation or biology of the marine mammal species which the take reduction plan will address, or the fishing practices which result in the incidental mortality and serious injury of such species. Members shall include representatives of Federal agencies, each coastal State which has fisheries which interact with the species or stock, appropriate Regional Fishery Management Councils, interstate fisheries commissions, academic and scientific organizations, environmental groups, all commercial and recreational fisheries groups and gear types which incidentally take the species or stock, Alaska Native organizations or Indian tribal organizations, and others as the Secretary deems appropriate. Take reduction teams shall, to the maximum extent practicable, consist of an equitable balance among representatives of resource user interests and nonuser interests.

(D) Take reduction teams shall not be subject to the Federal Advisory Committee Act (5 App. U.S.C.). Meetings of take reduction teams shall be open to the public, and prior notice of meetings shall be made public in a timely fashion.

(E) Members of take reduction teams shall serve without compensation, but may be reimbursed by the Secretary, upon request, for reasonable travel costs and expenses incurred in performing their duties as members of the team.

(7) Where the human-caused mortality and serious injury from a strategic stock is estimated to be equal to or greater than the potential biological removal level established under section 117 for such stock and such stock interacts with a fishery listed under subsection (c)(1)(A) (i) or (ii), the following procedures shall apply in the development of the take reduction plan for the stock:

(A)(i) Not later than 6 months after the date of establishment of a take reduction team for the stock, the team shall submit a draft take reduction plan for such stock to the Secretary, consistent with the other provisions of this section.

(ii) Such draft take reduction plan shall be developed by consensus. In the event consensus cannot be reached, the team shall advise the Secretary in writing on the range of possibilities considered by the team, and the views of both the majority and minority.

(B)(i) The Secretary shall take the draft take reduction plan into consideration and, not later than 60 days after the submission of the draft plan by the team, the Secretary shall publish in the Federal Register the plan proposed by the team, any changes proposed by the Secretary with an explanation of the reasons therefor, and proposed regulations to implement such plan, for public review and comment during a period of not to exceed 90 days.

(ii) In the event that the take reduction team does not submit a draft plan to the Secretary within 6 months, the Secretary shall, not later than 8 months after the establishment of the team, publish in the Federal Register a proposed take reduction plan and implementing regulations, for public review and comment during a period of not to exceed 90 days.

(C) Not later than 60 days after the close of the comment period required under subparagraph (B), the Secretary shall issue a final take reduction plan and implementing regulations, consistent with the other provisions of this section.

(D) The Secretary shall, during a period of 30 days after publication of a final take reduction plan, utilize newspapers of general circulation, fishery trade associations, electronic media, and other means of advising commercial fishermen of the requirements of the plan and how to comply with them.

(E) The Secretary and the take reduction team shall meet every 6 months, or at such other intervals as the Secretary determines are necessary, to monitor the implementation of the final take reduction plan until such time that the Secretary determines that the objectives of such plan have been met.

(F) The Secretary shall amend the take reduction plan and implementing regulations as necessary to meet the requirements of this section, in accordance with the procedures in this section for the issuance of such plans and regulations.

(8) Where the human-caused mortality and serious injury from a strategic stock is estimated to be less than the potential biological removal level established under section 117 for such stock and such stock interacts with a fishery listed under subsection (c)(1)(A)(i) or (ii), or for any marine mammal stocks which interact with a commercial fishery listed under subsection (c)(1)(A)(i) for which the Secretary has made a determination under paragraph (1), the following procedures shall apply in the development of the take reduction plan for such stock:

(A)(i) Not later than 11 months after the date of establishment of a take reduction team for the stock, the team shall submit a draft take reduction plan for the stock to the Secretary, consistent with the other provisions of this section.

(ii) Such draft take reduction plan shall be developed by consensus. In the event consensus cannot be reached, the team shall advise the Secretary in writing on the range of possibilities considered by the team, and the views of both the majority and minority.

(B)(i) The Secretary shall take the draft take reduction plan into consideration and, not later than 60 days after the submission of the draft plan by the team, the Secretary shall publish in the Federal Register the plan proposed by the team, any changes proposed by the Secretary with an explanation of the reasons therefor, and proposed regulations to implement such plan, for public review and comment during a period of not to exceed 90 days.

(ii) In the event that the take reduction team does not submit a draft plan to the Secretary within 11 months, the Secretary shall, not later than 13 months after the establishment of the team, publish in the Federal Register a proposed take reduction plan and implementing regulations, for public review and comment during a period of not to exceed 90 days.

(C) Not later than 60 days after the close of the comment period required under subparagraph (B), the Secretary shall issue a final take reduction plan and implementing regulations, consistent with the other provisions of this section.

(D) The Secretary shall, during a period of 30 days after publication of a final take reduction plan, utilize newspapers of general circulation, fishery trade associations, electronic media, and other means of advising commercial fishermen of the requirements of the plan and how to comply with them.

(E) The Secretary and the take reduction team shall meet on an annual basis, or at such other intervals as the Secretary determines are necessary, to monitor the implementation of the final take reduction plan until such time that the Secretary determines that the objectives of such plan have been met.

(F) The Secretary shall amend the take reduction plan and implementing regulations as necessary to meet the requirements of this section, in accordance with the procedures in this section for the issuance of such plans and regulations.

(9) In implementing a take reduction plan developed pursuant to this subsection, the Secretary may, where necessary to implement a take reduction plan to protect or restore a marine mammal stock or species covered by such plan, promulgate regulations which include, but are not limited to, measures to—

(A) establish fishery-specific limits on incidental mortality and serious injury of marine mammals in commercial fisheries or restrict commercial fisheries by time or area;

(B) require the use of alternative commercial fishing gear or techniques and new technologies, encourage the development of such gear or technology, or convene expert skippers' panels;

(C) educate commercial fishermen, through workshops and other means, on the importance of reducing the incidental mortality and serious injury of marine mammals in affected commercial fisheries; and

(D) monitor, in accordance with subsection (d), the effectiveness of measures taken to reduce the level of incidental mortality and serious injury of marine mammals in the course of commercial fishing operations.

(10)(A) Notwithstanding paragraph (6), in the case of any stock to which paragraph (1) applies for which a final stock assessment has not been published under section 117(b)(3) by April 1, 1995, due to a proceeding under section 117(b)(2), or any Federal court review of such proceeding, the Secretary shall establish a take reduction team under paragraph (6) for such stock as if a final stock assessment had been published.

(B) The draft stock assessment published for such stock under section 117(b)(1) shall be deemed the final stock assessment for purposes of preparing and implementing a take reduction plan for such stock under this section.

(C) Upon publication of a final stock assessment for such stock under section 117(b)(3) the Secretary shall immediately reconvene the take reduction team for such stock for the purpose of amending the take reduction plan, and any regulations issued to implement such plan, if necessary, to reflect the final stock assessment or court action. Such amendments shall be made in accordance with paragraph (7)(F) or (8)(F), as appropriate.

(D) A draft stock assessment may only be used as the basis for a take reduction plan under this paragraph for a period of not to exceed two years, or until a final stock assessment is published, whichever is earlier. If, at the end of the two-year period, a final stock assessment has not been published, the Secretary shall categorize such stock under section 117(a)(5)(A) and shall revoke any regulations to implement a take reduction plan for such stock.

(E) Subparagraph (D) shall not apply for any period beyond two years during which a final stock assessment for such stock has not been published due to review of a proceeding on such stock assessment by a Federal court. Immediately upon final action by such court, the Secretary shall proceed under subparagraph (C).

(11) Take reduction plans developed under this section for a species or stock listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) shall be consistent with any recovery plan developed for such species or stock under section 4 of such Act.

(g) EMERGENCY REGULATIONS. —

(1) If the Secretary finds that the incidental mortality and serious injury of marine mammals from commercial fisheries is having, or is likely to have, an immediate and significant adverse impact on a stock or species, the Secretary shall take actions as follows:

(A) In the case of a stock or species for which a take reduction plan is in effect, the Secretary shall—

(i) prescribe emergency regulations that, consistent with such plan to the maximum extent practicable, reduce incidental mortality and serious injury in that fishery; and

(ii) approve and implement, on an expedited basis, any amendments to such plan that are recommended by the take reduction team to address such adverse impact.

B) In the case of a stock or species for which a take reduction plan is being developed, the Secretary shall—

(i) prescribe emergency regulations to reduce such incidental mortality and serious injury in that fishery; and

(ii) approve and implement, on an expedited basis, such plan, which shall provide methods to address such adverse impact if still necessary.

(C) In the case of a stock or species for which a take reduction plan does not exist and is not being developed, or in the case of a commercial fishery listed under subsection (c)(1)(A)(iii) which the Secretary believes may be contributing to such adverse impact, the Secretary shall—

(i) prescribe emergency regulations to reduce such incidental mortality and serious injury in that fishery, to the extent necessary to mitigate such adverse impact;

(ii) immediately review the stock assessment for such stock or species and the classification of such commercial fishery under this section to determine if a take reduction team should be established; and

(iii) may, where necessary to address such adverse impact on a species or stock listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), place observers on vessels in a commercial fishery listed under subsection (c)(1)(A)(iii), if the Secretary has reason to believe such vessels may be causing the incidental mortality and serious injury to marine mammals from such stock.

(2) Prior to taking action under paragraph (1) (A), (B), or (C), the Secretary shall consult with the Marine Mammal Commission, all appropriate Regional Fishery Management Councils, State fishery managers, and the appropriate take reduction team (if established).

(3) Emergency regulations prescribed under this subsection—

(A) shall be published in the Federal Register, together with an explanation thereof;

(B) shall remain in effect for not more than 180 days or until the end of the applicable commercial fishing season, whichever is earlier; and

(C) may be terminated by the Secretary at an earlier date by publication in the Federal Register of a notice of termination, if the Secretary determines that the reasons for emergency regulations no longer exist.

(4) If the Secretary finds that incidental mortality and serious injury of marine mammals in a commercial fishery is continuing to have an immediate and significant adverse impact on a stock or species, the Secretary may extend the emergency regulations

for an additional period of not more than 90 days or until reasons for the emergency no longer exist, whichever is earlier.

(h) PENALTIES. — Except as provided in subsection (c), any person who violates this section shall be subject to the provisions of sections 105 and 107, and may be subject to section 106 as the Secretary shall establish by regulations.

(i) ASSISTANCE. — The Secretary shall provide assistance to Regional Fishery Management Councils, States, interstate fishery commissions, and Indian tribal organizations in meeting the goal of reducing incidental mortality and serious injury to insignificant levels approaching a zero mortality and serious injury rate.

(j) CONTRIBUTIONS. — For purposes of carrying out this section, the Secretary may accept, solicit, receive, hold, administer, and use gifts, devises, and bequests.

(k) CONSULTATION WITH SECRETARY OF THE INTERIOR. — The Secretary shall consult with the Secretary of the Interior prior to taking actions or making determinations under this section that affect or relate to species or population stocks of marine mammals for which the Secretary of the Interior is responsible under this title.

(l) DEFINITIONS. — As used in this section and section 101(a)(5)(E), each of the terms “fishery” and “vessel of the United States” has the same meaning it does in section 3 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802).

Marine Mammal Cooperative Agreements in Alaska

16 U.S.C. 1388

Sec. 119. (a) IN GENERAL. — The Secretary may enter into cooperative agreements with Alaska Native organizations to conserve marine mammals and provide co-management of subsistence use by Alaska Natives.

(b) GRANTS. — Agreements entered into under this section may include grants to Alaska Native organizations for, among other purposes—

- (1) collecting and analyzing data on marine mammal populations;
- (2) monitoring the harvest of marine mammals for subsistence use;
- (3) participating in marine mammal research conducted by the Federal Government, States, academic institutions, and private organizations; and
- (4) developing marine mammal co-management structures with Federal and State agencies.

(c) EFFECT OF JURISDICTION. — Nothing in this section is intended or shall be construed—

- (1) as authorizing any expansion or change in the respective jurisdiction of Federal, State, or tribal governments over fish and wildlife resources; or

(2) as altering in any respect the existing political or legal status of Alaska Natives, or the governmental or jurisdictional status of Alaska Native communities or Alaska Native entities.

(d) AUTHORIZATION OF APPROPRIATIONS. — There are authorized to be appropriated for the purposes of carrying out this section—

(1) \$1,500,000 to the Secretary of Commerce for each of the fiscal years 1994, 1995, 1996, 1997, 1998, and 1999; and

(2) \$1,000,000 to the Secretary of the Interior for each of the fiscal years 1994, 1995, 1996, 1997, 1998, and 1999. The amounts authorized to be appropriated under this subsection are in addition to the amounts authorized to be appropriated under section 116.

Pacific Coast Task Force; Gulf of Maine

16 U.S.C. 1389

Sec. 120. (a) PINNIPED REMOVAL AUTHORITY. — Notwithstanding any other provision of this Act, the Secretary may permit the intentional lethal taking of pinnipeds in accordance with this section.

(b) APPLICATION. —

(1) A State may apply to the Secretary to authorize the intentional lethal taking of individually identifiable pinnipeds which are having a significant negative impact on the decline or recovery of salmonid fishery stocks which—

(A) have been listed as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(B) the Secretary finds are approaching threatened species or endangered species status (as those terms are defined in that Act); or

(C) migrate through the Ballard Locks at Seattle, Washington.

(2) Any such application shall include a means of identifying the individual pinniped or pinnipeds, and shall include a detailed description of the problem interaction and expected benefits of the taking.

(c) ACTIONS IN RESPONSE TO APPLICATION. —

(1) Within 15 days of receiving an application, the Secretary shall determine whether the application has produced sufficient evidence to warrant establishing a Pinniped-Fishery Interaction Task Force to address the situation described in the application. If the Secretary determines sufficient evidence has been provided, the Secretary shall establish a Pinniped-Fishery Interaction Task Force and publish a notice in the Federal Register requesting public comment on the application.

(2) A Pinniped-Fishery Interaction Task Force established under paragraph (1) shall consist of designated employees of the Department of Commerce, scientists who are knowledgeable about the pinniped interaction that the application addresses, representa-

tives of affected conservation and fishing community organizations, Indian Treaty tribes, the States, and such other organizations as the Secretary deems appropriate.

(3) Within 60 days after establishment, and after reviewing public comments in response to the Federal Register notice under paragraph (1), the Pinniped-Fishery Interaction Task Force shall—

(A) recommend to the Secretary whether to approve or deny the proposed intentional lethal taking of the pinniped or pinnipeds, including along with the recommendation a description of the specific pinniped individual or individuals, the proposed location, time, and method of such taking, criteria for evaluating the success of the action, and the duration of the intentional lethal taking authority; and

(B) suggest nonlethal alternatives, if available and practicable, including a recommended course of action.

(4) Within 30 days after receipt of recommendations from the Pinniped-Fishery Interaction Task Force, the Secretary shall either approve or deny the application. If such application is approved, the Secretary shall immediately take steps to implement the intentional lethal taking, which shall be performed by Federal or State agencies, or qualified individuals under contract to such agencies.

(5) After implementation of an approved application, the Pinniped-Fishery Interaction Task Force shall evaluate the effectiveness of the permitted intentional lethal taking or alternative actions implemented. If implementation was ineffective in eliminating the problem interaction, the Task Force shall recommend additional actions. If the implementation was effective, the Task Force shall so advise the Secretary, and the Secretary shall disband the Task Force.

(d) CONSIDERATIONS. — In considering whether an application should be approved or denied, the Pinniped-Fishery Interaction Task Force and the Secretary shall consider—

(1) population trends, feeding habits, the location of the pinniped interaction, how and when the interaction occurs, and how many individual pinnipeds are involved;

(2) past efforts to nonlethally deter such pinnipeds, and whether the applicant has demonstrated that no feasible and prudent alternatives exist and that the applicant has taken all reasonable nonlethal steps without success;

(3) the extent to which such pinnipeds are causing undue injury or impact to, or imbalance with, other species in the ecosystem, including fish populations; and

(4) the extent to which such pinnipeds are exhibiting behavior that presents an ongoing threat to public safety.

(e) LIMITATION. — The Secretary shall not approve the intentional lethal taking of any pinniped from a species or stock that is—

(1) listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(2) depleted under this Act; or

(3) a strategic stock.

(f) CALIFORNIA SEA LIONS AND PACIFIC HARBOR SEALS; INVESTIGATION AND REPORT.—

(1) The Secretary shall engage in a scientific investigation to determine whether California sea lions and Pacific harbor seals—

(A) are having a significant negative impact on the recovery of salmonid fishery stocks which have been listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), or which the Secretary finds are approaching such endangered species or threatened species status; or

(B) are having broader impacts on the coastal ecosystems of Washington, Oregon, and California.

The Secretary shall conclude this investigation and prepare a report on its results no later than October 1, 1995.

(2) Upon completion of the scientific investigation required under paragraph (1), the Secretary shall enter into discussions with the Pacific States Marine Fisheries Commission, on behalf of the States of Washington, Oregon, and California, for the purpose of addressing any issues or problems identified as a result of the scientific investigation, and to develop recommendations to address such issues or problems. Any recommendations resulting from such discussions shall be submitted, along with the report, to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(3) The Secretary shall make the report and the recommendations submitted under paragraph (2) available to the public for review and comment for a period of 90 days.

(4) There are authorized to be appropriated to the Secretary such sums as are necessary to carry out the provisions of this subsection.

(5) The amounts appropriated under section 308(c) of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107(c)) and allocated to the Pacific States Marine Fisheries Commission may be used by the Commission to participate in discussions with the Secretary under paragraph (2).

(g) REGION WIDE PINNIPED-FISHERY INTERACTION STUDY. —

(1) The Secretary may conduct a study, of not less than three high predation areas in anadromous fish migration corridors within the Northwest Region of the National Marine Fisheries Service, on the interaction between fish and pinnipeds. In conducting the study, the Secretary shall consult with other State and Federal agencies with expertise in pinniped-fishery interaction. The study shall evaluate—

(A) fish behavior in the presence of predators generally;

(B) holding times and passage rates of anadromous fish stocks in areas where such fish are vulnerable to predation;

(C) whether additional facilities exist, or could be reasonably developed, that could improve escapement for anadromous fish; and

(D) other issues the Secretary considers relevant.

(2) Subject to the availability of appropriations, the Secretary may, not later than 18 months after the commencement of the study under this subsection, transmit a report on the results of the study to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives.

(3) The study conducted under this subsection may not be used by the Secretary as a reason for delaying or deferring a determination or consideration under subsection (c) or (d).

(h) GULF OF MAINE TASK FORCE. — The Secretary shall establish a Pinniped-Fishery Interaction Task Force to advise the Secretary on issues or problems regarding pinnipeds interacting in a dangerous or damaging manner with aquaculture resources in the Gulf of Maine. No later than 2 years from the date of enactment of this section [April 30, 1996], the Secretary shall after notice and opportunity for public comment submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing recommended available alternatives to mitigate such interactions.

(i) REQUIREMENTS APPLICABLE TO TASK FORCES. —

(1) Any task force established under this section—

(A) shall to the maximum extent practicable, consist of an equitable balance among representatives of resource user interests and nonuser interests; and

(B) shall not be subject to the Federal Advisory Committee Act (5 App. U.S.C.).

(2) Meetings of any task force established under this section shall be open to the public, and prior notice of those meetings shall be given to the public by the task force in a timely fashion.

(j) GULF OF MAINE HARBOR PORPOISE. —

(1) Nothing in section 117 shall prevent the Secretary from publishing a stock assessment for Gulf of Maine harbor porpoise in an expedited fashion.

(2) In developing and implementing a take reduction plan under section 118 for Gulf of Maine harbor porpoise, the Secretary shall consider all actions already taken to reduce incidental mortality and serious injury of such stock, and may, based on the recommendations of the take reduction team for such stock, modify the time period required for compliance with section 118(f)(5)(A), but in no case may such modification extend the date of compliance beyond April 1, 1997.

TITLE II—Marine Mammal Commission

Establishment of Commission

16 U.S.C. 1401

Sec. 201. (a) [DESIGNATION.] — There is hereby established the Marine Mammal Commission (hereafter referred to in this title as the “Commission”).

(b) [MEMBERSHIP AND TERM OF OFFICE.] —

(1) Effective September 1, 1982, the Commission shall be composed of three members who shall be appointed by the President, by and with the advice and consent of the Senate. The President shall make his selection from a list of individuals knowledgeable in the fields of marine ecology and resource management, and who are not in a position to profit from the taking of marine mammals. Such list shall be submitted to him by the Chairman of the Council on Environmental Quality and unanimously agreed to by that Chairman, the Secretary of the Smithsonian Institution, the Director of the National Science Foundation and the Chairman of the National Academy of Sciences. No member of the Commission may, during his period of service on the Commission, hold any other position as an officer or employee of the United States except as a retired officer or retired civilian employee of the United States.

(2) The term of office for each member shall be three years; except that of the members initially appointed to the Commission, the term of one member shall be for one year, the term of one member shall be for two years, and the term of one member shall be for three years. No member is eligible for reappointment; except that any member appointed to fill a vacancy occurring before the expiration of the term for which his predecessor was appointed (A) shall be appointed for the remainder of such term, and (B) is eligible for reappointment for one full term. A member may serve after the expiration of his term until his successor has taken office.

(c) [CHAIRMAN.] — The President shall designate a Chairman of the Commission (hereafter referred to in this title as the “Chairman”) from among its members.

(d) [COMPENSATION; REIMBURSEMENT FOR TRAVEL EXPENSES.] — Members of the Commission shall each be compensated at a rate equal to the daily equivalent of the rate for GS-18 of the General Schedule under section 5332 of Title 5, United States Code, for each day such member is engaged in the actual performance of duties vested in the Commission. Each member shall be reimbursed for travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of Title 5, United States Code, for persons in Government service employed intermittently.

(e) [EXECUTIVE DIRECTOR.] — The Commission shall have an Executive Director, who shall be appointed (without regard to the provisions of Title 5, United States Code, governing appointments in the competitive service) by the Chairman with the approval of the Commission and shall be paid at a rate not in excess of the rate for GS-18 of the General Schedule under section 5332 of Title 5, United States Code. The Executive Director shall have such duties as the Chairman may assign.

Duties of Commission

16 U.S.C. 1402

Sec. 202. (a) [REPORTS AND RECOMMENDATIONS.] — The Commission shall—

(1) undertake a review and study of the activities of the United States pursuant to existing laws and international conventions relating to marine mammals, including, but not limited to, the International Convention for the Regulation of Whaling, the Whaling Convention Act of 1949, the Interim Convention on the Conservation of North Pacific Fur Seals, and the Fur Seal Act of 1966;

(2) conduct a continuing review of the condition of the stocks of marine mammals, of methods for their protection and conservation, of humane means of taking marine mammals, of research programs conducted or proposed to be conducted under the authority of this Act, and of all applications for permits for scientific research, public display, or enhancing the survival or recovery of a species or stock;

(3) undertake or cause to be undertaken such other studies as it deems necessary or desirable in connection with its assigned duties as to the protection and conservation of marine mammals;

(4) recommend to the Secretary and to other Federal officials such steps as it deems necessary or desirable for the protection and conservation of marine mammals;

(5) recommend to the Secretary of State appropriate policies regarding existing international arrangements for the protection and conservation of marine mammals, and suggest appropriate international arrangements for the protection and conservation of marine mammals;

(6) recommend to the Secretary such revisions of the endangered species list and threatened species list published pursuant to section 4(c)(1) of the Endangered Species Act of 1973, as may be appropriate with regard to marine mammals; and

(7) recommend to the Secretary, other appropriate Federal officials, and Congress such additional measures as it deems necessary or desirable to further the policies of this Act, including provisions for the protection of the Indians, Eskimos, and Aleuts whose livelihood may be adversely affected by actions taken pursuant to this Act.

(b) [CONSULTATION WITH SECRETARY; REPORTS TO SECRETARY BEFORE PUBLICATION.] — The Commission shall consult with the Secretary at such intervals as it or he may deem desirable, and shall provide each annual report required under section 204, before submission to Congress, to the Secretary for comment.

(c) [AVAILABILITY OF REPORTS FOR PUBLIC INSPECTION.] — The reports and recommendations which the Commission makes shall be matters of public record and shall be available to the public at all reasonable times. All other activities of the Commission shall be matters of public record and available to the public in accordance with the provisions of section 552 of Title 5, United States Code.

(d) [RECOMMENDATIONS; EXPLANATION FOR NON-ADOPTION.] — Any recommendations made by the Commission to the Secretary and other Federal officials shall be responded to by those individuals within one hundred and twenty days after receipt thereof. Any recommendations which are not followed or adopted shall be referred to the

Commission together with a detailed explanation of the reasons why those recommendations were not followed or adopted.

Committee of Scientific Advisors On Marine Mammals

16 U.S.C. 1403

Sec. 203. (a) [ESTABLISHMENT; MEMBERSHIP.] — The Commission shall establish, within ninety days after its establishment, a Committee of Scientific Advisors on Marine Mammals (hereafter referred to in this title as the “Committee”). Such Committee shall consist of nine scientists knowledgeable in marine ecology and marine mammal affairs appointed by the Chairman after consultation with the Chairman of the Council on Environmental Quality, the Secretary of the Smithsonian Institution, the Director of the National Science Foundation, and the Chairman of the National Academy of Sciences.

(b) [COMPENSATION; REIMBURSEMENT FOR TRAVEL EXPENSES.] — Except for United States Government employees, members of the Committee shall each be compensated at a rate equal to the daily equivalent of the rate for GS-18 of the General Schedule under section 5332 of Title 5, United States Code, for each day such member is engaged in the actual performance of duties vested in the Committee. Each member shall be reimbursed for travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of Title 5, United States Code, for persons in Government service employed intermittently.

(c) [CONSULTATION WITH COMMISSION ON STUDIES AND RECOMMENDATIONS; EXPLANATION FOR NON-ADOPTION.] — The Commission shall consult with the Committee on all studies and recommendations which it may propose to make or has made, on research programs conducted or proposed to be conducted under the authority of this Act, and on all applications for permits for scientific research. Any recommendations made by the Committee or any of its members which are not adopted by the Commission shall be transmitted by the Commission to the appropriate Federal agency and to the appropriate committees of Congress with a detailed explanation of the Commission's reasons for not accepting such recommendations.

Commission Reports

16 U.S.C. 1404

Sec. 204. The Commission shall transmit to Congress, by January 31 of each year, a report which shall include—

(1) a description of the activities and accomplishments of the Commission during the immediately preceding year; and

(2) all the findings and recommendations made by and to the Commission pursuant to section 202 of this Act together with the responses made to these recommendations.¹³

¹³ Although the Marine Mammal Commission continues to prepare an annual report, the mandatory nature of this reporting requirement ceased on December 21, 1999, under section 3003 of the Federal Reports Elimination and Sunset Act of 1995 (Pub. L. 104-66).

Coordination with Other Federal Agencies

16 U.S.C. 1405

Sec. 205. The Commission shall have access to all studies and data compiled by Federal agencies regarding marine mammals. With the consent of the appropriate Secretary or Agency head, the Commission may also utilize the facilities or services of any Federal agency and shall take every feasible step to avoid duplication of research and to carry out the purposes of this Act.

Administration of Commission

16 U.S.C. 1406

Sec. 206. The Commission, in carrying out its responsibilities under this title, may—

- (1) employ and fix the compensation of such personnel;
- (2) acquire, furnish, and equip such office space;
- (3) enter into such contracts or agreements with, or provide such grants to, other organizations, both public and private;
- (4) procure the services of such experts or consultants or an organization thereof as is authorized under section 3109 of Title 5, United States Code (but at rates for individuals not to exceed \$100 per diem); and
- (5) incur such necessary expenses and exercise such other powers, as are consistent with and reasonably required to perform its functions under this title; except that no fewer than 11 employees must be employed under paragraph (1) at any time. Financial and administrative services (including those related to budgeting, accounting, financial reporting, personnel, and procurement) shall be provided the Commission by the General Services Administration, for which payment shall be made in advance, or by reimbursement from funds of the Commission in such amounts as may be agreed upon by the Chairman and the Administrator of General Services.

Authorization of Appropriations

16 U.S.C. 1407

Sec. 207. There are authorized to be appropriated to the Marine Mammal Commission, for purposes of carrying out this title, \$1,500,000 for fiscal year 1994, \$1,550,000 for fiscal year 1995, \$1,600,000 for fiscal year 1996, \$1,650,000 for fiscal year 1997, \$1,700,000 for fiscal year 1998, and \$1,750,000 for fiscal year 1999.

TITLE III—International Dolphin Conservation Program

Findings and Policy

16 U.S.C. 1411

Sec. 301. (a) FINDINGS. — The Congress finds the following:

(1) The yellowfin tuna fishery of the eastern tropical Pacific Ocean has resulted in the deaths of millions of dolphins.

(2) Significant awareness and increased concern for the health and safety of dolphin populations has encouraged a change in fishing methods worldwide.

(3) United States tuna fishing vessels have led the world in the development of fishing methods to reduce dolphin mortalities in the eastern tropical Pacific Ocean and United States tuna processing companies have voluntarily promoted the marketing of tuna that is dolphin safe.

(4) Nations harvesting yellowfin tuna in the eastern tropical Pacific Ocean have demonstrated their willingness to participate in appropriate multilateral agreements to reduce dolphin mortality progressively to a level approaching zero through the setting of annual limits, with the goal of eliminating dolphin mortality in that fishery. Recognition of the International Dolphin Conservation Program will assure that the existing trend of reduced dolphin mortality continues, that individual stocks of dolphins are adequately protected; and that the goal of eliminating all dolphin mortality continues to be a priority.

(b) POLICY. — It is the policy of the United States to—

(1) eliminate the marine mammal mortality resulting from the intentional encirclement of dolphins and other marine mammals in tuna purse seine fisheries;

(2) support the International Dolphin Conservation Program and efforts within the Program to reduce, with the goal of eliminating, the mortality referred to in paragraph (1);

(3) ensure that the market of the United States does not act as an incentive to the harvest of tuna caught with driftnets or caught by purse seine vessels in the eastern tropical Pacific Ocean not operating in compliance with the International Dolphin Conservation Program;

(4) secure appropriate multilateral agreements to ensure that United States tuna fishing vessels shall have continued access to productive tuna fishing grounds in the South Pacific Ocean and elsewhere; and

(5) encourage observer coverage on purse seine vessels fishing for tuna outside of the eastern tropical Pacific Ocean in a fishery in which the Secretary has determined that a regular and significant association occurs between marine mammals and tuna, and in which tuna is harvested through the use of purse seine nets deployed on or to encircle marine mammals.

International Dolphin Conservation Program

16 U.S.C. 1412

Sec. 302. The Secretary of State, in consultation with the Secretary, shall seek to secure a binding international agreement to establish an International Dolphin Conservation Program that requires—

(1) that the total annual dolphin mortality in the purse seine fishery for yellowfin tuna in the eastern tropical Pacific Ocean shall not exceed 5,000 animals with a commitment and objective to progressively reduce dolphin mortality to a level approaching zero through the setting of annual limits;

(2) the establishment of a per-stock per-year dolphin mortality limit, to be in effect through calendar year 2000, at a level between 0.2 percent and 0.1 percent of the minimum population estimate, as calculated, revised, or approved by the Secretary;

(3) the establishment of a per-stock per-year dolphin mortality limit, beginning with the calendar year 2001, at a level less than or equal to 0.1 percent of the minimum population estimate as calculated, revised, or approved by the Secretary;

(4) that if a dolphin mortality limit is exceeded under--

(A) paragraph (1), all sets on dolphins shall cease for the applicable fishing year; and

(B) paragraph (2) or (3), all sets on the stocks covered under paragraph (2) or (3) and any mixed schools that contain any of those stocks shall cease for the applicable fishing year;

(5) a scientific review and assessment to be conducted in calendar year 1998 to--

(A) assess progress in meeting the objectives set for calendar year 2000 under paragraph (2); and

(B) as appropriate, consider recommendations for meeting these objectives;

(6) a scientific review and assessment to be conducted in calendar year 2000--

(A) to review the stocks covered under paragraph (3); and

(B) as appropriate to consider recommendations to further the objectives set under that paragraph;

(7) the establishment of a per vessel maximum annual dolphin mortality limit consistent with the established per-year mortality limits, as determined under paragraphs (1) through (3); and

(8) the provision of a system of incentives to vessel captains to continue to reduce dolphin mortality, with the goal of eliminating dolphin mortality.

Regulatory Authority of the Secretary

16 U.S.C. 1413

Sec. 303. (a) REGULATIONS.—

(1) The Secretary shall issue regulations, and revise those regulations as may be appropriate, to implement the International Dolphin Conservation Program.

(2)(A) The Secretary shall issue regulations to authorize and govern the taking of marine mammals in the eastern tropical Pacific Ocean, including any species of marine mammal designated as depleted under this Act but not listed as endangered or threatened under the Endangered Species Act (16 U.S.C. 1531 et seq.), by vessels of the United States participating in the International Dolphin Conservation Program.

(B) Regulations issued under this section shall include provisions—

(i) requiring observers on each vessel;

(ii) requiring use of the backdown procedure or other procedures equally or more effective in avoiding mortality of, or serious injury to, marine mammals in fishing operations;

(iii) prohibiting intentional sets on stocks and schools in accordance with the International Dolphin Conservation Program;

(iv) requiring the use of special equipment, including dolphin safety panels in nets, monitoring devices as identified by the International Dolphin Conservation Program to detect unsafe fishing conditions that may cause high incidental dolphin mortality before nets are deployed by a tuna vessel, operable rafts, speedboats with towing bridles, floodlights in operable condition, and diving masks and snorkels;

(v) ensuring that the backdown procedure during sets of purse seine net on marine mammals is completed and rolling of the net to sack up has begun no later than 30 minutes before sundown;

(vi) banning the use of explosive devices in all purse seine operations;

(vii) establishing per vessel maximum annual dolphin mortality limits, total dolphin mortality limits and per-stock per-year mortality limits in accordance with the International Dolphin Conservation Program;

(viii) preventing the making of intentional sets on dolphins after reaching either the vessel maximum annual dolphin mortality limits, total dolphin mortality limits, or per-stock per-year mortality limits;

(ix) preventing the fishing on dolphins by a vessel without an assigned vessel dolphin mortality limit;

(x) allowing for the authorization and conduct of experimental fishing operations, under such terms and conditions as the Secretary may prescribe, for the purpose of testing proposed improvements in fishing techniques and equipment that may reduce or eliminate dolphin mortality or serious injury do not require the encirclement of dolphins in the course of commercial yellowfin tuna fishing;

(xi) authorizing fishing within the area covered by the International Dolphin Conservation Program by vessels of the United States without the use of special equipment or nets if the vessel takes an observer and does not intentionally deploy nets on, or encircle, dolphins, under such terms and conditions as the Secretary may prescribe; and

(xii) containing such other restrictions and requirements as the Secretary determines are necessary to implement the International Dolphin Conservation Program with respect to vessels of the United States.

(C) ADJUSTMENTS TO REQUIREMENTS.—The Secretary may make such adjustments as may be appropriate to requirements of subparagraph (B) that pertain to fishing gear, vessel equipment, and fishing practices to the extent the adjustments are consistent with the International Dolphin Conservation Program.

(b) CONSULTATION.—In developing any regulation under this section, the Secretary shall consult with the Secretary of State, the Marine Mammal Commission, and the United States Commissioners to the Inter-American Tropical Tuna Commission appointed under section 3 of the Tuna Conventions Act of 1950 (16 U.S.C. 952).

(c) EMERGENCY REGULATIONS.—

(1) If the Secretary determines, on the basis of the best scientific information available (including research conducted under section 304 and information obtained under the International Dolphin Conservation Program) that the incidental mortality and serious injury of marine mammals authorized under this title is having, or is likely to have, a significant adverse impact on a marine mammal stock or species, the Secretary shall--

(A) notify the Inter-American Tropical Tuna Commission of his or her determination, along with recommendations to the Commission as to actions necessary to reduce incidental mortality and serious injury and mitigate such adverse impact; and

(B) prescribe emergency regulations to reduce incidental mortality and serious injury and mitigate such adverse impact.

(2) Before taking action under subparagraph (A) or (B) of paragraph (1), the Secretary shall consult with the Secretary of State, the Marine Mammal Commission, and the United States Commissioners to the Inter-American Tropical Tuna Commission.

(3) Emergency regulations prescribed under this subsection—

(A) shall be published in the Federal Register, together with an explanation thereof;

(B) shall remain in effect for the duration of the applicable fishing year; and

(C) may be terminated by the Secretary at an earlier date by publication in the Federal Register of a notice of termination if the Secretary determines that the reasons for the emergency no longer exist.

(4) If the Secretary finds that the incidental mortality and serious injury of marine mammals in the yellowfin tuna fishery in the eastern tropical Pacific Ocean is continuing to

have a significant adverse impact on a stock or species, the Secretary may extend the emergency regulations for such additional periods as may be necessary.

(5) Within 120 days after the Secretary notifies the United States Commissioners to the Inter-American Tropical Tuna Commission of the Secretary's determination under paragraph (1)(A), the United States Commissioners shall call for a special meeting of the Commission to address the actions necessary to reduce incidental mortality and serious injury and mitigate the adverse impact which resulted in the determination. The Commissioners shall report the results of the special meeting in writing to the Secretary and to the Secretary of State. In their report, the Commissioners shall—

(A) include a description of the actions taken by the harvesting nations or under the International Dolphin Conservation Program to reduce the incidental mortality and serious injury and measures to mitigate the adverse impact on the marine mammal species or stock;

(B) indicate whether, in their judgment, the actions taken address the problem adequately; and

(C) if they indicate that the actions taken do not address the problem adequately, include recommendations of such additional action to be taken as may be necessary.

Research

16 U.S.C. 1414

Sec. 304. (a) REQUIRED RESEARCH.—

(1) **IN GENERAL.**—The Secretary shall, in consultation with the Marine Mammal Commission and the Inter-American Tropical Tuna Commission, conduct a study of the effect of intentional encirclement (including chase) on dolphins and dolphin stocks incidentally taken in the course of purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean. The study, which shall commence on October 1, 1997, shall consist of abundance surveys as described in paragraph (2) and stress studies as described in paragraph (3), and shall address the question of whether such encirclement is having a significant adverse impact on any depleted dolphin stock in the eastern tropical Pacific Ocean.

(2) **POPULATION ABUNDANCE SURVEYS.**—The abundance surveys under this subsection shall survey the abundance of such depleted stocks and shall be conducted during each of the calendar years 1998, 1999, and 2000.

(3) **STRESS STUDIES.**—The stress studies under this subsection shall include—

(A) a review of relevant stress-related research and a 3-year series of necropsy samples from dolphins obtained by commercial vessels;

(B) a 1-year review of relevant historical demographic and biological data related to dolphins and dolphin stocks referred to in paragraph (1); and

(C) an experiment involving the repeated chasing and capturing of dolphins by means of intentional encirclement.

(4) REPORT.--No later than 90 days after publishing the finding under subsection (g)(2) of the Dolphin Protection Consumer Information Act, the Secretary shall complete and submit a report containing the results of the research described in this subsection to the United States Senate Committee on Commerce, Science, and Transportation and the United States House of Representative Committees on Resources and on Commerce, and to the Inter-American Tropical Tuna Commission.

(b) OTHER RESEARCH. –

(1) IN GENERAL.--In addition to conducting the research described in subsection (a), the Secretary shall, in consultation with the Marine Mammal Commission and in cooperation with the nations participating in the International Dolphin Conservation Program and the Inter-American Tropical Tuna Commission, undertake or support appropriate scientific research to further the goals of the International Dolphin Conservation Program.

(2) SPECIFIC AREAS OF RESEARCH.--Research carried out under paragraph (1) may include--

(A) projects to devise cost-effective fishing methods and gear so as to reduce, with the goal of eliminating, the incidental mortality and serious injury of marine mammals in connection with commercial purse seine fishing in the eastern tropical Pacific Ocean;

(B) projects to develop cost-effective methods of fishing for mature yellowfin tuna without setting nets on dolphins or other marine mammals;

(C) projects to carry out stock assessments for those marine mammal species and marine mammal stocks taken in the purse seine fishery for yellowfin tuna in the eastern tropical Pacific Ocean, including species or stocks not within waters under the jurisdiction of the United States; and

(D) projects to determine the extent to which the incidental take of non-target species, including juvenile tuna, occurs in the course of purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean, the geographic location of the incidental take, and the impact of that incidental take on tuna stocks and non-target species.

(c) AUTHORIZATION OF APPROPRIATIONS.--

(1) There are authorized to be appropriated to the Secretary the following amounts, to be used by the Secretary to carry out the research described in subsection (a):

(A) \$4,000,000 for fiscal year 1998.

(B) \$3,000,000 for fiscal year 1999.

(C) \$4,000,000 for fiscal year 2000.

(D) \$1,000,000 for fiscal year 2001.

(2) In addition to the amount authorized to be appropriated under paragraph (1), there are authorized to be appropriated to the Secretary for carrying out this section \$3,000,000 for each of the fiscal years 1998, 1999, 2000, and 2001.

Reports by the Secretary

16 U.S.C. 1415

Sec. 305. Notwithstanding section 103(f), the Secretary shall submit annual reports to the Congress which include—

- (1) results of research conducted pursuant to section 304;
- (2) a description of the status and trends of stocks of tuna;
- (3) a description of the efforts to assess, avoid, reduce, and minimize the bycatch of juvenile yellowfin tuna and bycatch of non-target species;
- (4) a description of the activities of the International Dolphin Conservation Program and of the efforts of the United States in support of the program's goals and objectives, including the protection of dolphin stocks in the eastern tropical Pacific Ocean, and an assessment of the effectiveness of the program;
- (5) actions taken by the Secretary under section 101(a)(2)(B) and section 101(d);
- (6) copies of any relevant resolutions and decisions of the Inter-American Tropical Tuna Commission, and any regulations promulgated by the Secretary under this title; and
- (7) any other information deemed relevant by the Secretary.

Permits

16 U.S.C. 1416

Sec. 306. (a) IN GENERAL.—

(1) Consistent with the regulations issued pursuant to section 303, the Secretary shall issue a permit to a vessel of the United States authorizing participation in the International Dolphin Conservation Program and may require a permit for the person actually in charge of and controlling the fishing operation of the vessel. The Secretary shall prescribe such procedures as are necessary to carry out this subsection, including requiring the submission of—

(A) the name and official number or other identification of each fishing vessel for which a permit is sought, together with the name and address of the owner thereof; and

(B) the tonnage, hold capacity, speed, processing equipment, and type and quantity of gear, including an inventory of special equipment required under section 303, with respect to each vessel.

(2) The Secretary is authorized to charge a fee for granting an authorization and issuing a permit under this section. The level of fees charged under this paragraph may not exceed the administrative cost incurred in granting an authorization and issuing a permit. Fees collected under this paragraph shall be available to the Under Secretary of Commerce for Oceans and Atmosphere for expenses incurred in granting authorization and issuing permits under this section.

(3) After the effective date of the International Dolphin Conservation Program Act, no vessel of the United States shall operate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean without a valid permit issued under this section.

(b) PERMIT SANCTIONS.—

(1) In any case in which—

(A) a vessel for which a permit has been issued under this section has been used in the commission of an act prohibited under section 307;

(B) the owner or operator of any such vessel or any other person who has applied for or been issued a permit under this section has acted in violation of section 307; or

(C) any civil penalty or criminal fine imposed on a vessel, owner or operator of a vessel, or other person who has applied for or been issued a permit under this section has not been paid or is overdue, the Secretary may—

(i) revoke any permit with respect to such vessel, with or without prejudice to the issuance of subsequent permits;

(ii) suspend such permit for a period of time considered by the Secretary to be appropriate;

(iii) deny such permit; or

(iv) impose additional conditions or restrictions on any permit issued to, or applied for by, any such vessel or person under this section.

(2) In imposing a sanction under this subsection, the Secretary shall take into account—

(A) the nature, circumstances, extent, and gravity of the prohibited acts for which the sanction is imposed; and

(B) with respect to the violator, the degree of culpability, any history of prior offenses, and other such matters as justice requires.

(3) Transfer of ownership of a vessel, by sale or otherwise, shall not extinguish any permit sanction that is in effect or is pending at the time of transfer of ownership. Before executing the transfer of ownership of a vessel, by sale or otherwise, the owner shall disclose in writing to the prospective transferee the existence of any permit sanction that will be in effect or pending with respect to the vessel at the time of transfer.

(4) In the case of any permit that is suspended for the failure to pay a civil penalty or criminal fine, the Secretary shall reinstate the permit upon payment of the penalty or fine and interest thereon at the prevailing rate.

(5) No sanctions shall be imposed under this section unless there has been a prior opportunity for a hearing on the facts underlying the violation for which the sanction is imposed, either in conjunction with a civil penalty proceeding under this title or otherwise.

Prohibitions

16 U.S.C. 1417

Sec. 307. (a) IN GENERAL. — It is unlawful—

(1) for any person to sell, purchase, offer for sale, transport, or ship, in the United States, any tuna or tuna product unless the tuna or tuna product is either dolphin safe or has been harvested in compliance with the International Dolphin Conservation Program by a country that is a member of the Inter-American Tropical Tuna Commission or has initiated and within 6 months thereafter completed all steps required of applicant nations in accordance with Article V, paragraph 3 of the Convention establishing the Inter-American Tropical Tuna Commission, to become a member of that organization;

(2) except as provided for in subsection 101(d)¹⁴, for any person or vessel subject to the jurisdiction of the United States intentionally to set a purse seine net on or to encircle any marine mammal in the course of tuna fishing operations in the eastern tropical Pacific Ocean except in accordance with this title and regulations issued under pursuant to this title; and

(3) for any person to import any yellowfin tuna or yellowfin tuna product or any other fish or fish product in violation of a ban on importation imposed under section 101(a)(2);

(4) for any person to violate any regulation promulgated under this title;

(5) for any person to refuse to permit any duly authorized officer to board a vessel subject to that person's control for purposes of conducting any search or inspection in connection with the enforcement of this Act; and

(6) for any person to assault, resist, oppose, impede, intimidate, or interfere with any such authorized officer in the conduct of any search or inspection described in paragraph (5).

(b) PENALTIES. —

(1) **CIVIL PENALTY.** — A person that knowingly and willfully violates subsection (a) (1), (2), (3), (4), or (5) shall be subject to a civil penalty under section 105(a).

(2) **CRIMINAL PENALTY.** — A person that knowingly and willfully violates subsection (a)(5) or (a)(6) shall be subject to a criminal penalty under section 105(b).

(c) CIVIL FORFEITURES. — Any vessel (including its fishing gear, appurtenances, stores, and cargo) used, and any fish (or its fair market value) taken or retained, in any manner, in connection with or as a result of the commission of any act prohibited by this section shall be subject to forfeiture to the United States in the manner provided in section 310 of the Magnuson-Stevens Fishery Conservation and Management Act.

¹⁴ As in original, reference should be to subsection 101(e).

TITLE IV—Marine Mammal Health and Stranding Response

Establishment of Program

16 U.S.C. 1421

Sec. 401. (a) ESTABLISHMENT. — The Secretary shall, in consultation with the Secretary of the Interior, the Marine Mammal Commission, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, including stranding network participants, establish a program to be known as the “Marine Mammal Health and Stranding Response Program”.

(b) PURPOSES. — The purposes of the Program shall be to—

- (1) facilitate the collection and dissemination of reference data on the health of marine mammals and health trends of marine mammal populations in the wild;
- (2) correlate the health of marine mammals and marine mammal populations, in the wild, with available data on physical, chemical, and biological environmental parameters; and
- (3) coordinate effective responses to unusual mortality events by establishing a process in the Department of Commerce in accordance with section 404.

Determination; Data Collection and Dissemination

16 U.S.C. 1421a

Sec. 402. (a) DETERMINATION FOR RELEASE. — The Secretary shall, in consultation with the Secretary of the Interior, the Marine Mammal Commission, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, including stranding network participants, develop objective criteria, after an opportunity for public review and comment, to provide guidance for determining at what point a rehabilitated marine mammal is releasable to the wild.

(b) COLLECTION. — The Secretary shall, in consultation with the Secretary of the Interior, collect and update, periodically, existing information on—

- (1) procedures and practices for—
 - (A) rescuing and rehabilitating stranded marine mammals, including criteria used by stranding network participants, on a species-by-species basis, for determining at what point a marine mammal undergoing rescue and rehabilitation is returnable to the wild; and
 - (B) collecting, preserving, labeling, and transporting marine mammal tissues for physical, chemical, and biological analyses;

(2) appropriate scientific literature on marine mammal health, disease, and rehabilitation;

(3) strandings, which the Secretary shall compile and analyze, by region, to monitor species, numbers, conditions, and causes of illnesses and deaths of stranded marine mammals; and

(4) other life history and reference level data, including marine mammal tissue analyses, that would allow comparison of the causes of illness and deaths in stranded marine mammals with physical, chemical, and biological environmental parameters.

(c) **AVAILABILITY.** — The Secretary shall make information collected under this section available to stranding network participants and other qualified scientists.

Stranding Response Agreements

16 U.S.C. 1421b

Sec. 403. (a) IN GENERAL. — The Secretary may enter into an agreement under section 112(c) with any person to take marine mammals under section 109(h)(1) in response to a stranding.

(b) **REQUIRED PROVISION.** — An agreement authorized by subsection (a) shall—

(1) specify each person who is authorized to perform activities under the agreement; and

(2) specify any terms and conditions under which a person so specified may delegate that authority to another person.

(c) **REVIEW.** — The Secretary shall periodically review agreements under section 112(c) that are entered into pursuant to this title, for performance adequacy and effectiveness.

Unusual Mortality Event Response

16 U.S.C. 1421c

Sec. 404. (a) RESPONSE. —

(1) **WORKING GROUP.** —

(A) The Secretary, acting through the Office, shall establish, in consultation with the Secretary of the Interior, a marine mammal unusual mortality event working group, consisting of individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, marine conservation, and medical science, to provide guidance to the Secretary and the Secretary of the Interior for—

(i) determining whether an unusual mortality event is occurring;

(ii) determining, after an unusual mortality event has begun, if response actions with respect to that event are no longer necessary; and

(iii) developing the contingency plan in accordance with subsection (b), to assist the Secretary in responding to unusual mortality events.

(B) The Federal Advisory Committee Act (5 App. U.S.C.) shall not apply to the marine mammal unusual mortality event working group established under this paragraph.

(2) RESPONSE TIMING. — The Secretary, in consultation with the Secretary of the Interior, shall to the extent necessary and practicable—

(A) within 24 hours after receiving notification from a stranding network participant that an unusual mortality event might be occurring, contact as many members as is possible of the unusual mortality event working group for guidance; and

(B) within 48 hours after receiving such notification—

(i) make a determination as to whether an unusual mortality event is occurring;

(ii) inform the stranding network participant of that determination; and

(iii) if the Secretary has determined an unusual mortality event is occurring, designate an Onsite Coordinator for the event, in accordance with subsection (c).

(b) CONTINGENCY PLAN. —

(1) IN GENERAL. — The Secretary shall, in consultation with the Secretary of the Interior and the unusual mortality event working group, and after an opportunity for public review and comment, issue a detailed contingency plan for responding to any unusual mortality event.

(2) CONTENTS. — The contingency plan required under this subsection shall include—

(A) a list of persons, including stranding network participants, at a regional, State, and local level, who can assist the Secretary in implementing a coordinated and effective response to an unusual mortality event;

(B) the types of marine mammal tissues and analyses necessary to assist in diagnosing causes of unusual mortality events;

(C) training, mobilization, and utilization procedures for available personnel, facilities, and other resources necessary to conduct a rapid and effective response to unusual mortality events; and

(D) such requirements as are necessary to—

(i) minimize death of marine mammals in the wild and provide appropriate care of marine mammals during an unusual mortality event;

(ii) assist in identifying the cause or causes of an unusual mortality event;

(iii) determine the effects of an unusual mortality event on the size estimates of the affected populations of marine mammals; and

(iv) identify any roles played in an unusual mortality event by physical, chemical, and biological factors, including contaminants.

(c) ONSITE COORDINATORS. —

(1) DESIGNATION. —

(A) The Secretary shall, in consultation with the Secretary of the Interior, designate one or more Onsite Coordinators for an unusual mortality event, who shall make immediate recommendations to the stranding network participants on how to proceed with response activities.

(B) An Onsite Coordinator so designated shall be one or more appropriate Regional Directors of the National Marine Fisheries Service or the United States Fish and Wildlife Service, or their designees.

(C) If, because of the wide geographic distribution, multiple species of marine mammals involved, or magnitude of an unusual mortality event, more than one Onsite Coordinator is designated, the Secretary shall, in consultation with the Secretary of the Interior, designate which of the Onsite Coordinators shall have primary responsibility with respect to the event.

(2) FUNCTIONS. —

(A) An Onsite Coordinator designated under this subsection shall coordinate and direct the activities of all persons responding to an unusual mortality event in accordance with the contingency plan issued under subsection (b), except that—

(i) with respect to any matter that is not covered by the contingency plan, an Onsite Coordinator shall use his or her best professional judgment; and

(ii) the contingency plan may be temporarily modified by an Onsite Coordinator, consulting as expeditiously as possible with the Secretary, the Secretary of the Interior, and the unusual mortality event working group.

(B) An Onsite Coordinator may delegate to any qualified person authority to act as an Onsite Coordinator under this title.

Unusual Mortality Event Activity Funding

16 U.S.C. 1421d

Sec. 405. (a) ESTABLISHMENT OF FUND. — There is established in the Treasury an interest bearing fund to be known as the “Marine Mammal Unusual Mortality Event Fund”, which shall consist of amounts deposited into the Fund under subsection (c).

(b) USES. —

(1) IN GENERAL. — Amounts in the Fund—

(A) shall be available only for use by the Secretary, in consultation with the Secretary of the Interior—

(i) to compensate persons for special costs incurred in acting in accordance with the contingency plan issued under section 404(b) or under the direction of an Onsite Coordinator for an unusual mortality event;

(ii) for reimbursing any stranding network participant for costs incurred in preparing and transporting tissues collected with respect to an unusual mortality event for the Tissue Bank; and

(iii) for care and maintenance of marine mammal seized under section 104(c)(2)(D); and

(B) shall remain available until expended.

(2) **PENDING CLAIMS.** — If sufficient amounts are not available in the Fund to satisfy any authorized pending claim, such claim shall remain pending until such time as sufficient amounts are available. All authorized pending claims shall be satisfied in the order received.

(c) **DEPOSITS INTO THE FUND.** — There shall be deposited into the Fund—

(1) amounts appropriated to the Fund;

(2) other amounts appropriated to the Secretary for use with respect to unusual mortality events; and

(3) amounts received by the United States in the form of gifts, devises, and bequests under subsection (d).

(d) **ACCEPTANCE OF DONATIONS.** — For purposes of carrying out this title and section 104(c)(2)(D), the Secretary may accept, solicit, and use the services of volunteers, and may accept, solicit, receive, hold, administer, and use gifts, devises, and bequests.

Liability

16 U.S.C. 1421e

Sec. 406. (a) IN GENERAL. — A person who is authorized to respond to a stranding pursuant to an agreement entered into under section 112(c) is deemed to be an employee of the government for purposes of chapter 171 of title 28, United States Code, with respect to actions of the person that are—

(1) in accordance with the agreement; and

(2) in the case of an unusual mortality event, in accordance with—

(A) the contingency plan issued under section 404(b);

(B) the instructions of an Onsite Coordinator designated under section 404(c); or

(C) the best professional judgment of an Onsite Coordinator, in the case of any matter that is not covered by the contingency plan.

(b) **LIMITATION.** — Subsection (a) does not apply to actions of a person described in that subsection that are grossly negligent or that constitute willful misconduct.

National Marine Mammal Tissue Bank and Tissue Analysis

16 U.S.C. 1421f

Sec. 407. (a) TISSUE BANK. —

(1) IN GENERAL. — The Secretary shall make provision for the storage, preparation, examination, and archiving of marine mammal tissues. Tissues archived pursuant to this subsection shall be known as the “National Marine Mammal Tissue Bank”.

(2) GUIDANCE FOR MARINE MAMMAL TISSUE COLLECTION, PREPARATION, AND ARCHIVING. — The Secretary shall, in consultation with individuals with knowledge and expertise in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, issue guidance, after an opportunity for public review and comment, for marine mammal tissue collection, preparation, archiving, and quality control procedures, regarding—

(A) appropriate and uniform methods and standards for those activities to provide confidence in marine mammal tissue samples used for research; and

(B) documentation of procedures used for collecting, preparing, and archiving those samples.

(3) SOURCE OF TISSUE. — In addition to tissues taken during marine mammal unusual mortality events, the Tissue Bank shall incorporate tissue samples taken from other sources in the wild, including—

(A) samples from marine mammals taken incidental to commercial fishing operations;

(B) samples from marine mammals taken for subsistence purposes;

(C) biopsy samples; and

(D) any other samples properly collected.

(b) TISSUE ANALYSIS. — The Secretary shall, in consultation with the Marine Mammal Commission, the Secretary of the Interior, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, issue guidance, after an opportunity for public review and comment, for analyzing tissue samples (by use of the most effective and advanced diagnostic technologies and tools practicable) as a means to monitor and measure overall health trends in representative species or populations of marine mammals, including—

(1) the levels of, and if possible, the effects of, potentially harmful contaminants; and

(2) the frequency of, and if possible, the causes and effects of abnormal lesions or anomalies.

(c) DATA BASE. —

(1) IN GENERAL. — The Secretary shall maintain a central data base which provides an effective means for tracking and accessing data on marine mammals, including relevant data on marine mammal tissues collected for and maintained in the Tissue Bank.

(2) CONTENTS. — The data base established under this subsection shall include—

(A) reference data on the health of marine mammals and populations of marine mammals; and

(B) data on species of marine mammals that are subject to unusual mortality events.

(d) ACCESS. — The Secretary shall, in consultation with the Secretary of the Interior, establish criteria, after an opportunity for public review and comment, for access to—

(1) marine mammal tissues in the Tissue Bank;

(2) analyses conducted pursuant to subsection (b); and

(3) marine mammal data in the data base maintained under subsection (c);

which provide for appropriate uses of the tissues, analyses, and data by qualified scientists, including stranding network participants.

John H. Prescott Marine Mammal Rescue Assistance Grant Program¹⁵

16 U.S.C. 1421f-1

Sec. 408. (a) IN GENERAL. —

(1) Subject to the availability of appropriations, the Secretary shall conduct a grant program to be known as the John H. Prescott Marine Mammal Rescue Assistance Grant Program, to provide grants to eligible stranding network participants for the recovery or treatment of marine mammals, the collection of data from living or dead stranded marine mammals for scientific research regarding marine mammal health, and facility operation costs that are directly related to those purposes.

(2)(A) The Secretary shall ensure that, to the greatest extent practicable, funds provided as grants under this subsection are distributed equitably among the stranding regions designated as of the date of the enactment of the Marine Mammal Rescue Assistance Act of 2000 [December 21, 2000], and in making such grants shall give preference to those facilities that have established records for rescuing or rehabilitating sick and stranded marine mammals in each of the respective regions, or subregions.

(B) In determining priorities among such regions, the Secretary may consider—

(i) any episodic stranding or any mortality event other than an event described in section 410(6), that occurred in any region in the preceding year;

(ii) data regarding average annual strandings and mortality events per region; and

(iii) the size of the marine mammal populations inhabiting a geographic area within such a region.

¹⁵ This title may be cited as the Marine Mammal Rescue Assistance Act of 2000.

(b) APPLICATION. — To receive a grant under this section, a stranding network participant shall submit an application in such form and manner as the Secretary may prescribe.

(c) CONSULTATION. — The Secretary shall consult with the Marine Mammal Commission, a representative from each of the designated stranding regions, and other individuals who represent public and private organizations that are actively involved in rescue, rehabilitation, release, scientific research, marine conservation, and forensic science regarding stranded marine mammals, regarding the development of criteria for the implementation of the grant program and the awarding of grants under the program.

(d) LIMITATION. — The amount of a grant under this section shall not exceed \$100,000.

(e) MATCHING REQUIREMENT. —

(1) IN GENERAL — The non-Federal share of the costs of an activity conducted with a grant under this section shall be 25 percent of such costs.

(2) IN-KIND CONTRIBUTIONS. — The Secretary may apply to the non-Federal share of an activity conducted with a grant under this section the amount of funds, and the fair market value of property and services, provided by non-Federal sources and used for the activity.

(f) ADMINISTRATIVE EXPENSES. — Of amounts available each fiscal year to carry out this section, the Secretary may expend not more than 6 percent or \$80,000, whichever is greater, to pay the administrative expenses necessary to carry out this section.

(g) DEFINITIONS. — In this section:

(1) DESIGNATED STRANDING REGION. — The term “**designated stranding region**” means a geographic region designated by the Secretary for purposes of administration of this Act.

(2) SECRETARY. — The term “**Secretary**” has the meaning given that term in section 3(12)(A).

(h) AUTHORIZATION OF APPROPRIATIONS. — There are authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2001 through 2003, to remain available until expended, of which—

(1) \$4,000,000 may be available to the Secretary of Commerce; and

(2) \$1,000,000 may be available to the Secretary of the Interior.

Authorization of Appropriations

16 U.S.C. 1421g

Sec. 409. There is authorized to be appropriated—

(1) to the Secretary for carrying out this title (other than sections 405 and 407) \$250,000 for each of fiscal years 1993 and 1994;

(2) to the Secretary for carrying out section 407, \$250,000 for each of fiscal years 1993 and 1994; and

(3) to the Fund, \$500,000 for fiscal year 1993.

Definitions

16 U.S.C. 1421h

Sec. 410. In this title, the following definitions apply:

(1) The term “**Fund**” means the Marine Mammal Unusual Mortality Event Fund established by section 405(a).

(2) The term “**Office**” means the Office of Protected Resources, in the National Marine Fisheries Service.

(3) The term “**stranding**” means an event in the wild in which—

(A) a marine mammal is dead and is—

(i) on a beach or shore of the United States; or

(ii) in waters under the jurisdiction of the United States (including any navigable waters); or

(B) a marine mammal is alive and is—

(i) on a beach or shore of the United States and unable to return to the water;

(ii) on a beach or shore of the United States and, although able to return to the water, is in need of apparent medical attention; or

(iii) in the waters under the jurisdiction of the United States (including any navigable waters), but is unable to return to its natural habitat under its own power or without assistance.

(4) The term “**stranding network participant**” means a person who is authorized by an agreement under section 112(c) to take marine mammals as described in section 109(h)(1) in response to a stranding.

(5) The term “**Tissue Bank**” means the National Marine Tissue Bank provided for under section 407(a).

(6) The term “**unusual mortality event**” means a stranding that—

(A) is unexpected;

(B) involves a significant die-off of any marine mammal population; and

(C) demands immediate response.

TITLE V—Polar Bears

Definitions

16 U.S.C. 1423

Sec. 501. In this title —

(1) AGREEMENT.—The term “**Agreement**” means the Agreement Between the Government of the United States of America and the Government of the Russian Federation on the Conservation and Management of the Alaska-Chukotka Polar Bear Population, signed at Washington, D.C., on October 16, 2000.

(2) ALASKA NANUUQ COMMISSION.—The term “**Alaska Nanuuq Commission**” means the Alaska Native entity, in existence on the date of enactment of the United States-Russia Polar Bear Conservation and Management Act of 2006, that represents all villages in the State of Alaska that engage in the annual subsistence taking of polar bears from the Alaska-Chukotka population and any successor entity.

(3) IMPORT.—The term “**import**” means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into, any place subject to the jurisdiction of the United States, without regard to whether the landing, bringing, or introduction constitutes an importation within the meaning of the customs laws of the United States.

(4) POLAR BEAR PART OR PRODUCT.—The term “**part or product of a polar bear**” means any polar bear part or product, including the gall bile and gall bladder.

(5) SECRETARY.—The term “**Secretary**” means the Secretary of the Interior.

(6) TAKING.—The term “**taking**” has the meaning given the term in the Agreement.

(7) COMMISSION.—The term “**Commission**” means the commission established under article 8 of the Agreement.

Prohibitions

16 U.S.C. 1423a.

Sec. 502. (a) IN GENERAL.—It is unlawful for any person who is subject to the jurisdiction of the United States or any person in waters or on lands under the jurisdiction of the United States—

(1) to take any polar bear in violation of the Agreement;

(2) to take any polar bear in violation of the Agreement or any annual taking limit or other restriction on the taking of polar bears that is adopted by the Commission pursuant to the Agreement;

(3) to import, export, possess, transport, sell, receive, acquire, or purchase, exchange, barter, or offer to sell, purchase, exchange, or barter any polar bear, or any part or product of a polar bear, that is taken in violation of paragraph (2);

(4) to import, export, sell, purchase, exchange, barter, or offer to sell, purchase, exchange, or barter, any polar bear gall bile or polar bear gall bladder;

(5) to attempt to commit, solicit another person to commit, or cause to be committed, any offense under this subsection; or

(6) to violate any regulation promulgated by the Secretary to implement any of the prohibitions established in this subsection.

(b) EXCEPTIONS.—For the purpose of forensic testing or any other law enforcement purpose, the Secretary, and Federal law enforcement officials, and any State or local law enforcement official authorized by the Secretary, may import a polar bear or any part or product of a polar bear.

Administration

16 U.S.C. 1423b.

Sec. 503. (a) IN GENERAL.—The Secretary, acting through the Director of the United States Fish and Wildlife Service, shall do all things necessary and appropriate, including the promulgation of regulations, to implement, enforce, and administer the provisions of the Agreement on behalf of the United States. The Secretary shall consult with the Secretary of State and the Alaska Nanuuq Commission on matters involving the implementation of the Agreement.

(b) UTILIZATION OF OTHER GOVERNMENT RESOURCES AND AUTHORITIES.—

(1) **OTHER GOVERNMENT RESOURCES.**—The Secretary may utilize by agreement, with or without reimbursement, the personnel, services, and facilities of any other Federal agency, any State agency, or the Alaska Nanuuq Commission for purposes of carrying out this title or the Agreement.

(2) **OTHER POWERS AND AUTHORITIES.**—Any person authorized by the Secretary under this subsection to enforce this title or the Agreement shall have the authorities that are enumerated in section 6(b) of the Lacey Act Amendments of 1981 (16 U.S.C. 3375(b)).

(c) ENSURING COMPLIANCE.—

(1) **TITLE I AUTHORITIES.**—The Secretary may use authorities granted under title I for enforcement, imposition of penalties, and the seizure of cargo for violations under this title, provided that any polar bear or any part or product of a polar bear taken, imported, exported, possessed, transported, sold, received, acquired, purchased, exchanged, or bartered, or offered for sale, purchase, exchange, or barter in violation of this Act, shall be subject to seizure and forfeiture to the United States without any showing that may be required for assessment of a civil penalty or for criminal prosecution under this Act.

(2) **ADDITIONAL AUTHORITIES.**—Any gun, trap, net, or other equipment used, and any vessel, aircraft, or other means of transportation used, to aid in the violation or attempted violation of this Act shall be subject to seizure and forfeiture under section 106.

(d) REGULATIONS.—

(1) **IN GENERAL.**—The Secretary shall promulgate such regulations as are necessary to carry out this title and the Agreement.

(2) **ORDINANCES AND REGULATIONS.**—If necessary to carry out this title and the Agreement, and to improve compliance with any annual taking limit or other restriction on taking adopted by the Commission and implemented by the Secretary in accordance with this title, the Secretary may promulgate regulations that adopt any ordinance or regulation that restricts the taking of polar bears for subsistence purposes if the ordinance or regulation has been promulgated by the Alaska Nanuuq Commission.

**Cooperative Management Agreement;
Authority to Delegate Enforcement Authority**

16 U.S.C. 1423c.

Sec. 504. (a) IN GENERAL.—The Secretary, acting through the Director of the United States Fish and Wildlife Service, may share authority under this title for the management of the taking of polar bears for subsistence purposes with the Alaska Nanuuq Commission if such commission is eligible under subsection (b).

(b) DELEGATION.—To be eligible for the management authority described in subsection (a), the Alaska Nanuuq Commission shall—

(1) enter into a cooperative agreement with the Secretary under section 119 for the conservation of polar bears;

(2) meaningfully monitor compliance with this title and the Agreement by Alaska Natives; and

(3) administer its co-management program for polar bears in accordance with—

(A) this title; and

(B) the Agreement.

**Commission Appointments;
Compensation, Travel Expenses and Claims**

16 U.S.C. 1423d.

Sec. 505. (a) APPOINTMENT OF UNITED STATES COMMISSIONERS.—

(1) **APPOINTMENT.**—The United States commissioners on the Commission shall be appointed by the President, in accordance with paragraph 2 of article 8 of the Agreement, after taking into consideration the recommendations of—

(A) the Secretary;

(B) the Secretary of State; and

(C) the Alaska Nanuuq Commission.

(2) **QUALIFICATIONS.**—With respect to the United States commissioners appointed under this subsection, in accordance with paragraph 2 of article 8 of the Agreement—

(A) 1 United States commissioner shall be an official of the Federal Government;

(B) 1 United States commissioner shall be a representative of the Native people of Alaska, and, in particular, the Native people for whom polar bears are an integral part of their culture; and

(C) both commissioners shall be knowledgeable of, or have expertise in, polar bears.

(3) **SERVICE AND TERM.**—Each United States commissioner shall serve—

(A) at the pleasure of the President; and

(B) for an initial 4-year term and such additional terms as the President shall determine.

(4) **VACANCIES.**—

(A) **IN GENERAL.**—Any individual appointed to fill a vacancy occurring before the expiration of any term of office of a United States commissioner shall be appointed for the remainder of that term.

(B) **MANNER.**—Any vacancy on the Commission shall be filled in the same manner as the original appointment.

(b) ALTERNATE COMMISSIONERS.—

(1) **IN GENERAL.**—The Secretary, in consultation with the Secretary of State and the Alaska Nanuuq Commission, shall designate an alternate commissioner for each member of the United States section.

(2) **DUTIES.**—In the absence of a United States commissioner, an alternate commissioner may exercise all functions of the United States commissioner at any meetings of the Commission or of the United States section.

(3) **REAPPOINTMENT.**—An alternate commissioner—

(A) shall be eligible for reappointment by the President; and

(B) may attend all meetings of the United States section.

(c) DUTIES.—The members of the United States section may carry out the functions and responsibilities described in article 8 of the Agreement in accordance with this title and the Agreement.

(d) COMPENSATION AND EXPENSES.—

(1) **COMPENSATION.**—A member of the United States section shall serve without compensation.

(2) **TRAVEL EXPENSES.**—A member of the United States section shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the United States-Russia Polar Bear Commission.

(e) **AGENCY DESIGNATION.**—The United States section shall, for the purpose of title 28, United States Code, relating to claims against the United States and tort claims procedure, be considered to be a Federal agency.

Votes Taken by the United States Section on Matters before the Commission

16 U.S.C. 1423e.

Sec. 506. In accordance with paragraph 3 of article 8 of the Agreement, the United States section, made up of commissioners appointed by the President, shall vote on any issue before the United States-Russia Polar Bear Commission only if there is no disagreement between the United States commissioners regarding the vote.

Implementation of Actions Taken by the Commission

16 U.S.C. 1423f.

Sec. 507. (a) IN GENERAL.—The Secretary shall take all necessary actions to implement the decisions and determinations of the Commission under paragraph 7 of article 8 of the Agreement.

(b) **TAKING LIMITATION.**—Not later than 60 days after the date on which the Secretary receives notice of the determination of the Commission of an annual taking limit, or of the adoption by the Commission of other restriction on the taking of polar bears for subsistence purposes, the Secretary shall publish a notice in the Federal Register announcing the determination or restriction.

Application with Other Titles of Act

16 U.S.C. 1423g.

Sec. 508. (a) IN GENERAL.—The authority of the Secretary under this title is in addition to, and shall not affect—

(1) the authority of the Secretary under other titles of this Act or the Lacey Act Amendments of 1981 (16 U.S.C. 3371 et seq.) or the exemption for Alaskan natives under section 101(b) of this Act as applied to other marine mammal populations; or

(2) the authorities provided under title II of this Act.

(b) **CERTAIN PROVISIONS INAPPLICABLE.**—The provisions of titles I through IV of this Act do not apply with respect to the implementation or administration of this Act, except as specified in section 503.

Authorization of Appropriations

16 U.S.C. 1423h.

Sec. 509. (a) IN GENERAL.—There are authorized to be appropriated to the Secretary to carry out the functions and responsibilities of the Secretary under this title and the Agreement \$1,000,000 for each of fiscal years 2006 through 2010.

(b) COMMISSION.—There are authorized to be appropriated to the Secretary to carry out functions and responsibilities of the United States Section \$150,000 for each of fiscal years 2006 through 2010.

(c) ALASKAN COOPERATIVE MANAGEMENT PROGRAM.—There are authorized to be appropriated to the Secretary to carry out this title and the Agreement in Alaska \$150,000 for each of fiscal years 2006 through 2010.

Notes

Certain provisions of law, although not codified, are linked to statutes set forth in the United States Code. These provisions may be included in the codified version of the statute as notes. Oftentimes provisions with note status will have a limited period of effectiveness which does not warrant their codification. Selected notes associated with the Marine Mammal Protection Act are set forth below. For a complete listing of notes associated with the Act, the reader should consult the annotated version of the United States Code.

16 U.S.C. 1361 note

The following section 7 of Pub. L. 100-711, enacted November 23, 1988, has not been codified.

Study on Mortality of Atlantic Dolphin

Sec. 7. (a) The Secretary of Commerce shall conduct a study regarding the east coast epidemic during 1987 and 1988 which has caused substantial mortality within the North Atlantic coastal population of Atlantic bottle-nosed dolphin. The study shall examine—

- (1) the cause or causes of the epidemic;
- (2) the effect of the epidemic on coastal and offshore populations of Atlantic bottle-nosed dolphin;
- (3) the extent to which pollution may have contributed to the epidemic;
- (4) whether other species and populations of marine mammals were affected by those factors which contributed to the epidemic; and
- (5) any other matters pertaining to the causes and effects of the epidemic.

(b) On or before January 1, 1989, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a plan for conducting the study required in subsection (a).

16 U.S.C. 1361 note

The following section 306 of Pub. L. 102-567, enacted October 29, 1992, has not been codified.

Study on Effects of Dolphin Feeding

Sec. 306. (a) STUDY. — The Secretary of Commerce shall conduct a study in the eastern Gulf of Mexico on the effects of feeding of noncaptive dolphins by human beings. The study conducted pursuant to this section shall be designed to detect any behavior or diet modification resulting from this feeding and to identify the effects, if any, of these modifications on the health and well-being of the dolphins.

(b) EXTERNAL REVIEW. — In design and conduct of the study required under subsection (a), the Secretary shall consult with the National Academy of Sciences and the Marine Mammal Commission.

(c) REPORT. — Within 18 months after the date of the enactment of this Act [April 29, 1994], the Secretary shall submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study conducted pursuant to subsection (a).

16 U.S.C. 1361 note

The following section 14 of Pub. L. 103-238, enacted April 30, 1994, has not been codified.

Indian Treaty Rights; Alaska Native Subsistence.

Sec. 14. Nothing in this Act [the Marine Mammal Protection Act Amendments of 1994], including any amendments to the Marine Mammal Protection Act of 1972 made by this Act—

(1) alters or is intended to alter any treaty between the United States and one or more Indian tribes; or

(2) affects or otherwise modifies the provisions of section 101(b) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1371(b)), except as specifically provided in the amendment made by section 4(b) of this Act [see section 101(b)].

16 U.S.C. 1361 note

The following section of Pub. L. 105-42, enacted August 15, 1997, has not been codified.

Sec. 2. (a) PURPOSES. — The purposes of this Act are—

(1) to give effect to the Declaration of Panama, signed October 4, 1995, by the Governments of Belize, Colombia, Costa Rica, Ecuador, France, Honduras, Mexico, Panama, Spain, the United States of America, Vanuatu, and Venezuela, including the establishment of the International Dolphin Conservation Program, relating to the protection of dolphins and other species, and the conservation and management of tuna in the eastern tropical Pacific Ocean;

(2) to recognize that nations fishing for tuna in the eastern tropical Pacific Ocean have achieved significant reductions in dolphin mortality associated with that fishery; and

(3) to eliminate the ban on imports of tuna from those nations that are in compliance with the International Dolphin Conservation Program.

(b) FINDINGS. — The Congress finds that—

(1) the nations that fish for tuna in the eastern tropical Pacific Ocean have achieved significant reductions in dolphin mortality associated with the purse seine fishery from hundreds of thousands annually to fewer than 5,000 annually;

(2) the provisions of the Marine Mammal Protection Act of 1972 that impose a ban on imports from nations that fish for tuna in the eastern tropical Pacific Ocean have served as an incentive to reduce dolphin mortalities;

(3) tuna canners and processors of the United States have led the canning and processing industry in promoting a dolphin-safe tuna market; and

(4) 12 signatory nations to the Declaration of Panama, including the United States, agreed under that Declaration to require that the total annual dolphin mortality in the purse seine fishery for yellowfin tuna in the eastern tropical Pacific Ocean not exceed 5,000 animals, with the objective of progressively reducing dolphin mortality to a level approaching zero through the setting of annual limits and with the goal of eliminating dolphin mortality.

16 U.S.C. 1373 note

The following section 1101 of Pub. L. 101-627, enacted November 28, 1990, has not been codified.

Report on Marine Mammal Populations

Sec. 1101. The Secretary of Commerce, in consultation with the Secretary of the Interior, shall provide to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives within 12 months after the date of enactment of this Act [November 28, 1991] a report—

(1) assessing population sizes and trends of harbor seals, sea otters, California sea lions, and northern sea lions off the coast of the State of Washington, which assessment shall include the historic, present, and projected population sizes and the overall health of current populations of such marine mammals;

(2) assessing the effectiveness of sections 101(a)(3)(A) and 109(h) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1371(a)(3)(A) and 109(h)) with particular emphasis on the management of the lower Columbia River and Puget Sound marine mammal populations, which assessment shall describe how the agencies are interpreting and implementing such sections, how often such sections have been invoked, and whether such sections have been effective in the management of marine mammal populations and in responding to the problems which such sections were intended to address; and

(3) specifying long range management plans for the species of marine mammals listed in paragraph (1).

16 U.S.C. 1374 note

The following section 5(c) of Pub. L. 103-238, enacted April 30, 1994, has not been codified.

Permits

Sec. 5. (c) EXISTING PERMITS. — Any permit issued under section 104(c)(2) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1374(c)(2)) before the date of the enactment of this Act [April 30, 1994] is hereby modified to be consistent with that section as amended by this Act.

16 U.S.C. 1379 note

The following section 4(b) of Pub. L. 97-58, enacted October 9, 1981, does not amend the Act, but should be linked with it.

State Management

Sec. 4. (b) NO EFFECT ON CERTAIN COOPERATIVE AGREEMENTS. — Nothing in the amendments made by subsection (a) shall be construed as affecting in any manner, or to any extent, any cooperative agreement entered into by a State under section 6(c) of the Endangered Species Act of 1973 (16 U.S.C. 1535(c)) before, on, or after the date of the enactment of this Act [October 9, 1981].

16 U.S.C. 1421 note

The following section 3002 of Pub. L. 102-587, enacted November 4, 1992, has not been codified.

Findings

Sec. 3002. The Congress finds the following:

(1) Current stranding network participants have performed an undeniably valuable and ceaseless job of responding to marine mammal strandings over the last 15 years.

(2) Insufficient understanding of the connection between marine mammal health and the physical, chemical, and biological parameters of their environment prevents an adequate understanding of the causes of marine mammal unusual mortality events.

(3) An accurate assessment of marine mammal health, health trends in marine mammal populations in the wild, and causes of marine mammal unusual mortality events cannot be made without adequate reference data on marine mammals and the environment in which they live.

(4) A systematic assessment of the sources, presence, levels, and effects of potentially harmful contaminants on marine mammals would provide a better understanding of some of the causes of marine mammal unusual mortality events and may serve as an indicator of the general health of our coastal and marine environments.

(5) Responses to marine mammal unusual mortality events are often uncoordinated, due to the lack of sufficient contingency planning.

(6) Standardized methods for the reporting of dying, dead, or otherwise incapacitated marine mammals in the wild would greatly assist in the determination of the causes of marine mammal unusual mortality events and enhance general knowledge of marine mammal species.

(7) A formal system for collection, preparation, and archiving of, and providing access to, marine mammal tissues will enhance efforts to investigate the health of marine mammals and health trends of marine mammal populations, and to develop reference data.

(8) Information on marine mammals, including results of analyses of marine mammal tissues, should be broadly available to the scientific community, including stranding network participants, through a marine mammal data base.

16 U.S.C. 1421a note

The following section 3003(b), of Pub. L. 102-587, enacted November 4, 1992, has not been codified.

Marine Mammal Health and Stranding Response Program

Sec. 3003. (b) IMPLEMENTATION. — The Secretary of Commerce shall—

(1) in accordance with section 302 (a) and (b) of the Marine Mammal Protection Act of 1972, as amended by this Act, and not later than 24 months after the date of enactment of this Act [November 4, 1994]—

(A) develop and implement objective criteria to determine at what point a marine mammal undergoing rehabilitation is returnable to the wild; and

(B) collect and make available information on marine mammal health and health trends; and

(2) in accordance with section 304(b) of the Marine Mammal Protection Act of 1972, as amended by this Act, issue a detailed contingency plan for responding to any unusual mortality event—

(A) in proposed form by not later than 18 months after the date of enactment of this Act [June 4, 1994]; and

(B) in final form by not later than 24 months after the date of enactment of this Act [November 4, 1994].

Other Statutory Provisions Related to Marine Mammals

National Whale Conservation Fund Act

16 U.S.C. 3703

The following provision was enacted October 21, 1998, as Title IX, section 902, of Pub. L. 105-277.

Sec. 901. SHORT TITLE. — This title may be cited as the “National Whale Conservation Fund Act of 1998”.

Sec. 902. FINDINGS. — Congress finds that—

- (1) the populations of whales that occur in waters of the United States are resources of substantial ecological, scientific, socioeconomic, and esthetic value;
- (2) whale populations—
 - (A) form a significant component of marine ecosystems;
 - (B) are the subject of intense research;
 - (C) provide for a multimillion dollar whale watching tourist industry that provides the public an opportunity to enjoy and learn about great whales and the ecosystems of which the whales are a part; and
 - (D) are of importance to Native Americans for cultural and subsistence purposes;
- (3) whale populations are in various stages of recovery, and some whale populations, such as the northern right whale (*Eubaleana glacialis*) remain perilously close to extinction;
- (4) the interactions that occur between ship traffic, commercial fishing, whale watching vessels, and other recreational vessels and whale populations may affect whale populations adversely;
- (5) the exploration and development of oil, gas, and hard mineral resources, marine debris, chemical pollutants, noise, and other anthropogenic sources of change in the habitat of whales may affect whale populations adversely;
- (6) the conservation of whale populations is subject to difficult challenges related to—
 - (A) the migration of whale populations across international boundaries;
 - (B) the size of individual whales, as that size precludes certain conservation research procedures that may be used for other animal species, such as captive research and breeding;

(C) the low reproductive rates of whales that require long-term conservation programs to ensure recovery of whale populations; and

(D) the occurrence of whale populations in offshore waters where undertaking research, monitoring, and conservation measures is difficult and costly;

(7) (A) the Secretary of Commerce, through the Administrator of the National Oceanic and Atmospheric Administration, has research and regulatory responsibility for the conservation of whales under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.); and

(B) the heads of other Federal agencies and the Marine Mammal Commission established under section 201 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1401) have related research and management activities under the Marine Mammal Protection Act of 1972 or the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(8) the funding available for the activities described in paragraph (8)¹⁶ is insufficient to support all necessary whale conservation and recovery activities; and

(9) there is a need to facilitate the use of funds from non-Federal sources to carry out the conservation of whales.

Sec. 903. NATIONAL WHALE CONSERVATION FUND. — Section 4 of the National Fish and Wildlife Establishment Act (16 U.S.C. 3703) is amended by adding at the end the following:

“(f)(1) In carrying out the purposes under section 2(b), the Foundation may establish a national whale conservation endowment fund, to be used by the Foundation to support research, management activities, or educational programs that contribute to the protection, conservation, or recovery of whale populations in waters of the United States.

“(2)(A) In a manner consistent with subsection (c)(1), the Foundation may—

“(i) accept, receive, solicit, hold, administer, and use any gift, devise, or bequest made to the Foundation for the express purpose of supporting whale conservation; and

“(ii) deposit in the endowment fund under paragraph (1) any funds made available to the Foundation under this subparagraph, including any income or interest earned from a gift, devise, or bequest received by the Foundation under this subparagraph.

“(B) To raise funds to be deposited in the endowment fund under paragraph (1), the Foundation may enter into appropriate arrangements to provide for the design, copyright, production, marketing, or licensing, of logos, seals, decals, stamps, or any other item that the Foundation determines to be appropriate.

“(C)(i) The Secretary of Commerce may transfer to the Foundation for deposit in the endowment fund under paragraph (1) any amount (or portion thereof) received by

¹⁶ As in original, probably intended to be paragraph (7).

the Secretary under section 105(a)(1) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1375(a)(1)) as a civil penalty assessed by the Secretary under that section.

“(ii) The Directors of the Board shall ensure that any amounts transferred to the Foundation under clause (i) for the endowment fund under paragraph (1) are deposited in that fund in accordance with this subparagraph.

“(3) It is the intent of Congress that in making expenditures from the endowment fund under paragraph (1) to carry out activities specified in that paragraph, the Foundation should give priority to funding projects that address the conservation of populations of whales that the Foundation determines —

“(A) are the most endangered (including the northern right whale (*Eubaleana glacialis*)); or

“(B) most warrant, and are most likely to benefit from, research management, or educational activities that may be funded with amounts made available from the fund.

“(g) In carrying out any action on the part of the Foundation under subsection (f), the Directors of the Board shall consult with the Administrator of the National Oceanic and Atmospheric Administration and the Marine Mammal Commission.”

Study of Eastern Gray Whale Population

16 U.S.C. 917a note

The following section 203 of Pub. L. 106-555 (the Striped Bass Conservation, Atlantic Coastal Fisheries Management, and Marine Mammal Rescue Assistance Act of 2000), enacted December 21, 2000, has not been codified.

Sec. 203. (a) STUDY. — Not later than 180 days after the date of the enactment of this Act and subject to the availability of appropriations, the Secretary of Commerce shall initiate a study of the environmental and biological factors responsible for the significant increase in mortality events of the eastern gray whale population and other potential impacts these factors may be having on the eastern gray whale population.

(b) CONSIDERATION OF WESTERN POPULATION INFORMATION. — The Secretary should ensure that, to the greatest extent practicable, information from current and future studies of the western gray whale population is considered in the study under this section, so as to better understand the dynamics of each population and to test different hypotheses that may lead to an increased understanding of the mechanism driving their respective population dynamics.

(c) AUTHORIZATION OF APPROPRIATIONS. — In addition to other amounts authorized under this title, there are authorized to be appropriated to the Secretary to carry out this section—

(1) \$290,000 for fiscal year 2001; and

(2) \$500,000 for each of fiscal years 2002 through 2004.

Cook Inlet Beluga Whales

The following provision, enacted as section 3022 of Pub. L. 106-31 on May 21, 1999, and amended by Appendix B, section 627 of Pub. L. 106-553 on December 21, 2000, has not been codified.

Notwithstanding any other provision of law, the taking of a Cook Inlet beluga whale under the exemption provided in section 101(b) of the Marine Mammal Protection Act (16 U.S.C. 1371(a)) shall be considered a violation of such Act unless such taking occurs pursuant to a cooperative agreement between the National Marine Fisheries Service and affected Alaska Native organizations.

Endnotes for The Marine Mammal Protection Act of 1972 as Amended

ⁱ The Act (Pub. L. 92-522), approved October 21, 1972, has been amended also by Pub. L. 93-205 (the Endangered Species Act), December 28, 1973; Pub. L. 94-265 (the Magnuson-Stevens Fisheries Conservation and Management Act), April 13, 1976; Pub. L. 95-136, October 18, 1977; Pub. L. 95-316, July 10, 1978; Pub. L. 96-470 (the Congressional Reports Elimination Act of 1980), October 19, 1980; Pub. L. 97-58, October 9, 1981; Pub. L. 97-389 (the Fisheries Amendments of 1982), December 29, 1982; Pub. L. 98-364, July 17, 1984; Pub. L. 99-659, November 14, 1986; Pub. L. 100-711 (the Marine Mammal Protection Act Amendments of 1988), November 23, 1988; Pub. L. 101-627 (the Fishery Conservation Amendments of 1990), November 28, 1990; Pub. L. 102-251, March 9, 1992; Pub. L. 102-523 (the International Dolphin Conservation Act of 1992), October 26, 1992; Pub. L. 102-582 (the High Seas Driftnet Fisheries Enforcement Act), November 2, 1992; Pub. L. 102-587 (the Oceans Act of 1992), November 4, 1992; Pub. L. 103-86, September 30, 1993; Pub. L. 103-228, March 31, 1994; and Pub. L. 103-238 (the Marine Mammal Protection Act Amendments of 1994), April 30, 1994; Pub. L. 104-43 (the Fisheries Act of 1995), November 3, 1995; Pub. L. 104-208, September 30, 1996; Pub. L. 104-297 (the Sustainable Fisheries Act), October 11, 1996; Pub. L. 105-18, June 12, 1997; Pub. L. 105-42 (the International Dolphin Conservation Program Act), August 15, 1997; Pub. L. 105-277, October 21, 1998; Pub. L. 106-31, May 21, 1999; Pub. L. 106-113, November 29, 1999; Pub. L. 106-555 (the Striped Bass Conservation, Atlantic Coastal Fisheries Management, and Marine Mammal Rescue Assistance Act of 2000), December 21, 2000. Pub. L. 108-108, November 10, 2003 (Department of the Interior and Related Agencies Appropriations Act, 2004); Pub. L. 108-136, November 24, 2003 (National Defense Authorization Act for Fiscal Year 2004; and Pub. L. 109-479, January 12, 2007 (United States-Russia Polar Bear Conservation and Management Act of 2006).

ⁱⁱ The provision concerning the disposition of fines, enacted as part of Pub. L. 106-113, Div. B, section 1000(a)(3), technically is not part of the Marine Mammal Protection Act. It, however, has been codified at 16 U.S.C. 1375a as though it were.

ⁱⁱⁱ The Dolphin Protection Consumer Information Act, enacted as section 901 of Pub. L. 101-627, technically is not part of the Marine Mammal Protection Act. It, however, has been codified at 16 U.S.C. 1385 as though it were.
